PLEASE QUOTE
FILE **1-7-C.**

New Westminster, B.C.
October 27th, 1941.

SIR:-

I beg to report that I duly cleared the operation charges in connection with the Sardis Indian Preventorium, for the month of September, 1941, and under date of October 4th, submitted Form I.A.181, attached to Agency Voucher No. 468, for \$401.69, in favour of the New Westminster Indian Agency Trust Account.

The gross per diem costs were \$1.29 per capita,

Statements for the charges of the month, together with the receipted bills from the various Firms, are enclosed, in duplicate, for your information, and records.

The cheque in refund of these expenses has not yet been received, and I shall be obliged if you will look into the matter, as I will have no funds with which to meet the October expenses.

Your obedient servant,

Encls.

A.O.N. Daunt

SIR:-

I beg to report that I duly cleared the operation charges in connection with the Sardis Indian Preventorium, for the month of September, 1941, and under date of October 4th, submitted Form I.A.181, attached to Agency Voucher No. 468, for \$401.69, in favour of the New Westminster Indian Agency Trust Account.

The gross per diem costs were \$1.29 per capita,

Statements for the charges of the month, together with the receipted bills from the various firms, are enclosed, in duplicate, for your information, and records.

The cheque in refund of these expenses has not yet been received, and I shall be obliged if you will look into the matter, as I will have no funds with which to meet the October expenses.

Your obedient servant,

Encls.

PLEASE QUOTE
FILE **1-7-C.**

New Westminster, B.C.
November 17th, 1941.

SIR:-

I beg to report that I duly cleared the charges in connection with the Sardis Indian Preventorium, for the month of October, 1941, and under date of November 6th, submitted Form I.A.181, attached to Agency Voucher No. 551, for \$414.21, in favour of the New Westminster Indian Agency Trust Account.

The gross per diem costs were \$1.61, per capita.

Statements of the charges for the month, together with the receipted bills from the various Firms, are enclosed in duplicate, for your information and Records.

Will you kindly see that the refund cheque is returned in time to meet the November expenses.

Your obedient servant,

Encls.

A.O.N. Daunt

November 24, 1941.

EXTD.

Dear Sir:

As discussed with you during my recent visit, the Department considers that it would be advisable for the Preventorium to be absorbed into your institution as from December 1st, and that you should administer it as from that date.

It would be advisable for you to consult with Indian Agent Daunt and after he has cleared the November accounts and expenses he should return any balance held in his trust account to the Department. Mr. Daunt and Commissioner Mackay are receiving a copy of this letter.

At this time the Department would like to go on record as being greatly appreciative of the efforts of Mr. Daunt, his staff and the others who have successfully carried out the Preventorium during the interval between the closing of the school and the opening of the hospital.

Yours truly,

P. E. Moore, M.D., D.P.H.
Acting Superintendent of Medical Services.

SIR:- *[Handwritten signature]*

I beg to report that I duly cleared the charges in connection with the Sardis Indian Preventorium, for the month of October, 1941, and under date of November 6th, submitted Form I.A.181, attached to Agency Voucher No. 551, for \$414.21, in favour of the New Westminster Indian Agency Trust Account.

The gross per diem costs were \$1.61, per capita.

Statements of the charges for the month, together with the receipted bills from the various firms, are enclosed in duplicate, for your information and Records.

Will you kindly see that the refund cheque is returned in time to meet the November expenses.

Your obedient servant,

Encls.

To The Honorable, The
Superintendent General of
Indian Affairs
Ottawa,
Honorable Sir -

The Indians of Stuart's Lake
District have forwarded me the inclosed petition
for an Industrial School for their District.
They request me to forward the same to you
as it is to your honorable person that they
address themselves.

Knowing these Indians well, I can assure
you that an Industrial School would be the
best means to help these Indians.

They are probably amongst the poorest of
any Indians, in worldly goods, and they
depend on the Government to come to their
aid, both for the building and for the maintenance
of their children at school.

As they are all Catholics they appeal
to me to intercede for them in their efforts

to secure what they ask.

I have no hesitation to join them; for I am convinced that they are in real earnest, and that they will make as good a use, as any Indians have ever made, of the opportunities that shall be afforded them when a school shall be given them.

The only kind of a school that shall be of real benefit to them is an industrial school - at the distance at which they are from convenient shipping points, supplies will be so expensive that it would be useless to think of any other grant as sufficient, except an industrial school.

Grant -

The time has arrived when the Government of necessity do something more than what has been done up to the present time. With ^{the} ~~promising~~ changes about to happen, owing to the development of the country around Stuart & Lake, the conditions of Indians will be so affected that they will need more protection on the part of those who have charge of them. The Government I trust, will not be wanting in its duty towards its wards. One of the means best calculated to protect and aid these Indians will be the granting of a school such as they ask.

The Deputy Superintendent General:-

Mr. Superintendent Vowell has forwarded a communication received from His Lordship the Roman Catholic Bishop of New Westminster, together with a petition from the Indians of Stuart Lake asking for the establishment of an industrial school at that point.

This matter was referred to on a previous occasion in connection with correspondence which took place upon the subject of the condition of the Indians of Stuart Lake, but no provision was made in the estimates for next year for the establishment of a school.

I think this application might stand until it is decided whether it is advisable to extend the industrial schools or not.

Sir,

I have to acknowledge the receipt of your letter of the 30th ultimo, in which you state that many of the Indians in your Agency are anxious for the establishment of schools.

In reply I beg to say that the Department will be pleased to take this matter up, fully with you. I may say that some four or five years ago an application was made for the establishment of an industrial school at Stuarts Lake. The Department is not, however, prepared to extend the industrial school system, but is willing to establish day schools where it can be shown that there is a prospect of conducting them with success and where the services of efficient teachers can be had.

You will be good enough, therefore, to report upon the conditions on any of the reserves in your Agency where there is a sufficient number of children to justify the establishment of a day school and where the Indians are so located that their children could take advantage of such a school if established. You should also report upon the probability of the Department being able to secure competent teachers; not necessarily teachers with professional training, but those who would be interested in Indian work.

Dear Sir:-

Very Reverend E.M.Bunoz, O.M.I., is Prefect Apostolic of the Yukon. His residence is Prince Rupert. His jurisdiction extends from the 54th Parallel northward west of ~~xxxx~~ the mountains on the mainland, but includes Queen Charlotte Islands and Fort George. This is his diocese. He is not a bishop but may be addressed as such.

Regarding Indian schools in his diocese. There is a building at Stuart Lake almost ready to be open. He is inclined to open it if the amount contained in this years estimates for Atlin school and the Babine could be applied to the support of Stuart Lake. I have told him that we could switch the grant to the Atlin school and the grant for salaries and support of the Babine school building. That next year we might give him a larger grant but I am not favourable to establishing a school at Stuart Lake permanently. He himself is favourable to the permanent establishment of a school in his diocese at Fraser Lake on the line of the Grand Trunk Pacific. He will write his decision to build the Babine school or switch the grant to Stuart Lake when he returns to Prince Rupert. Hold the matter in the meantime.

and having regard to the establishment of Indian Schools in this Agency I beg to further report that after some correspondence on the subject with Rev Father Crocola I have secured his cooperation in the establishing of a Day school at Stony Creek where I stated in a former letter conditions app-

Entirely subject to the decision of the Dept. I made the following proposals to Father Crocola. -

"Would your Order be willing to supply teachers for Day schools, the Govt. to pay a reasonable salary for teaching the children say 4 or 5 hours a day certain subjects to be named by the Department, the Govt. to build and equip schools, teachers to board themselves out of their salaries. Schools to be open for Govt inspection at all times."

This proposal was meant to embrace the whole Agency. Father Crocola after consulting his superior, Rev. Bunoz, has replied on behalf of his order agreeing to the proposal as far as Stony Creek is concerned and consents that it be submitted for the Department's consideration. Department will agree to the establishment
of an Industrial school, and if the C. T. P.

of supplies I would heartily recommend the

Should this action meet with the approval
of the Dept. I would advise that the matter
of a Day School on the Stoney Creek reserve
be given favorable consideration, as I now
consider the objections raised in my letter

Sir,-

Referring to your letter of Sept 21

No.

Having regard to the establishment of Indian Schools in this Agency I beg to report that in some sections of the district the outlook is apparently good. At Stony Creek with a population of 181, and at least 30 children of school age the prospects are perhaps best. I held a meeting there last Sunday and discussed the whole question with them, explaining what the Department was willing to do and what not, and they expressed themselves as very anxious that a day school should be established there. The Indians were evidently very much in earnest, as to try them I said "Now the building and maintaining of a school here will cost the Govt. a lot of money, would you be prepared to do anything to assist the work?" and they replied that if the Govt. would supply grub they would cut and haul logs for the building. — It would be cheaper of course to contract the work, I merely cite the incident as tending to show their good faith.

However in a case of this kind calling as it does for considerable expenditure of money, one has to consider well the fickle nature of the Indian — clamoring for a new thing and if not to his liking casting it aside. Although they ask for schools they do not realize the

advantages of them. I have their religion is to be considered, they are all Catholics and their Spiritual adviser, Father Cocoola is uncompromisingly opposed to Day Schools and how much he may use his influence to kill the project and how far he may be successful are problematical. Schools under religious control might probably give best results, but to encourage another denomination to take hold simply means that before it could succeed the little grain of faith the Indian now has would have to be destroyed. If the Department could be assured of always securing the services of devoted men to teach, men with infinite patience & tact, although without scholarly attainments, baneful influences could be overcome & I would say, go ahead success is in sight, but I know such teachers are difficult to obtain. The Provincial Govt. ran a little school at Stuart Lake for a few years and although paying a salary of \$95 a month they had three teachers in four years only one being willing to undertake a second term. This school with the consent of all parties admitted some Indian children to make up the desired number. I have I am informed the Priest took away and sent to the Williams Lake Industrial school, compelling the little one at Stuart Lake to close down.

The School question is a hard nut to crack

and this report may seem very pessimistic, but I do not regard this as final, I would simply advise the Department to go slow as the whole thing is in the nature of an experiment.

Leaving out the question of expense, and from the stand-point of actual teaching results to be obtained, also taking into consideration the nomadic habits of the Indians, the listless indifference of many of them together with the strong opposition before mentioned which the Day School may have to contend against, I have no hesitation in saying that an Industrial boarding school on the lines of Williams Lake school would give good results; but the cost of establishing & maintaining same would be staggering. The Department's decision not to extend this system is I take it final and probably wise.

I shall be glad to give the department any further information at my disposal, but would advise no hasty expenditure of money until absolutely assured of the cooperation of the Indians, and the entire elimination of unfair opposing influences, and I would suggest that no definite action be taken until next Summer, when Inspector McDonald may visit the Agency, and I can have a chance to confer with him on the subject, the Department could then have the advantage of a report from him as well.

In the event of a school being established at

mean time ,however,viz.whilst waiting for the completion of a proper school I would be glad to see some teachers appointed in the principal centres,they might be of some benefit,especially to the adult population.

4) Although not connected with education I beg to mention again the question of the Hagwelget reserve which I am afraid might become a bone of contention between the indians of Hazelton and of Hagwelget on account of the clerical error that has crept in title name of the reserve;as ,it appears,the whole reserve comes under the name of ((Hazelton indianreserve)).The considerable value which the Hagweget side is acquiring on account of its proximity to the Taylorville townsite,might become the source of the annoyance.Could not that question be settled once for all? May, I would say,could not a revision of some reserves be effected? Some are very large and others very small. The Hagwelget reserve is much too small for the number ^{of people} living on it.They figure that within two years their supply of fuel will be completely exhausted.

5) Finally I must bring to your notice the advisability of having the Hagwelget and Morice-Town ^{reserves} surveyed in lots of moderate size,which would be given one by one to the natives in proportion as they cultivate them.That would ~~prevent~~ prevent some over-ambitious ones from fencing & taking more land than they can make use of;thereby,leaving others without even a garden plot.

I have to acknowledge the receipt of your letter of the 21st ultimo in reference to the erection of a boarding school in the interior of northern British Columbia.

In reply I beg to say that your suggestion as to the site of this school at the east end of Fraser Lake is noted. Before taking further action, however, the Department desires full details with regard to construction, etc. I am sending you, under separate cover, a blue print of a school being erected by the Roman Catholic Church at Norway House and also a plan prepared for a school on the Blackfoot Reserve in the province of Alberta. These buildings are frame on stone foundations and I should like to have your opinion as to their suitability for the British Columbia location.

I have also to ask you to be good enough to state where the materials of the various kinds which would enter into the construction of a building could be obtained, whether it is probable that reasonable tenders for the erection would likely be obtainable and what the approximate cost of a building on either or both these plans would be.

This chapel is intended for the accommodation of the mission as well as the school. In the Crowfoot plan there is chapel for the use of the pupils and staff in the building.

The plan for the Crowfoot building was designed by the Department and can easily be enlarged to provide proper accommodation for one hundred pupils and staff.

Under the terms of the current contract for the maintenance and management of Indian boarding schools the Department is erecting buildings of modern design with a proper water supply, hospital accommodation, sanitary appliances and efficient ventilation systems. I am sending you herewith a copy of this agreement, and from a perusal of this you will learn why the Department is erecting modern buildings, or, in cases ~~like~~ where the Churches undertake the work, requiring them to do likewise, provided they wish to draw the maximum grant.

Dear Sir,

Referring to your favor No. 350242 and to my promise of the 3rd ult. I beg to inform the Department that, in our judgment, the best location for the intended boarding school in the interior of North ^{East} B.C. would be at the end of Fraser Lake, on the South bank of the Nechaco river, opposite to the actual Fort Fraser Indian village. That location offers the advantages of good water, rich farming land and facility of communications, being close to the Fraser Lake townsite. I enclose a rough cut which may give you some idea of the general situation.

I beg moreover to recommend a boarding school capable of accomodating 100 pupils as there are fully 200 children of school age in that district who will depend on thatm institution for their education.

With regard to the nature of the building I would say that a substantial frame structure would be quite sufficient for a number of years. A concrete or brick building would be better, of course, but I do not know whether such material is available in the neighbourhood. A saw mill, however, is now being installed for the Fort Fraser townsite.

Hoping that these informations will be of some aid to the Deparment and that operations will be started without delay

Referring to official letter of October 5th, last, and previous correspondence in connection with the establishment of a boarding school for the education of Indian children in the interior of British Columbia in the district under your charge. I beg to say that the supplementary estimates of this Department, which have been passed by Parliament, contain an item of \$25,000.00 for the erection of a boarding school building.

I have to ask you, therefore, to be good enough to let the Department have full information respecting the location that you consider best for a school of this kind, the number of children for whom accommodation might be provided, the kind of building and means of construction that you would suggest, having in mind the amount of money that is available for the purpose. Indian Department, Ottawa.

H. D.

Dear Sir,

Referring to your favor No. 350242 and to my promise of the 3rd ult. I beg to inform the Department that, in our judgment, the best location for the intended boarding school in the interior of North ^{East} B.C. would be at the end of Fraser Lake, on the South bank of the Nechaco river, opposite to the actual Fort Fraser Indian village. That location offers the advantages of good water, rich farming land and facility of communications, being close to the Fraser Lake townsite. I enclose a rough cut which may give you some idea of the general situation.

I beg moreover to recommend a boarding school capable of accomodating 100 pupils as there are fully 200 children of school age in that district who will depend on that institution for their education.

With regard to the nature of the building I would say that a substantial frame structure would be quite sufficient for a number of years. A concrete or brick building would be better, of course, but I do not know whether such material is available in the neighbourhood. A saw mill, however, is now being installed for the Fort Fraser townsite.

Hoping that these informations will be of some aid to the Department and that operations will be started without delay

I beg to remain

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 21st ultimo in reference to the erection of a boarding school in the interior of northern British Columbia.

In reply I beg to say that your suggestion as to the site of this school at the east end of Fraser Lake is noted. Before taking further action, however, the Department desires full details with regard to construction, etc. I am sending you, under separate cover, a blue print of a school being erected by the Roman Catholic Church at Norway House and also a plan prepared for a school on the Blackfoot Reserve in the province of Alberta. These buildings are frame on stone foundations and I should like to have your opinion as to their suitability for the British Columbia location.

I have also to ask you to be good enough to state where the materials of the various kinds which would enter into the construction of a building could be obtained, whether it is probable that reasonable tenders for the erection would likely be obtainable and what the approximate cost of a building on either or both these plans would be.

I may add that the Norway House School will accommodate 65 pupils and the Crowfoot 70 pupils. If the Department were

were erecting a building after the plan for the one at Norway House it would not put up a chapel such as is shown on this plan. This chapel is intended for the accommodation of the mission as well as the school. In the Crowfoot plan there is chapel for the use of the pupils and staff in the building.

The plan for the Crowfoot building was designed by the Department and can easily be enlarged to provide proper accommodation for one hundred pupils and staff.

Under the terms of the current contract for the maintenance and management of Indian boarding schools the Department is erecting buildings of modern design with a proper water supply, hospital accommodation, sanitary appliances and efficient ventilation systems. I am sending you herewith a copy of this agreement, and from a perusal of this you will learn why the Department is erecting modern buildings, or, in cases ~~like~~ where the Churches undertake the work, requiring them to do likewise, provided they wish to draw the maximum grant.

I beg to say that the supplementary estimates of this Department, which have been passed by Parliament, contain an item of \$25,000.00 for the erection of a boarding school building.

I have to ask you, therefore, to be good enough to let the Department have full information respecting the location that you consider best for a school of this kind, the number of children for whom accommodation might be provided, the kind of building and means of construction that you would suggest, having in mind the amount of money that is available for the purpose. Dear Sir,

Your favor of July 18th. No. 350242/1, enclosing two blue prints and form of agreement, duly to hand. I regret very much the delay of my answer. It was inevitable on account of my absence through the interior.

In reply I beg to say that we prefer for our school the plan designed for the Blackfoot reserve school. It should be enlarged so as to accommodate hundred pupils and staff.

Reasonable tenders should be obtained now. There is a sawmill close by which could supply all the lumber required with the exception it may be of the finishing lumber. Sand and gravel can be found right on the spot whilst first class lime can be obtained at Stuart Lake, at a distance of 40 miles. The material that has to be imported could be hauled at a moderate price on the road used by the G.T.P. contractors from Burn, Lake to Fraser Lake. A frame building with stone or concrete foundation would be very suitable. ~~Moreover~~ ^{yet}, as we are very anxious to see that building started next Spring, I might suggest that a post foundation might do for a few years if cement was considered too expensive.

Not having the plans of the basement and roof and not knowing which would be the specifications they would not risk figures on the whole building.

However to enable the Department to form some idea of the probable cost I send you the following information which perhaps may serve the purpose, viz:

- 1/ The saw mill, at Fraser Lake, sells lumber at \$40.00 per 1000 ft. A special price, I think, would be made for a large quantity.
- 2/ The wages of good carpenters and masons are 60 or 62 cts an hour.
- 3/ Sand, gravel and stones can be found right on the spot.
- 4/ Lime can be obtained from Stuart Lake at almost ordinary market price.

MEMORANDUM -

Mr. Pedley:-

You will remember that one stipulation of the agreement entered into with the Indians with reference to the fishing arrangements on the Stuart and Fraser Lake Districts is that we are to provide a Boarding School. We have been in correspondence with Bishop Buno and have sent him the plans and specifications of the building designed for the Crowfoot School on the Blackfoot Reserve. He has approved of this plan and desires it to be enlarged so as to accommodate 100 pupils. The question immediately arises whether the Department is prepared to provide for 100 pupils at an annual cost of \$125.00 each or \$12,500.00. The erection of a building of that size and on that plan a specification in the locality designated would be very expensive. Bishop Buno foreshadows this in his letter of December 12th, which, however, contained no positive information as to the cost. When he states that the rest of the material, exclusive of lumber, sand and lime to be hauled 100 miles from the western end of the steel, one can gather an idea of what it would cost to build. Our experience

experience in endeavouring to erect the houses for the Indians at Fort George has also a value. Considering all these facts I think it would be quite impossible for us to consider erecting a building until the Grand Trunk Pacific is finished. There has been no positive promise that the building would be erected at any special date, and the late Superintendent General in writing to Bishop Buno^z on the 15th March, 1911, stated that of course, the Department will not be able to deal with it, (that is i.e. the erection of a school) in ~~any~~ a practical manner until the railway is built and in operation. ² We would be willing to operate day schools if practicable and our correspondence I think with the Bishop should be along these lines.

Dear Sir,-

Permit me to bring to your attention a matter which is very dear to my heart and which is of the utmost importance to the welfare of many in this section of the country. I mean the matter of extending the benefit of schools to the natives of Bulkley Valley and to those in the immediate vicinity of Lake Babine, in this Province.

There are a great many natives on the upper part of the Skeena River and tributaries but ~~XX~~ I am at present chiefly concerned with the tribe called Thene, living in the aforesaid districts of the Babine Agency. They number about 250 in the Bulkley Valley and about 350 around Lake Babine. All of these people are living in permanent settlements and those residing in the Bulkley Valley earn their living by teaming, packing and raising horses and cattle; only very few follow hunting as a profession. The occupation of the people around Babine Lake is pretty nearly the same but for the fewer chances given them to pack and freight in winter time; therefore they follow more hunting and packing during that season.

So far these people have only come into contact with the white man during the last few years and have had very little chance of getting a school education.

Very

On different occasions the Rev. Father E.M. Bunoz the prefect of this ecclesiastical district of the Catholic Church, and the Rev. Father N. Cocoola have applied to your Department for the establishment of a school for the Babine District, but in view of the high prices of handsawn lumber, the Department thought it advisable to wait.

At Haggulghet Village I started a little school with thirty-eight children from this village alone. I have kept it open for two seasons, but as it handicapped me seriously in the exercise of my other duties as parish priest of a large district, I had to give it up, of which decision I notified the Indian Agent in consequence. During all this time the following principals became clearer to me than ever before.

1. A day school in an Indian settlement is of very limited use among the aborigines. The good inculcated in the school is very easily forgotten when so many contrary influences after school hours are active to drag the children back into the old rut. Only a boarding school can prevent those disadvantages and can accomplish lasting good results.

2. Moreover a day school is unsufficient because many of the children are too poor to attend school regularly, having to assist their parents in procuring a livelihood for the family. An empty stomach is a hard thing to stand for before feeding the mind the body must be fed; therefore, only an institution that gives them food and clothing can achieve the desired results.

All those who have been working among the aborigines for any length of time will endorse these principals which I have cited above. The Rev. Father N. Coccola who has a practical experience of thirty years hard work among the natives of British Columbia, is a most ardent advocate of this system.

Now, dear Sir, we have about seventy children of a school age in the Bulkley Valley and about the same number in the Babine district which would certainly furnish the material for such a school, with regard to which I might point out that there are many other places where the Government has granted Indian boarding and industrial schools for a far smaller number of children.

If this school were granted it would be the first of the kind given to the natives of this part of the country,

the central north of British Columbia.

The natives themselves are absolutely in favour of a school, nay are clamoring for it. They have come sufficiently into contact with the white population along business lines to realize the ^{urgent} necessity of it. Moreover the delay in granting a school certainly exposes the Government to criticism, as many of the settlers have come from various parts of Canada and of the United States where the natives have been given the opportunities of enjoying the benefit of good schools. I am or more ready persuaded that there is no tribe more eager [^] to take advantage of them than the Thene tribe.

All the natives before mentioned have been christianized by the Catholic Church and are practical Christians, therefore any school granted by the Department should not be undenominational but should be a Catholic school in accordance with the policy of the Department as carried out with regard to the Industrial School at Cranbrook, the St. Mary's Mission on the Fraser River and the Industrial School at Qu'Appelle. We can easily and quickly arrange with some religious sisterhood of the Catholic Church to undertake the teaching part of the institution.

Only a school of this character will be suitable for or congenial to the natives and I am quite sure that it will be the only one to give satisfaction.

These are, dear Sir, a few points regarding the need and constitution of a school in this neighborhood which I beg to submit for your information, in the hope that they will receive favourable consideration of the Department.

Trusting that I may be advised of the decision which will be made by the Department on this, for the Thene Indians, most important matter, I beg to remain,

Rev. Sir,-

I beg to refer to your letter of March 26th, last, in reference to the erection of a boarding school in the northern part of British Columbia.

In reply I beg to say that the Department has had the erection of a school in the Fraser Lake district under consideration, but, in view of the remoteness of the situation and the great difficulty in getting in building materials and supplies, it has been considered advisable to defer a final decision in the matter of the erection of the building until the railway is built and in operation.

In the meantime there would not appear to be any reason why in certain districts at least day schools would not help to meet the needs of these Indians. The experience of the Department is that in many instances the results of work in the day schools compares favourably with that of the boarding schools in so far as instructions along the branches of an ordinary English education is concerned.

The Department regrets that you have found it necessary to give up the work in your day school, but apparently it was not on account of lack of success of the school, but rather because it interfered with your other onerous duties as parish priest.

I have to acknowledge the receipt of your letter of the 22nd ultimo in further reference to the erection of a boarding school building at Fraser Lake.

In reply I beg to say that, in view of the remoteness of the situation at the present time, the Department is of opinion that it would be quite impossible to consider erecting a building until such time as supplies can be taken in by rail. The amount provided for the erection of a school would not go very far under existing conditions, owing to the high prices of materials and freight rates. In the meantime the Department would be pleased to give consideration to the question of conducting one or two day schools in some of the villages of the district where the Indians are permanently located and engaged in such occupations as do not call them away from the reserves to any great extent. I should be pleased to hear from you in regard to this matter.

Dear Sir, -

Your letter announcing continuation of day school at Stuart's Lake, duly to hand. Kindly accept my heartiest thanks.

As mentioned in my last letter there are about 50 boys at the Industrial school and we purpose to provide ^{accommodation} for 50 girls during the summer. However before going to such an expenditure I would like to be ascertained whether the department is prepared to supply the per capita grant for the 50 additional pupils, viz: for 100 in all. I would be very thankful for the information at your earliest convenience.

Useless, I am sure, to speak of the necessity of the girls' department at the school, you know it well. However, apart from the reasons drawn from the necessity of education I might say that without the help of that additional department it will be very difficult if not impossible to keep up the boys school on account of the high cost of the maintenance. Moreover the hunting grounds of that region are rapidly getting depleted and unless the Indian boys and girls are properly trained in the manner of making a living ~~xxxxxx~~ according to new conditions they will have to be supported by the government in the near future.

Your respectfully

Dear Sir, -

I have the pleasure to announce you that the Indian Industrial School at Stuart's Lake has been opened on the 2nd. of this month with an attendance of 39 boys, despite a very severe spell of cold weather prevailing at that time. I expect there will be over 50 boys in attendance around Easter next. I intended to have the opening on the 2nd. of January ult. but despite our best efforts we could not get the buildings ready at that date.

We have opened the boys department only, because the accommodations at the school are far unequal to the number of aspirants, hence we could not admit both sexes. However I hope that next Fall we shall have the ^{girls} department established there also with nuns in charge. The school will then accommodate 50 boys and 50 girls, making in all 100 pupils, which number, I am sure, will be agreeable to the Department.

I understand the Day School is to be cancelled immediately against our expectations. I thought you might keep it up till the end of the scholastic year for the benefit of the girls who cannot find admission in the boys school just now; perhaps the wife of the actual teacher might take care of those children for a few months at a reduced salary.

Hoping that you are well

I beg to remain yours very truly

Superintendent of Indian Affairs,
Ottawa.

Dear Sir:-

The acknowledgment of the Aalin Indians right to a school and the generous support of the said school a few years ago, was the good work of the administration of which you, Sir, are the head. As I was the founder and manager of the said school, I had several opportunities to deal with your important Department.

The fair treatment I have then received was not the least encouragement that lead me to assume the task of building and directing a boarding school at Fort St James, B.C.

It is in behalf of this last institution that I am addressing you these lines.

Much to my surprise, Mr. McAllen, Indian Agent for this district, advises me that the Department wants the Stuart Lake Indian Day school to be closed immediately after the Boarding school has been started.

If such a plan were immediately followed I could not do justice to all pupils, nor would I economize any of the Departments money.

To do justice to all pupils, both boys and girls, must have their own apartments for class, and manual labour, for eating, sleeping, recreation a.s.o. This would require a very spacious building, and during these war-times, (The Government having declined to actually fulfil its pledge of erecting here such a spacious building, that might cost \$50,000.) the ecclesiastical authorities have done the next best thing. According to means and time we have erected a school which is not sufficiently large to fully accomodate both sexes.

Therefore I beg to you, Sir, to allow me to keep open the Stuart Lake Day school for girls, while boys will all attend the Boarding school, for Indian parents are more eager even to have their girls than their boys educated.

To attempt to accomodate both boys and girls in the actual building, would, I am afraid, not only, compromise the success of the work, but instead of lessening expenses it would increase them. For instance twenty girl boarders would cost a good deal more to the Department than the small teachers salary of \$800- a year and the small amount expended for fuel and lunch. This lunch to the day-school pupils will be even less expensive owing to the fact that no boys shall share in it. So both the pupils and the Departments interest will, I am convinced, be better served for the time being by keeping open the Stuart Lake Day school, for some time, along with the new boarding school of the same place.

I note your remarks with reference to the condition of the Babine Indians. The failure of the salmon fisheries was brought to the attention of the Department by the Agent, who was given the necessary instructions as to relief for these people, should they be in need of it.

Dear Sir,-

Over a month ago I have written you from Fort St. James asking informations as to the exact per capita amount that would be paid to the Industrial school of that place which is located at 45 miles from the nearest station. I have no reply so far. The temporary buildings of the school are about finished and we will very soon begin to gather in the children.

I would appoint Father J. Allard o.m.i. principal of the school. He is very well qualified for the position. He is an old student of the Ottawa University and takes a great interest in that work.

I have just returned from a journey to Babine where I have met all the Indians of that tribe. They are fairly well up to the present date but they are bound to suffer during the winter unless special assistance is given them. Their salmon crop has been a complete failure. Mr. Loring told me he had taken the proper ~~xxxxxx~~ steps with the Department with regard to that matter.

Hoping to receive all informations with regard to school I beg to remain yours respectfully

Dear Sir,

I heartily thank you for announcing me by wire the grant for the school of the Fraser Lake agency. On receiving the good news I immediately set out for Fort St. James, the only place where we have buildings available for school purposes, in order to see right on the spot what accommodations could be found in them.

Realizing they could not afford sufficient accommodations for fifty

boarders, we immediately started work on a substantial addition which will supply the necessary space. Every thing shall be ready by New Year's Day which shall be the date of the opening of the school. The buildings of course shall not entirely ^{be} up to date with regard to modern appliances but they will be perfectly sanitary and just as comfortable as any of the white settlers homes in the same district. They are beautifully situated on lake Stuart at 48 miles from Vanderhoof the nearest railway station. It is the best place for school so far as indian centre is concerned. The indians can reach it from all sides by lake, roads or trails.

As I always understood this school shall be ranked as an industrial school, taking also into consideration the distance from the railway in fixing the per capita grant. Moreover I must state hereby that although we accept the present arrangement we do

My dear Bishop Bunoz.-

I have your note of August 6th, with reference to the establishment of an industrial school; when the Minister returns I will take an early opportunity of discussing this matter with him. I may say also that it is quite unusual to pay any rental for school buildings, and I think it only proper to say that you should not expect a revenue from this source, all that we could pay would be the per capita grant.

Dear Mr. Duncan Scott, -

494001

I beg to inform you that I had this afternoon an interview with the Hon. W. J. Roche minister of the Interior. We discussed again the long delayed school which the Government owes to the Indians of the Fraser ^{Lake} Agency. And in view of the fact that we would supply the building, the Minister fully agrees to supply an industrial school grant for 50 children if that amount can be found in the treasury. The Hon. W. J. Roche will take up the matter ~~as~~ with you as soon as he arrives in Ottawa, yet I immediately advise you in order that you may prepare for the undertaking and avoid delay as we expect to open the school in September next.

Of course I should ask rental for the school building in order at least to defray the repair expenditures but as I am afraid this would be an obstacle in the way of the above grant I offer to forego ~~the~~ such claim till the next parliamentary session.

Yours faithfully

Now I would wish very much to form twenty of these boys into a cadet-corps. The material is there for a good corps. After 5 evenings of instruction, the boys went through a few exercises of physical drill in the presence of Captain Byron and Mr. McAllan, and I am sure they will both agree with me that these boys will form a splendid cadet-corps. Would it be asking too much from your Department to help these boys out and to furnish them their uniforms and cadet-guns, the same as I saw them have there in other places, for instance in the Blood-Reserve at Medicine Hat, Alberta. I picked out the best twenty boys, whose ages

go from 4 feet 5 inches up to 5 feet 2 inches. Dear Mr. Scott, -

By sheer necessity I am compelled to ask the Department an increased grant for the Industrial School at Stuart's Lake. Despite the best regard for economy it has gone \$1200.00 in debt during the last scholastic year. It is therefore surely entitled to the \$145.00 grant per capita which is allowed to other schools, as it is a new school in need of many minor improvements and its location is more affected by the higher cost of living than any other place in B.C.

Hoping that you will come to our help whithout delay

I have your note of the 13th. August asking for an increase in the per capita grant to the Stuart Lake boarding school. We will be pleased to increase the per capita grant by \$10.00 during the current fiscal year, and this is the best we can possibly do. We are making a general increase of this amount to our residential schools, but our funds will not permit of any additional increase. I hope, however, that this will be of material assistance.

Memo.

Mr. Scott:-

With regard to the application made by Bishop Bunoz to have the per capita grant, now paid to the Stuart's Lake Indian Boarding School, increased, I beg to say that this school was only started on the 1st of February last with a per capita grant of fifty pupils to \$125, which was the maximum allowance made to schools. This grant has lately been raised to \$135 per capita, owing to the increased cost of living, and as notice of this increase was only sent out on the 19th of July to the Agents and principals of the schools, Bishop Bunoz may not be aware of an increase having been made. This school will now be in receipt of \$135 per capita. The Stuart Lake School does not rank as an Industrial school but a Boarding School, and the highest grant allowed to the Industrial Schools is only \$140 per capita. Bishop Bunoz was advised on Nov. 2, 1916 that the Department would pay a grant of \$125 per capita, and the school was opened on that basis.

I do not see that this school can be made an exception, and it should be able to finance it with the present per capita grant when it is in good running order.

They are Sister Hieronyma Superior with Sisters Lydia, Josephine and Magdalen. These sisters have had experiences in the Indian Schools of Squamish and Sechelt where other members of their order are still teaching Indians.

Mr O'Koni having enlisted and given up teaching will be replaced as Day School Teacher by Sister Hieronyma for the present month of September. So please have the September salary addressed to the present incumbent - Sister Hieronyma.

An addition to the actual buildings is being erected which I figure will enable me to take also girls as boarders beginning on the first of October next.

Sir,—

Referring further to your letter of Nov 16 No285754-1, I beg to say that I was at the Stony Creek reserve a few days ago and went into the matter of alleged dissatisfaction with present school as stated in telegram ^{from Indians} quoted in your letter.

I was assured that the dissatisfaction ~~xxx~~ had been only temporary and arose in the following manner.— It is the first time in the history of the band that they have had their children separated from them for any length of time and on November 1st when several of the parents visited the School at Stuart Lake much emotion was shown by both children and parents particularly the mothers and when they returned some days later to Stony Creek they importuned the Chief and other headmen so insistently that the said telegram was drafted and sent to Dept.

The Indians present at the meeting agreed to draft another wire contradicting the former and send to the Dept. I agreed to this but stipulated that they wait until the Chief who was out hunting returned home so that if agreeable to him his signature would be attached to telegram.

Rev Father Coccola was present and censured the Indians for allowing the emotion of one or two women to interfere with plans for their betterment. Kindly advise me if a wire is received in the near future from the Stony Creek Indians and the import of it.

Right Reverend Sir,-

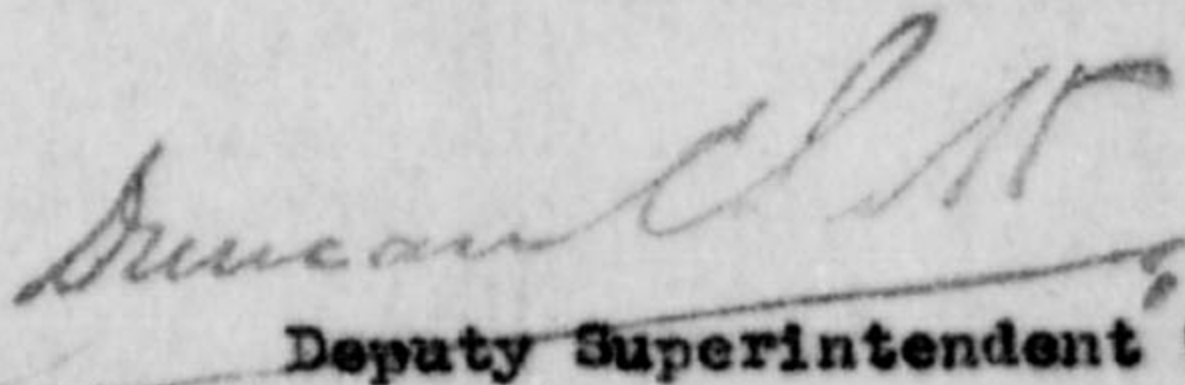

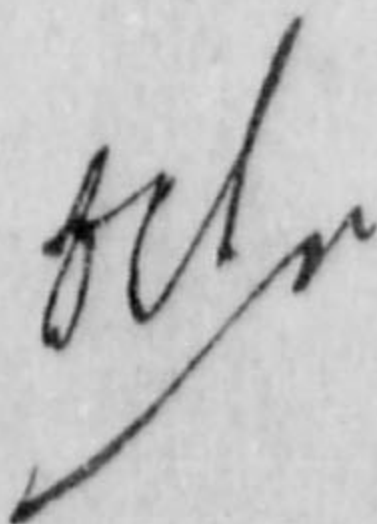

I have to acknowledge the receipt of Your Lordship's letter of the 21st inst., with reference to the erection of an industrial school building at Fraser Lake.

I regret very much that your previous communication was not replied to. I may state that action was taken on it, and Mr. McAllan, the Indian Agent, was asked to supply certain information, with reference to the buildings at present occupied by the school.

I can assure Your Lordship that we will keep the claim of the Indians for this school in the forefront of our programme for rebuilding, but our ability to carry out our wishes in this matter is altogether subject to the provision of funds by Parliament, and it may not be possible for the Department, even in the next year, to obtain any money for buildings.

The cost of erecting a school in that district would be very high at present, owing to the excessive prices of materials and the cost of labour.

MEMORANDUM.

Mr. Scott,-

In March, 1917, the Rev. Father Bunoze wrote the Department stating that they proposed providing accommodation for fifty girls at the Stuart Lake Boarding School, but, before incurring any expenditure, they would like to ascertain whether the Department would be prepared to allow the per capita grant for this additional number.

He was informed in reply that when there is sufficient accommodation at this school for one hundred pupils the Department would be prepared to pay for that number and he was asked to furnish a scale plan of the building showing the complete layout.

On the 13th of January of last year Father Bunoze was again written to for these plans.

In his reply he stated that they were then erecting a temporary addition to the main building, which was comfortable and healthy, but that he would like the Government to help to put up a more stable structure.

They have 52 boys and 14 girls enrolled at this school and apparently the girls are accommodated in the temporary addition and they have been there since December quarter, 1918. Mr. Inspector Cairns gives the dimensions of this addition as 36 feet by 28 feet, two storeys high, which would provide accommodation for at least 25 or 30 girls. Provision is made in the Estimates for 100 pupils at this school.

The best thing Father Bunoze can do is to take in as many orphans as his building will accommodate. They should be able to get on for sometime with the present building.

Dear Mr. Duncan Scott,-

As the time for reconstruction has come and the Estimates for 1919 must be engaging the attention of the Government at Ottawa I beg to remind you of the promise made to me and to the Indians of the Fraser Lake Agency that the first indian school to be erected after the war would surely be the school of the above named agency. We have been waiting a long time for it. However we don't complain about the delay as it was made imperative by the war but we do hope that now justice will be rendered to those Indians. Besides their strict right to the school founded on bilateral contract ^{they} have well deserved good treatment by their good behaviour towards the civil authorities in the past. And they have an additional ^{claim} today coming from the fact that the influenza has made many victims among their adult population and left many orphans.

The Indian Boarding School at Stuart Lake
B. C.

To W. J. Mc Allan

Sir,

Several years ago the Government pledged itself to erect a Boarding School in the Stuart Lake Agency. Over 200 children of school age justify the existence of this school.

The erection of such school was postponed till the opening of the G. T. P. R. R. But as the opening of the said R. R. occurred during the great war, the Government decided to delay again the erection of the school till after the war.

The war was on for two years and no sign of its end was in sight. Hence the authorities of the church being granted Government support for the maintenance of the school, decided to erect a temporary building to start the education of as many as could be accommodated.

Such a building erected for a temporary purpose cannot be considered adequate to the need of such an institution as the following description will make it evident.

I ~~Quality~~

The actual school is situated 30 ft. from the road leading from the Indian town to the store. Hence the daily transit of people who interfere with the pupil when out in recreation, and who are also tempted to make too many visits.

II Insufficient space

The school comprises three buildings. The first erected several years ago for a day school was built on a small area of cleared land the only land then available. Hence ~~its~~ location on road side. It is made of round logs chinked every fall with either mud or lime and sand. The Indians who built this house put the bottom log on the ground, wherefore it is fast getting rotten and will soon become a menace to the inmates.

The size of this building is 40x50 with a 10 ft. ceiling. The only two class-rooms of the school are in this building. One is 21x25 feet the other 21x14 to accommodate 73 pupils. Those rooms are about twice too small for the number of pupils on hand much less would they accommodate the hundred of pupils actually deprived of any education for want of space in the actual school.

Beckless to say that the Indian builders did not put in any facility for ventilation, and that therefore before the class hour is over a fairly heavy cloud of foul air rests on the heads of both teachers and pupils. Such is the state of Class rooms built for a temporary object. Such also is the state of all other rooms of the temporary school.

double The boy's bed room is in the attic of the log house and is 35×70 . It is occupied by 50 boys with a guardian quarters, a wash stand, a stove, and a stair way. But as the stove, the chimney and the stair way are in the middle of the room they occupy so much space that eight tiers had to be hung on the walls and that hardly a foot space is left between the beds, whilst the guardian's bed is surrounded with shelves filled in with clothes.

The girl's bed room is 20×31 and 10 ft ceiling. Also another room 15×31 and 7 ft ceiling. This last room had to be discarded during the flu for want of air-space. But as the first room is also occupied by guardian quarters, stove and wash stand, it is too small to accommodate everyone so that there are still 10 girls sleeping in the small attic.

The staff room 20×10 is on the same floor as

the girls bed-room, but a stair way and a stove are cutting so much into it that really it may be said that the staff is sheltered under the staircase.

A small room 13×22 is all the recreation hall at the disposition of the girls, and yet this space is also lessened by a stair way. The same limited space may be said to exist in the girls and boys dining room and all other rooms of the house. And yet there are still greater reasons calling for a new building.

There is no sick room. A small office room 10×12 , the only office in the house adjacent to the boys recreation hall has to be used for a sick room, and the office removed into a cabin in the Indian town.

The staff has no parlor, no community room and is actually using a dark store room 12×12 for both purposes. To reach said room, visitors have to pass through the girls recreation hall so do also the boys going to their dining room.

In a word there is lack of rooms and inadequate space in existing rooms.

But to make one understand the crying need of a new building one needs only to see the 12 stoves and their frequently leaking stove pipes dropping soot on floor, beds

and tables. What a fuel bill for so many stoves! What dangers of fire with so many stove pipes especially in a temporary building in which walls and ceiling are all so much kindling.

In connection with a new building, a water system must be provided, for the carrying of water from the lake with buckets is far from giving satisfaction. Almost a steady flow would be the thing for kitchen use and washing and bathing purposes. An indoor sanitary toilets should also be provided at least for the staff, sick purposes and general night use. Outside toilets in day time may do for all pupils.

The new building can be erected at Stuart Lake with advantage. Blue clay hills close by the school can be turned into bricks.

Bricks
Sand & gravel
Sawmills

A mountain of lime stone is two miles from the school. Sand and gravel are plentiful on the lake shore. A saw mill also two miles from the school, can provide most of the lumber needed at a reasonable figure.

Twenty acres of land are under cultivation near the school and sixty acres of wild hay land are four miles off. Several tons of hay taken from different other meadows could be bought as low as five dollars a ton to feed 21 heads of cattle and 4 horses.

As most of the pupils are to be found around Stuart Lake. Since the natives are used to the school being in their camp, since also they are deriving great benefits from the institution by providing it with fish, meat, vegetables, labor etc and since the intense land clearing and farming has given a new impetus in the same direction to the natives and has served as an inducement to white settlers who desire to cultivate the beautiful agriculture land on the lake shore. I believe the new school should be erected on the same locality to facilitate the recruiting of pupils and to continue helping the development of this district by both the white race and the natives.

Sir -

Right Rev. Buno, of Prince Rupert, has written the Department in reference to the erection of a new boarding school building at Stuart Lake. In his letter he states that the excessive cost of material and labour cannot be used as a pretext for not undertaking the work, and refers to the fact that at Fraser Lake sand and gravel are to be found convenient and seasoned lumber is obtainable at reasonable prices in the immediate district; also that labour both skilled and unskilled can be procured.

I am writing to you for information regarding material and labour.

It is presumed that His Lordship has in mind a frame building on a cement foundation.

Dear Sir,

Your letter of the 31st. ult. announcing that the school at Fraser Lake may not be voted this year and not even next year, came to me as a bolt from the blue. I never expected that the Canadian Government would thus delay the fulfilling of their part in a bilateral contract when the Indians have fulfilled theirs ten years ago. I so far depended upon the justice of the case but begin to lose hope and confidence.

However as I am writing to the Hon. Minister of the Interior, I wish to inform the Department that the excessive of material and labor cannot be used as a pretext for the delay. For at Fraser Lake, sand and gravel are found right on the spot, seasoned lumber is obtainable at reasonable price at not distant saw mills where piles of lumber are waiting for a market, labor both skilled and unskilled can be secured in that place at a living wage which is lower than in large centres, a siding to the railway track would enable to unload cars on the premises. I think that the few materials that would be above cost next Summer could not amount to much.

I must state moreover that the buildings at Stuart's Lake were not intended for such a long period of time. If the new school is not immediately voted they must be improved both for the sake of the teachers and the pupils. And a Government grant will be required for these necessary improvements as I have already bled myself white for that school and I can do nothing more.

Respectfully yours

+ E. M. Bungoms

P.S. I would be thankful if you would kindly send me the annual reports of the Department of Indian Affairs. E. M. B.

Sir,-

The Rev. Father Buno of Prince Rupert has written the Department in regard to the erection of an up-to-date building for the Stuart Lake Boarding School to replace the temporary one now in use.

He also wishes permission to take in one hundred pupils, fifty boys and fifty girls.

Provision is being made in the Supplementary Estimates for a sum sufficient to erect a new building, but, unless approved by parliament, they will have to carry on their work in the buildings they now occupy.

With regard to the number of pupils for which a grant shall be paid I beg to say that the Department will be willing to allow a per capita grant for all they can accommodate up to one hundred pupils.

I should be glad to have a report from you on this school, dealing fully with the condition of the buildings, present accommodation and the work in general. The Department would like you to send, with your report, photographs showing as many different views of the buildings as you can conveniently take.

Referring again to your letter of Jan 21 No 285754-1 and particularly the last paragraph thereof I beg to say that I have recently visited the Stuart Lake Boarding School and have endeavoured to get the information desired by Dept. as to the building general conditions and working of the School which information is herewith submitted as follows.-

The attached letter written by the Principal is submitted as giving a very correct idea of the building and internal conditions and can be read in conjunction with this letter. The only parts of the Principal's letter I desire to criticise are his opening remarks-he must here be writing from information got from The Ind. Dept. direct or from Church officials as there is no record in this office of the Govt. having pledged itself to erect a School and again in the latter part where he deals with the location for the new building, I would say that phase of the question would have to be examined from many angles before a decision could be arrived at.

As before stated the principal having treated of the building very thoroughly I will simply note a few points not touched upon by him and then pass to other matters.

The arrangements for washing and laundering clothes are very bad. The laundry is a small detached building everything in which freezes solid in cold weather. One small bath for the whole institution is also located in a corner of the same building.

There are 320 acres of land in connection with the School. Twenty tons of wild hay were cut on this land. Two work horses are also kept.

I might say I have before me a long letter from Bishop Buno of Prince Rupert pointing out that the present buildings were only intended to be occupied temporarily. Among other things he says "If therefore the new structure is delayed so much beyond our most sanguine expectations the actual buildings at Stuart Lake must receive substantial improvements and the Government foot the bill"

The question of who foots the bill is a matter between the Department and the Church, there is how-

ever no doubt whatever that if the present buildings are to be occupied much longer substantial remodelling and improvement is necessary.

If the Department cannot arrange to go ahead with the erection of a new building at the present time, I would suggest that an expert from the Architect's Branch be sent out to Stuart Lake so that expert advice may be furnished the Department as to the advisability of remodelling the present building and to prepare plans and estimates of same if necessary.

It should have been stated earlier in this letter that there are 73 pupils boarding at the School.

Accompanying this letter are views taken from various points which will help the Department in arriving at a thorough knowledge of the building and conditions surrounding same.

Will be glad to furnish any further information if in my power.

Referring again to your letter of Feb 18 No 285754-1 I would say that sand and gravel can be procured at either Stuart Lake or Fraser Lake but it is well to note that these two points are 60 miles apart. Rough lumber only can be procured locally at Stuart Lake. Lime could also be burned there. Stuart Lake is distant 40 miles from the railroad and the freight rate is from one to two cents per pound according to the season and the state of the roads.

Regarding lumber prices I have received a price list F.O.B. at Terrace B.C. to which 28 cents freight per cwt would have to be added to Ft. Fraser and or Fraser Lake points with as already stated from one to two dollars per cwt additional for Stuart Lake to cover road haul from Vanderhoof.

Labour is not over plentiful but I am sure enough unskilled and a small percentage of skilled can be obtained locally at either Fraser Lake or Stuart Lake. A leading contractor in Prince George quotes present schedule of wages as follows.—

Ottawa, March 21, 1919.

Sir,-

I have to acknowledge the receipt of your letter of the 23rd ultimo, enclosing a communication from the principal of the Stuart Lake Boarding School regarding the existing conditions in the present buildings at that point, and requesting that a new building be erected at an early date to meet the educational requirements of the Indian children of the Stuart Lake Agency.

In reply, dealing especially with your remark regarding a suitable location for the proposed new building, in which you state that "this phase of the question would have to be examined from many angles before a decision could be arrived at", I have to request that you will examine fully into the conditions and merits of the locations proposed, namely, Stuart Lake and Fraser Lake. You should furnish the Department with a full report, giving your views and your reasons therefore, as to which, in your opinion, is the better and more suitable location for the boarding school. It is noted that these locations are 60 miles distant from each other.

If you consider that a more desirable location than either of the two above mentioned can be secured as a suitable site, having in view the obtaining of the necessary building material, labouring and transportation, as well as the requirements below stated, you should give full particulars regarding the same, as well as your reasons for preferring the site selected by you.

The principal states that the new building can be erected with advantage at Stuart Lake; that building material, such as lime, brick, sand, gravel and lumber can be obtained in the vicinity at reasonable figures and that there are at present 20 acres of land under cultivation and 60 acres

of hay lands a short distance away; also, that the most of the pupils are to be found in the vicinity.

In a communication which the Department received from Right Rev. E. M. Buno, O.M.I., His Lordship states that Fraser Lake would be a suitable location and that all building material required can be obtained on the spot at a reasonable price, and that both skilled and unskilled labour are also obtainable. Fraser Lake is near a railway and His Lordship states that a siding to the railway track would enable cars to unload on the premises. Stuart Lake is distant 40 miles from the railway and the cost of freight and transportation of supplies to that point would be very heavy.

Before arriving at your decision, the following points should be taken into consideration, the quantity and quality of the land with a view to future farming operations; adequate water supply and drainage facilities; the most central point for recruiting pupils for the future carrying on of the work, as it is not desirable, owing to the cost of transportation, that children be taken long distances to and from the school. The question, too, of the present cost of transportation of building material and the obtaining of the same for the erection of the new building, also the future cost involved in the transportation of supplies, should be considered.

You will be good enough to give this matter your early consideration and report fully your views regarding the respective merits of the different localities as the question of a suitable location for a new school building must be decided before further action is taken.

Memorandum

Mr. Scott.-

The Stuart Lake Boarding School is now being carried on in temporary buildings in the Indian Village near Stuart Lake, and at a point distant about fifty miles from the railway. The buildings erected are very temporary in character. The larger or boys' building being of logs and the two adjoining buildings of frame construction which provides very congested and inadequate accommodation for the pupils enrolled.

The construction being inferior and the buildings heated with stoves, it is necessarily cold, and owing to the construction cannot very well be remedied.

From the arrangement as shown on the plans, I am of the opinion that improvements cannot be economically made to the building to provide better accommodation, except that additional temporary space might be added to the girls' building providing better housing facilities in that portion.

The present site is undoubtedly well situated for farming purposes, but, fifty miles distant from railway, by roads over which all supplies, etc., must be transported by teams at a great cost, and for this reason, it would appear undesirable as a site for a school, unless a satisfactory site near to the railway could not be obtained, as the long and difficult haulage would not only materially increase the cost of the building, but would be a permanent and constant expense in the transportation of the supplies.

2.

The erection of a school in this remote district will be very costly, and with the limited appropriation available at this time, that provided, will, undoubtedly, be expended in such manner as to ensure the greatest benefit, and as double the accommodation equally necessary can be provided at a more easily accessible distance and at the same cost, it would appear advisable to expend the money available where the greater benefit would accrue.

In the meantime, it should be definitely determined if a more advantageous site for the Stuart Lake Boarding School could not be obtained, providing adequate water supply and sanitary sewage disposal system, near railway communication, so as to lessen the cost of erecting these buildings and the subsequent additional cost of carrying on the school.

A temporary addition 25' x 33' to the girls' building, costing about \$5000.00, will provide a work-room, recreation-room and dormitory which is very much needed to relieve the over-crowding there, and enable the school to do its work under better conditions, and provided funds be available, I would recommend for your consideration that this expenditure be made.

Sir,—

I beg to acknowledge receipt of your letter of Mar 21st No 285754 re respective merits of Stuart lake, Fraser Lake or other point as site for proposed new school for Stuart Lake Agency.

In reply I beg to state that I favour its location on Se-as-bunkut Reserve (No 4) on the south side of Fraser Lake about midway between the stations of Fraser Lake and Encombe. Advantages of this location may be summarised as follows: The C.T.P. Railway runs through the reserve and as stated in the fifth paragraph of your letter, if a siding were put in care of building material etc could be unloaded right on the spot and I think it might easily be arranged with the railway people (Govt. road now) to stop passenger trains at any time when there were children or other passengers for the School aboard.

The reserve contains 506 acres with only two Indian families resident so that 300 acres could easily be appropriated for School lands. Soil is of excellent quality, is mostly timbered with growth of poplar willow and some spruce, but small open parky spots occur. Ten to twenty acres could easily be got under cultivation the first year without much expense in clearing. Water could be pumped from Fraser Lake or perhaps a well could be sunk. Building site and drainage good. Consult the Agency map and you will notice this point is not far removed from its geographical centre.

The Reserve is under the jurisdiction of the Department which I think is important.

In considering Stuart Lake as a location

The main disadvantage is its distance from the railroad -40 miles which means that on all supplies for the school and on all construction material not obtainable at Stuart lake there would be an extra cost of from one to two cents per lb. The location of the present school is on land belonging to the R.C. Mission and is the best site in the neighbourhood unless land for the purpose could be obtained from the Hudsons Bay Co. whose land adjoins the Mission property.

The observation of Principal Allard in the fourth paragraph that the most of the pupils are located in the vicinity of Stuart Lake can only be considered correct as referring to the pupils presently at school as naturally those living nearest the school were chosen. Also Father Allard says "Bricks, lime, lumber etc can be obtained". Well lime can be burned and rough lumber has been cut but no bricks have ever been made or has any planed lumber yet been turned out at Stuart Lake.

It is also very unhandy getting children from distant parts of the Agency to Stuart Lake as they have to be met at Vanderhoof and conveyed by teams the rest of the journey.

Noonla Reserve two miles west of Vanderhoof or the southern part of Nautley No 1 reserve three miles west of Ft Fraser might also be considered as possible locations but in my opinion none have as many advantages as No 4 reserve mentioned on first page of this letter.

Will be pleased to furnish any other information desired if in my power.

Right Reverend Sir,-

In further reference to Your Lordship's letter of the 8th of February last, requesting that the erection of a new boarding school building to meet the educational requirements of the Indian children of the Stuart Lake Agency be undertaken at an early date, I beg to inform you that before any definite action can be taken, the selection of a suitable location for such a building will have to be carefully considered and the site decided upon.

In selecting a site the following points should be carefully considered, namely, the quantity and quality of the land with a view to future farming operations; an adequate and easily obtainable supply of water for domestic and fire protection purposes; good drainage facilities; a central point for obtaining pupils for the future carrying on of the school, it not being desirable, owing to the cost involved, to transport the children long distances to and from their homes. The question, too, of obtaining the material required for the erection of the building and the transportation of the same and the obtaining of the necessary labour; also, after the school is erected, the future cost involved in the transportation of supplies should be considered.

Mr. Agent McAllan was requested, having the above requirements in view, to report fully on the merits of the respective localities suggested, namely, that mentioned by Your Lordship at Fraser Lake; also, the site recommended by Rev. Father Allard on the location of the present school at Stuart Lake. The agent reports that he is strongly in favour of the location of the proposed new school building on Se-as-bunkut Reserve, No. 4, on the south side of Fraser Lake about midway between the station of Encombe. The advantage of this location is

him as follows:- The G. T. P. Railway runs through the reserve and if a siding were put in, cars of building material could be unloaded right on the spot and it might be easily arranged with the railway authorities to have passenger trains stop at any time when there were children or other passengers for the school. The reserve contains 506 acres with only two Indian families residing thereon, so that 300 acres could easily be appropriated for the purposes of the school. The soil is of excellent quality and 10 to 20 acres could easily be got under cultivation the first year without much expense in clearing. Water could be pumped from Fraser Lake or a well could be sunk. There is a good site for the building with good drainage. The reserve is in the centre of the agency and sufficient children could be obtained for the present and future requirements of the school.

As a large expenditure will necessarily be incurred by the Government in the erection of the building, it should be located on a site under the ownership of the Department. The locality recommended by Agent McAllan would appear to meet all the present and future requirements, not only in the erection of the new building but as well in the future carrying on of the school.

In considering Stuart Lake as a location the main disadvantage is the distance from the railway which means that all the supplies and on all construction material not obtainable at that point, there would be a heavy cost for transportation, also, in future, the cost of freighting of supplies would place a heavy burden on the management. It is also unhandy getting the children from distant parts of the agency to Stuart Lake as they have to be met at Vanderhoof and conveyed by teams the rest of the journey.

With regard to Fraser Lake, the location mentioned by Your Lordship in letter of 8th of February last, the Department has no information as to the land obtainable or by whom it is owned. Mr. Agent McAllan states that Noonla Reserve, two miles west of Vanderhoof, or the southern part of Nautley No. 1 Reserve, three miles west of Fort Fraser, might also be considered as a possible location, but that neither has as many advantages as Se-as-bunkut Reserve No.4.

The question of providing the necessary funds to erect the new school building is receiving the consideration of the Government and, therefore, the selection of a suitable site should be finally decided upon as soon as possible, in order that, if the money is provided, there may be no delay in proceeding with the work.

I will be pleased to have Your Lordship look fully into this question of the selection of a suitable location for the new building, and, I am sure that you will agree with me that it is very important for the present and future requirements of the school, that the best site obtainable be selected. I would, therefore, request that you will, at as early a date as convenient, state fully your views as to the site you consider most favourable.

MEMORANDUM.

Mr. Scott, -

According to the last census (1916) there were 24 bands in the Stuart Lake Agency with 278 children of school age (6 to 15 years), 142 boys and 136 girls. These children are all Roman Catholics, and, except the Stuart Lake Boarding School, there is no Indian school in the agency. The new boarding school will be situated in a central part of the agency, near railway facilities, and the greater number of children in the agency will be accessible to the school.

My dear Bishop Buno -

Replying to your letter of the 2nd inst., regarding the holidays at the Stuart Lake Boarding School, I beg to say that while provision is only made for one month's holidays, I shall, under the circumstances, allow the Stuart Lake pupils six weeks' holidays this year only. Even for the reasons mentioned in your letter it is not considered that any special favour should be granted to the school. However, as you have already taken action no objection will be offered upon condition that this is not to be considered a precedent.

Dear Sir,-

In our too short interview at Ottawa in the beginning of last month I have overlooked to mention to you my intention of granting six weeks holydays to the Stuart's Lake Indian school. In fact, to avoid delay I have granted this extension of holydays, supposing this would not be against the prevailing usage. The reasons for the measure are the shortage of funds and the very poor accommodations found in that school for both teachers and pupils. Should the Department object to that length of holydays I would be pleased to be notified ~~from~~ of same in order to act in conformity with regulations in the future.

Hoping that you will be able to take some pleasant holydays, I beg to remain

RECORDS

On receipt of your last letter No. 285754, owing to the great importance of the matter, I went to Fort Fraser in order to examine on the spot the qualifications of Reserve No. 4 on the South side of Fraser Lake, as a location for the contemplated industrial school. In fact this was the place I referred to in my last communication when I mentioned the name of Fraser Lake.

On careful ^{examination} of the place I have found out that said Reserve No. 4 offers all the advantages mentioned in your letter as desirable for the site of an Indian school. The only disadvantage I see there, is the one you already know by Mr. McAllan, viz: the want of gravitation water. The water will have to be pumped from the lake or from a well. But this drawback is almost unavoidable in that whole section of the country. Hence in order to avoid delay I immediately wired you from Fort Fraser that I was concurring with Mr. Agent McAllan in recommending Reserve No. 4 on the South Side of Fraser Lake as a most suitable site for the school. The Indians interested in that reserve are very pleased to surrender the greater part of it for that purpose. In fact they have never used it to any extent in the past. I hope therefore that work will be at least started this Summer on the building.

Yours very truly

I have to refer you to your letter of March 31, 1919, in which you stated that you favoured the new Fraser Lake Industrial School being built on the Saasbunkut Reserve and which site was approved by the Department.

You stated in the letter above referred to, that this reserve contained 506 acres and that 300 acres could easily be appropriated for school purposes.

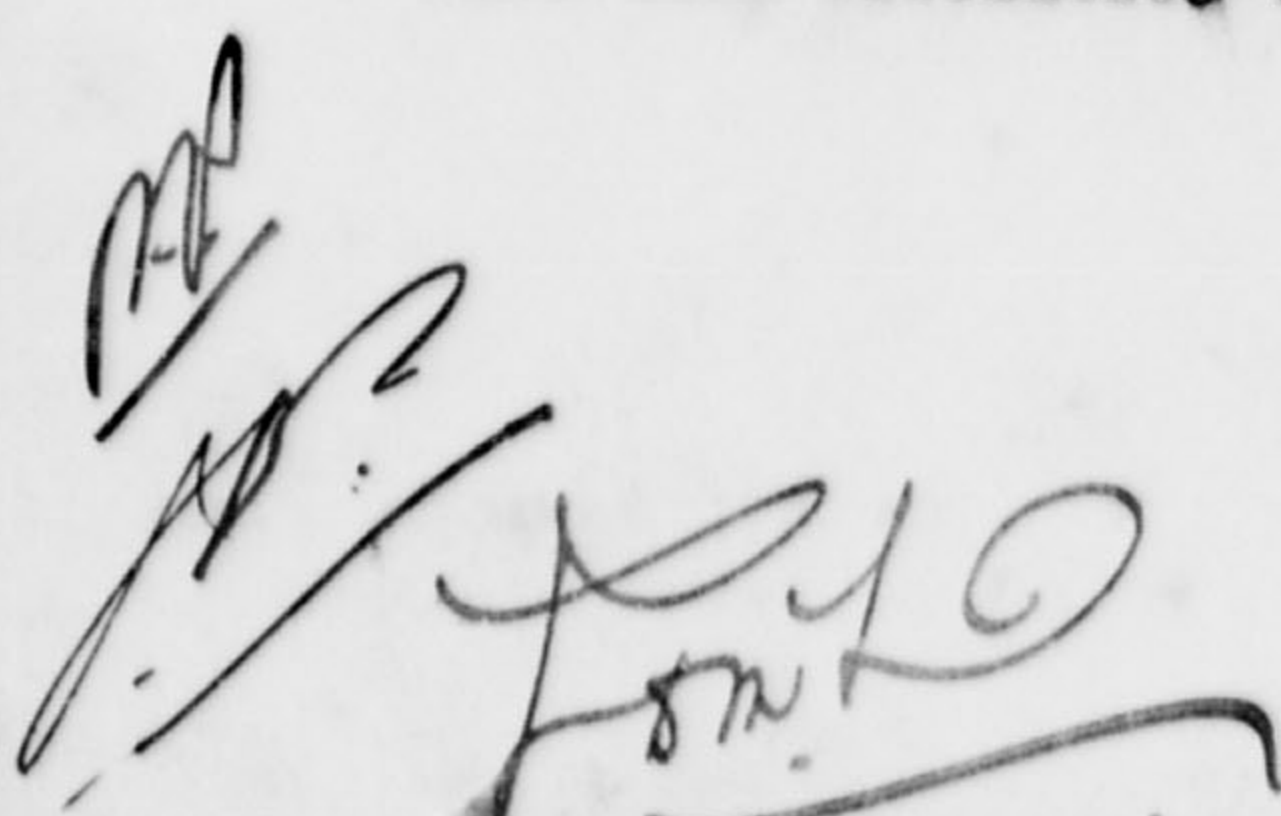

You will be good enough to secure from the male members of the band interested a resolution setting aside the use of 300 acres of this reserve for school purposes, and a description thereof should be furnished sufficient for identification on plan.

You will be good enough to secure and forward this resolution to the Department at an early date.

I beg to inform you that, at the request of His Lordship Bishop Bunoz, the Department will allow the pupils of the Stuart Lake Boarding School six weeks summer holidays with grant. This extra leave is being allowed again this year owing to the present conditions existing at the school and is not to be considered as a precedent.

In making out your quarterly returns of attendance you should count the days the pupils are absent during the six weeks as days present, in order that the full grant can be paid for them.

The Department has, in agreement with His Lordship, decided that, in future, the name of the school shall be known as the Fraser Lake Boarding School and in all correspondence hereafter you should refer to it under that name.

Having reference to your letter of March 10 No

285764-1 re getting consent of the Indians concerned to set aside a portion of the No 4 Seaspunkut reserve, Fraser Lake band for the purposes of the New Indian Industrial School being now erected there, I beg to advise that I had a meeting of the male members of the band to-day and the matter was gone into. It was agreed to set aside the East half of the reserve containing approximately 260 acres for this purpose and a resolution to that effect was signed by the Chief and principal headman. I may say it is not thought that the ^{centre} line when run will cut off any Indian improvements from the West half where the Indians have their houses but if it should the Indians wish it clearly understood that the line is to be diverted at that point to leave these improvements on the West portion of Reserve.

As desired a sketch plan is enclosed.

I beg to inclose herewith a letter received from Mr. A.O. Okon Ockoniy the instructor at the Fraser Lake Indian Boarding School relative to the forming of a Cadet Corps among the boys. I wish to say in this respect that Mr. Ockoniy is doing very satisfactory work in this matter and the movement promises to result in great good to the Indian children. Mr. Ockoniy has gone to considerable expense on his own account and has incurred some \$50-00 of debt in buying uniforms etc for the boys. I would be extremely pleased if the Department could see their way clear to make the donation of \$50-00 asked for by Mr. Ockoniy in this letter. Would the Department kindly take this matter into their consideration and advise me in due course.

Fraser Lake, B.C. June 14th 1922.

W. Allan Esq.
Indian Agent,
Fort Fraser, B.C.

Dear Sir,-

About the middle of March, 1922, with the authorization of the Principal, the Rev. Father J. Allard, I started a Cadet Corps at the Fraser Lake Indian Industrial School. In forming this Corps I had several things in view. In the first place I wanted to develop in these boys some notions of patriotism, some feeling of pride in belonging to the British Empire. In the second place I knew how greatly these boys need the physical drill which is an important part of the cadet drill. Also I had it from my own experience when at college and from the experience of other teachers in B.C. how great a help the cadet drill is in giving the boys the habit of discipline, in teaching them to obey immediately and without murmuring. This Cadet Corps has given good results already. As witness I may give the copy of a clipping from a Victoria newspaper, which I enclose and in which Mr. Cairns, Chief Inspector of Indian Agencies, who inspected this school, is kind enough to speak in complimentary terms of this Cadet Corps. Now, Mr. McAllan, I am confronted by a rather trying situation. To keep up a cadet Corps takes money. Especially in the beginning the expenses are rather heavy, as the first year lots of things have to be bought, as uniforms, caps, etc. As far as uniforms are concerned, the Inspector of Cadet Services at Victoria was kind enough to send me 45 uniforms, part-worn ones; but you know how small in size are the boys in the school, and these uniforms can not be altered enough to be made fitting for the smaller pupils. With great trouble Mrs. Ockoniy has altered about twenty of these uniforms, which will fit 20 cadets, but the rest of the 59 cadets have none. This means that uniforms have to be bought for the rest of the cadets, 39 in number. The Militia Department allows \$1.25 for each cadet who is in a military uniform at the annual inspection. I could not buy the uniforms before I receive the money and I can not get the money before I get the uniforms. I was therefore turning in a vicious circle from which I got out by simply buying 36 khaki shirts, military pattern, at my own expenses. Then again, caps had to be bought. These caps cost about \$1.10 each. You see what there will be left when I get the allowance, there will be nothing left but a debt. I had to pay \$18.60 for express charges prepaid by the Ordnance Department on uniforms and belts, a matter of courtesy, and therefore binding. The uniforms which are too big now can of course be used in the winter time over the other uniforms, but that does not help me now. Then, I have to buy cleaning material, green cloth for furnishings, a Union Jack for the Corps etc. In short, Mr. McAllan, I shall find myself confronted by quite a deficit at the end of this year. I may get an allowance of about \$100.00 for myself, but as I shall have to buy a uniform and have been unable to locate a second-hand one, I shall have to buy a new one, and that will take more than my allowance.

When I started this cadet corps, I did it with my eyes open, I knew very well that I would run in debt the first year and would have to put up some of my own money to pay for the expenses. I can not expect Father Allard to help me out in this, as he has already his hands full with providing the necessities of life for the children of the school and therefore he can not be expected to pay money for the Cadet Corps. Now, Mr. McAllan, you know how much good this corps does to the boys and therefore I would like to ask you if you would be kind enough to ask the Department to help me out in this, to bear a part of the costs. I do not expect the Department to give me a great sum of money and to fit this corps out as a Permanent Unit. If the Department would allow me \$50.00 to help me bear the expenses of the first year, I would be very grateful and more than glad, as this would help me over all my difficulties.

My expenses up to date are:

To 36 khaki shirts @ \$1.00...	\$ 36.00
To express on equipment.....	18.60
To cadet caps.....	69.00
Total.....	\$123.60

My income will be, if this corps passes the standard:

To \$1.25 per cadet, 59 cadets \$73.75

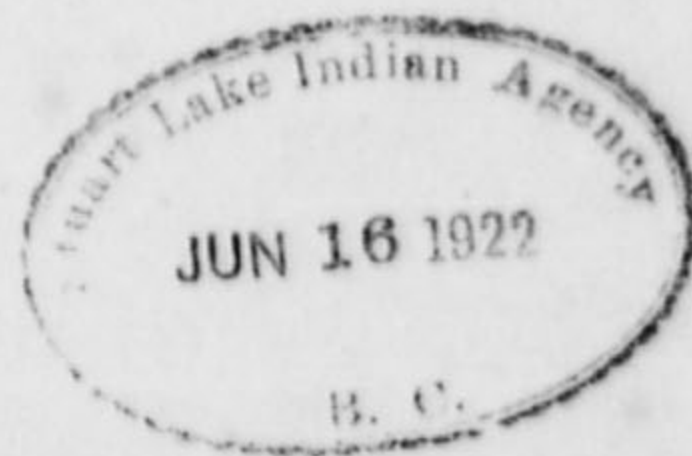

This will leave me a deficit of \$49.85. Of course I have to buy other things yet, as I mentioned in my letter, but if the Department will allow me these \$50.00 I hope to find charitable people who will help me in this, I am going to make myself into a beggar to help my boys.

I would appreciate it very much if you would put my case before the Department. But I will assure you that even if the Department could not help me, I shall go on with this work, as I believe it is of the first importance in making these boys into real British subjects, and I am quite prepared to make sacrifices I can ill afford to attain this aim.

Yours very sincerely,

A. C. O'Keefe

Sir:- Thank you for your kind letter of February 8th. No. 285754, in the matter of the Fraser Lake Industrial School. Regarding the latter paragraph, I am glad to say that no effort is being spared by all officers in the Agency to make this school a success. I have personally attended to the sending in of over twenty pupils bringing the number up to one hundred. Mr. Manson the Agency's Constable is also very energetic in this work and reported to me over the phone yesterday that he will shortly arrive at the school with twenty-five pupils whom he has gathered up largely at Stony Creek Reserve. This I might say will bring the number up to one hundred and twenty-five, which according to advice received from the school principal is the limit of capacity at the present time.

I am sorry I cannot send you a picture of the school as the ones we did have taken were taken on a dull day and did not come out well, however later on we will remedy that and send you some views of the school.

I might say that the Principal advises me that the water distributing system is not functioning very good but some improvements are being added which it is hoped will remedy the trouble.

Reverend Sir:-

I have to acknowledge yours of the 9th instant, referring to the proposed change in name for the Fraser Lake Industrial School. I have noted your remarks that the name "Fraser", as in the past, may in the future lead to postal and shipping confusion.

In reply, I beg to state that the Department's policy has been to name government institutions after the locality rather than in honour of some pioneer missionary or other. You will see the merit of this procedure, particularly for State institutions.

However, before giving a decision, the Department would be glad for more information. What overtures have been made to the postal authorities and the C. N. R. railway concerning the use of the name "Lejacq" for the post office and station contiguous to the school? If there is a post office already established at, or near the site or railway station, the Department would be grateful for information concerning the name by which it is known.

When we are in receipt of these facts, further consideration will be given to your request.

The Secretary,

Department of Indian Affairs,

Dear Sir,-

I would like to ask your approbation in the following matter:

The new Indian Industrial School is built between two post offices, whose names are: ~~Fort Fraser~~ on one side, Fraser Lake on the other. There is also a school at Fort Fraser. The name "Fraser" therefore occurs too often for railroad and post office purposes and this leads to confusion and delays. I have therefore taken this matter up with His Lordship, the Bishop of Prince Rupert and Yukon, Mgr. E. Bunoz, so as to decide on an appropriate name for this Institution. As this school is for the education of the Indians, the Bishop and I thought that the most appropriate name would be the name of the Missionary who evangelized them for a quarter of a century, and whose name is held in great veneration and love by the Indians. The name of this pioneer Missionary is Father Lejacq. Therefore we have decided to, in future, with your approbation, use this name for School, Post Office and Railway purposes, so as to avoid the confusion and delays we have already experienced in shipping of goods and material.

Trusting this change of name will meet with your approbation,

Yours respectfully,

## INDIAN OFFICE

FEB 8 1922

At Fort Fraser P.O.

562665 January 26 1922

Sir.-

I have the honour to report that the Fraser Lake Indian Boarding School was opened on the 17th of the present month when some 80 children were transferred from Stuart Lake by sleighs 40 miles to Vanderhoof and a further 30 miles by train to destination. Arrangements are now being made to add additional children from the various bands until the housing capacity of the institution is reached.

I visited the school on the opening day and went over the whole building. Apart from the fact that a few workmen were still engaged finishing small jobs everything was in good shape.

As you are aware the school is situated on the south side of Fraser Lake in an excellent site with a beautiful and extensive view up the lake. Nearly 300 acres of land from the No 4 Reserve have been set apart for School purposes. When cleared up this area will make farm and garden lands of the finest quality.

The building and equipment as it stands to-day reflects great credit upon the Department, which authorised the project also upon Mr Moncrieff the contractor who erected the building and Mr Morley the Govt. Inspector who supervised. Mr. Moncrieff has spared neither time, expense or material-sometimes doing work not called for in the specifications. Mr Morley has been unremitting in the work of inspection. The result is, a finely completed edifice which should prove of incalculable value in the great scheme of Indian advancement.

It shall be my endeavour to have the Indians appreciate to the full the many advantages to be derived from the establishment of this institution.

Dear Bishop Bunoz:-

I have your letter of the 17th instant, informing me of the change made by you in the principalship of the Fraser Lake Industrial School. I note that you have appointed Rev. Father C. Wolfe, O.M.I., to succeed Rev. Father J. Allard, O.M.I.

I would point out that the new school at Fraser Lake is now one of our largest residential schools, and in the appointment of a principal, it is necessary that a competent man, having a practical knowledge of school management and financial matters, as well as a practical knowledge of farming, be engaged.

I would be pleased if you will inform me fully as to the qualifications which Rev. Father Wolfe possesses and what previous experience he has had in work of the nature which he will be called upon to perform.

I have to acknowledge receipt of your letter of the 16th instant, enclosing a communication from the instructor at the Fraser Lake Indian Boarding School. It is noted that he asks for some assistance relative to the forming of a cadet corps among the boys.

In reply I beg to say that the Department will allow a grant of \$50.00 for this purpose, and will pay this amount upon receipt of properly certified vouchers covering the expenditure incurred, not to exceed this sum.

*Records Inter R.T.T. School*

This is not an official communication, but just a personal letter to introduce myself to you. It would have been a great pleasure for me to meet you when you were at the Fraser Lake School.

I came here Saturday August the ~~10th~~ 19th and willing to do my best for this school. You know yourself the condition of this school and I am ready to consider in any one of my moves the greatest welfare of the children.

I have no trouble with any of the parents to let their children come back, I even got five new ones and three or four more to come. We have started this month with 129 children, 63 boys and 66 girls. They are all in good health.

For the children I have added to the quantity of food they used to get. I am getting a real certified engineer to take care of the many engines we have. This to my opinion is a very important matter. The engineer also shall give to the boys who show the aptitude lessons in engineering.

We have a carpenter to teach the boys to become good carpenters and the farmer to help them to learn all what is needed on a farm. Gradually I shall add to the staff more in favour of the manual training of the pupils. A cadet corps has been established or rather re-established and it will help towards the physical development of our boys.

As for our girls you know that they are in very good hands. The time given to classes is strictly adhered to, and we have very fine, intelligent pupils.

Not everything is perfect yet, but with time, patience, and good will I hope we shall be at the level of all the other Indian Industrial schools.

I will have to get all our lights dropped from the ceiling as they are all too high in the class rooms and a strain on our children's eyes.

In the dormitories only one blanket is allotted to each child and kindly let me know if this has to be remedied by the Indian Department or by the Principal of the school.

Dear Bishop Buno:-

The Superintendent of Indian Education visited the Fraser Lake Industrial School this summer and in his report to me states that a larger and more competent staff is urgently needed. Since his visit, the Rev. Father Wolfe has reported for duty and a competent engineer has been appointed so, in all probability, the institution is much better staffed at this time.

The new principal has written a very hopeful letter and, apparently, has already a grip on the situation.

In the past, the Fraser Lake School authorities have made some expenditures in connection with the building and equipment, for which they had no permission from this Department. A note from Your Lordship, warning them against such practice in the future, would carry much weight. I would be grateful if you would also ask the new principal to provide a more varied diet for the pupils than was offered during the summer.

I am convinced that the Fraser Lake Industrial School, which has 130 bright young Indian boys and girls in residence, will be an important factor in Indian education, and this Department is prepared to do everything possible to assist. With Your Lordship's cooperation, I look for a continued success at this school under its present management.

MO FOR FILE:

FRASER LAKE INDUSTRIAL SCHOOL.

At the time of my visit to the above mentioned school this summer, I found the water system out of order and the lighting system giving poor satisfaction. I advised the Acting Principal, Rev. Allard, to make a change on his staff in this connection.

There is needed at this school a barn for 30 head of stock and 8 horses, also a pig pen and hen house. Considerable work is yet to be done clearing the 350 acre farm. At present 80 acres is cleared and 50 under cultivation. In the future, lawns terraced in the front of the building will improve the appearance.

The characteristics of the Acting Principal will not be discussed as I understand a new principal is about to be appointed. I am of the opinion that a larger staff is needed at the school. At present, there is a principal, an assistant, a boys' disciplinarian, an engineer and 6 Sisters. For a pupilage of 130 children, one man and two Sisters are needed in addition to the above mentioned officers.

*Check this  
if with  
in on*  
The air space in this building is excellent; however, the floor space will permit of a pupilage of no more than 130. The half-day system is used for but a few of the larger boys and girls. The infirmary arrangement here is excellent, but the monitor's rooms between dormitories are badly ventilated. The dormitories have insufficient wash-room and lavatory accommodation. There is no facility for washing dishes and the kitchen is hardly big enough for any additional equipment.

In addition to the buildings mentioned above, an ice house and cold storage is needed, as it is the intention in the near future to kill the beef for the winter. The batteries near the dynamo are placed incorrectly - only one set can be seen at a time.

*Action*  
The Department should write Bishop Buno of Prince Rupert, advising him that more staff should be supplied and that the Principal should be instructed concerning securing authority for all expenditures. Two other matters, that of a qualified engineer and the diet of the pupils, have already received the attention of the new Principal.

Dear Mr. Scott-

In reply to your letter of Aug 28th. I am pleased to say that Rev. Father C. Wolfe the new principal of the Industrial school at Fraser Lake is well qualified for the position he occupies. For several years he has proved himself very efficient in the education of children. He knows the Indian well and even speaks their native language. He will be able to give them a practical formation adapted to their future needs.

The finances and the farm are left in the hands of Rev. Father E. Allard ( the Brother of J. Allard ) who has been connected <sup>with the school</sup> for the last four years and who acts as the treasurer of the school. Fr. E. Allard knows his part in all its details. These two Fathers working together in harmony will give a splendid service to the school and will make of it, I am confident, a first class Indian School.

I may add that I duly appreciate what the Department has done for that school and that I feel in duty bound to see to it that it gives good results in the uplifting of the Indians for whom it has been erected at great expense.

Yours very truly

Reverend Sir:-

I have to acknowledge yours of the 11th instant, addressed to the Superintendent of Indian Education.

The Department has received from His Lordship Bishop Bunoz a notice concerning your appointment. We are pleased to learn that the school is filled up again after the holidays and that you are doing all in your power to give them a proper education and a comfortable home.

I have noted that a qualified engineer has been secured for the supervision of the electric, water and heating systems. As the Acting Principal was informed at the time of the visit of our officer this summer, this appointment to the staff was much needed, and the Department is pleased to learn of the change. Your attention to the manual training and the physical development of the pupils is approved.

Arrangements have already been made to have 150 blankets shipped to the school from our Regina office. I trust that these will reach you in good condition and will be of real benefit to the children.

At the beginning of the next calendar year, after you have become better acquainted with your needs at the Fraser Lake Industrial School, I would be pleased to have a communication from you, in time to place an item in our estimates for the coming fiscal year.

The Department wishes you every success as you take charge of this important school in the scheme for Indian education.

Dear Sir,-

Will you permit me to say that I do not think I need any introduction to you? You may remember the time, about ten years ago, when I was called to Ottawa to settle the Babine Indians' trouble about their fishing methods and I had to stay in your city for over a month. I had the pleasure of meeting you then several times. I met you again in Prince Rupert when the Coast and Skeena Indians were agitating land matters. I may therefore say that I am no stranger to you and this is the cause of this personal letter.

One month ago I was appointed Principal of the Fraser Lake Industrial School in the place of Father Wolfe who was transferred to Stuart Lake. As I have had 14 years of experience in this line of work, at the St. Eugene School in Kootenay, of which I was the founder, I have seen immediately the special needs of this school and of these I would like to speak to you.

The first need is for a stable and barn. You know that the most wholesome food for children is milk. We have some very good milk cows and intend to purchase some more in order to give the children this so much needed article of food. But to keep these cows in arfit condition I must be able to shelter them from the rigours of this northern winter. The barn which is on the premisses now is totally inadequate, both in size and in condition. I know that your Department has built and is building barns at different other Indian Boarding schools. Would it be possible that you extend the same kindness to this school? It will mean a big saving in our finances and a boon to the health of the children.

There is one other little matter I would like to bring to your kind attention. I have a bell, but there is no dome to put this bell in. Not only does this fact deprive me of the advantage of using the bell, but also a dome would put the finishing touches to the building. When Mr. Ferrier was here he made the same remark. Would it therefore be asking too much from your kindness to grant this request? There could not be a more opportune time to do this work than now. The carpenter's building the chapel are here with material on hand and therefore the work could be done now with very little expense.

Yours sincerely,

Dear Sir,-

Herewith I beg to state that I have been appointed Principal of the Fraser Lake Industrial School in the place of the Rev. Father Wolfe, who has been transferred to Fort St. James, Stuart Lake.

I have received several shipments since my arrival here, as for instance a shipment of 150 blankets and another one of furniture and crockery. I wish to thank you very much for your kindness in procuring these things for this school.

It will not be necessary for me to assure you that I shall put my whole heart and soul in this work which has been entrusted to my care. I may say I am the founder of the school of St. Eugene, Kootenay, of which school I was principal for 14 years and that by consequence I am quite used to this kind of work, though it might be a little hard to start over with this work, after having been away from schools for nigh 18 years. But during those 18 years I had all the Indians in this Agency under my care and therefore I know them and their needs.

Dear Bishop Buno:-

I have your letter of the 16th instant, informing the Department of the resignation of Rev. Father C. Wolfe and the appointment of Rev. H. Coccola at the Fraser Lake Industrial School. I learned, with regret, that this change has been necessary, and I trust that you will be able to place a strong assistant under Father Coccola. You will remember that in my last communication to you, concerning this school, I was somewhat worried as to the future. This excellent plant, with accommodation for a large pupilage, should have at its head the best principal available. If you are successful in finding a strong successor to Rev. Father E. Allard, concerning whom Mr. Ferrier of this Department was unable to make a favourable report, he could be initiated to the work by Father Coccola and the arrangement would then be a happy one.

I am grateful for Your Lordship's cooperation in this effort to provide better educational facilities for the Indian youth of Central British Columbia.

Dear Mr. Scott.

I deeply regret to have to inform you that Rev. Fr. Wolfe the recently appointed principal at the Fraser Lake Industrial School has not realized my expectations. Almost immediately after taking charge he was frightened by his responsibilities and for three weeks suffered from insomnia. As he showed no sign of improvement I thought it was in the interest of the school, to relieve him from his duties without further delay - Hence I have appointed in his stead Rev. Fr. Coccola the veteran missionary who has had long experience in that line of work at St. Eugene in the Kootenay and also at Stuart's Lake - He'll remain in charge until he has initiated a younger man to that special school management which requires special qualifications.

Hoping the new appointment will be satisfactory to the Department

I have received a request from the Rev. Father Coccole, Principal of the Fraser Lake Industrial School saying that as the school is run by public money, his account at the bank is virtually an account of Government money. He wishes to know if it is necessary for him to put stamps on cheques which are drawn against such moneys as he points out that practically all the money goes in supplies and the amount saved during each month would be quite considerable as the expenses in stamps is quite an item. He points out that there are no profits from the institution, all the money being expended for the welfare of the children. He therefore asks if the above privilege cannot be extended to him.

I would be glad to have your opinion in this matter. I have advised Father Coccole that I am doubtful if the matter can be adjusted to his liking. I would be very glad to have your advice in the matter.

Sir,-

With reference to your letter of the 13th of June 1923, in which you tell me that Inspector Cairns has made a complaint that the children at this Institution do not receive butter and milk in sufficient quantity, I beg to state the following.

This matter has been a subject of serious thought with me for a long time and I have from the beginning endeavored to remedy this lack in the diet. It is only very shortly ago that I have seen means to make an improvement along these lines in the daily menu. Still, it is far from satisfactory yet, but the reason why I can not give the children the full diet of butter and milk which I would like to give them, is the lack of stabling facilities. It is an impossibility for me to purchase milk, excepted canned milk, as none is produced in our vicinity. But as soon as I will have stables and barns I shall be able to get more cows and then to give the children the full allotment of milk and butter they need.

I have your No. #-1 of the 9th instant, with reference to difficulties at the Fraser Lake Indian Residential School and relative to the advisability of providing a building and physical equipment for manual training instruction. I have noted that the parents of some of the children are complaining that vocational education is being neglected. In reply I have to inform you that, when the Estimates are being prepared for the coming fiscal year, the advisability of adding a building and equipping it will not be overlooked. You should so inform interested parents.

With reference to the outdoor work the boys should perform, I have to inform you that the Department considers the older boys should be at work six half days per week. Care should be taken that work beyond their physical powers is not expected. The lighter duties in connection with clearing of land and the provision of fuel may be assigned. Dear Sir:-

Could you please give me a little information which may help the welfare of our comrades in this district. The soldier settlers and others in this district cannot dispose of their produce at this school and are debarred of several privileges on account of the influence of an Irish-American who exercises a lot of influence over the Principal.

It is the rule of the Department of Indian Affairs that only Naturilized Citizens should be employed at the schools, returned men to get the preference, and we would like to find out if this man is Naturilized, he served with the American Legion getting as far as the Calgary Hospital, Is it or was it possible for any but American Citizens to join the Legion.

As we are so far out in the bush and cut off from information which you can easily obtain it would give me considerable pleasure if you could inform me how I could find out if this man is naturilized, He is a dangerous man to have around.

The man's name is "Thos.F.Finnegan" and he came here from Terrace about two years ago.

Yours truly,

Signed....."Harold Allen."

Dear Sir,

Herewith I submit the report of our School for quarter ending December 31st.

The measles kept us busy and anxious for about four weeks but at present the health of the pupils is good. They are all enjoying their holidays in skating and coasting.

We supplied them with toys according age and disposition with which they are very pleased.

Lejac, B.C. March 31st 1928

Mr. J. C. Moore  
Indian Agent, Vanderhoof, B.C.

Dear Sir:-

Herewith I beg to submit the report of the Fraser Lake Residential School for the quarter ending March 31st 1928.

The health of the pupils has been generally good, though we had to deplore the death of one of our boys, 12 years of age, victim of pneumonia.

The progress in the class room is remarkable, of course this is the best quarter for it, as the winter roads and cold weather keep the parents away from the institution.

Besides the feeding of the stock and the hauling of fuel not much work was done on the outside by the boys. The girls are kept busy making stockings, dresses and mending. 293 dresses, 191 aprons, 296 drawers, 301 chemises, 600 pairs socks were made during the year.

The improvements of the year are the removing of the eave troughs from the roof to prevent the ice from forming along the walls and backing the water under the shingles. The extension of the electric light to the barn and other outside buildings.

The installation of the refrigerator plant at the cost of \$. 2320.00 for which the Department allowed \$.1600.00. The plant besides keeping the meats and other articles in good condition during the summer months was storing in the fall 30 carcasses of beef and 22 of pork butchered at their best and keeping the Institution with splendid meats even to this date.

The acquisition of a truck for the sum of \$875.00 and a tractor for \$1100.00. This last implement proved very useful in breaking new land paved with heavy roots.

Farm and garden returns amounted to the value of \$2750.00. Cattle and pigs butchered gave meat valued \$1200.00. Butter and cheese made on the farm were estimated at \$375.00 eggs at \$400.00.

Considering the long duration of the winters and the cost of feed in this part of the district we found that it is not advisable to have a large stock.

We have at present 74 head of cattle and two teams.

Hoping that these remarks may be of interest

Mr. Duncan C. Scott

Deputy Superintendent of Indian Affairs, Ottawa.

Dear Mr. Scott,

In reply to yours of the 3<sup>rd</sup> ult. re-charges against the management of the school at Fraser Lake I must say that the writer Mr. Cesaro Venanzio, is mentally unbalanced and his petition deserve no consideration. He wrote to me three letters and I have answered none. You have received a copy of the first; in the two others he was demanding the immediate dismissal of the engineer of the school, Mr. Allen, threatening to publish the whole business unless I would accede to his request.

Mr. C. Venanzio has been employed at the school for some time during the course of which he had altercations with the engineer. These degenerated into violent threats so that serious trouble was expected between the two.

Under such circumstances Fr. Coccola, the Principal, had to discharge one of these men. He discharged the one who by his want of common sense was the cause of the disorder and might become a real danger in the school, viz: Mr. C. Venanzio, and retained Mr. Allen the engineer. This displeased the former very much. He is ever since after the scalp of the engineer whom he wants to have dismissed also.

The other charges reflecting on the morality of the management are pure calumnies without a particle of truth in them. Moreover Mr. & Mrs. Allen deny absolutely having uttered them.

I thank you, dear Mr. Scott, for notifying me of these recent complaints against the school and I hope that the above few lines will enable you to form a correct idea of the situation.

Yours very truly

On the 22rd day of May in the office of Lejac Indian Industrial School it has been proven that Mr Allen, engineer of the above institution and his wife did without scruple accuse the Rev Father Cocola and the other Fathers of the mission school, also the sisters doing duty in the above mentioned mission. of being the lowest type of moral character, the following accusations have been proven against him by Miss Mary McKay and Mrs Leslie, in the presence of Father Cocola, Rev Father Wolfe, Mr Leslie, Mr Vinanzi, and Mrs Williams.

1st He made the following statement at a dinner party at Fraser Lake in the home of Mr Foster in the presence of Mrs Leslie, the only catholic woman at the party, that he worked quite a number of years at the Holy Cross Hospital, At Calgary. and he knew the sister superior of that institution personally, and stated that she was a divorced woman, when one of the party said they did not think the church would stand for that he stated that this woman was the wife of a doctor and the Grey Nuns were not very particular.

2rd. Both Mr and Mrs Allen told Miss McKay schoolteacher, Orange Valley, School, that Father Cocola never need be lonesome around here, as the sisters all got little offices of their own, and he can go into any of them when ever he feels like it. also on several occasions they have seen Father Cocola come out of the chapel drunk. there are a lot of other statements they have made to the above mentioned school teacher with regards to Father Cocola and the sisters which are too filthy to be put in print. Mr Allen also accused the Rev Father Allard in the presence of Cecil LeDuke that he was full of tuberculosis and not fit to carry on in the mission. owing to the above statements which we know are true and proven by Miss McKay and Mrs Leslie and Cecil LeDuke we the undersigned catholics of Endako, Fraser Lake, and Encombe, do hereby issue a protest against the judgement of Father Cocola in keeping the above accused engineer in a catholic institution. we are now asking your grace as Lord Bishop of this diocese to take action in the above matter, as we will never be satisfied untill he is discharged.

Dear Sir:-

Herewith I submit the quarterly report of our School .  
The health of the pupils has been generally good. Three of our boys with glandular troubles were sent to the Hospital where they are improving fast ,one of them is back to the school.  
Two Moricetown little girls hearing of the death of their mother were so grieved that they got sick, one was sent home and the other died here.

Progress in class room is noticable and all are anxious to learn as much as they are able.

The boys with the Engineer, blacksmith and carpenter take interest in their respective trade.

Though the season was about a month late, our fields and garden are promising good returns.

We are now busy with the Refrigeration plant, we hope to have the work completed in two weeks time

LEJAC B.C. March 31st.

Dear Sir:-

Herewith I submit the reports of the last quarter ending March 31st. 1927.

The general health of the children has been good. It is true the Flu passing through the district visited the school and nearly all the pupils and members of the staff had a touch of it, only one case being fatal. Our little Dora Julien 8 years of age after lingering for two months died of Broncho Pneumonia.

There is a marked progress in the school room, but so many new children coming from the different camps without knowing a word of English bring the Indian dialect in high favour at the detriment of the English.

Under the blacksmith the boys are doing wonders, shoeing horses or repairing sleighs, that pleases the parents who in course of time will be better disposed towards the school.

From time to time we add new implements to the farm to give the boys general knowledge of machineries. We bought a Litter Carrier which the boys helped to put up.

Hoping that these few remarks will be of some interest

Dear Sir:- Herewith is our last quarterly report for the fiscal year ending March 31st. 1926. Considering the progress and prosperous condition of our Institution we have reason to be thankful. During the winter months, schools in the district were, on account of sickness, obliged to close at intervals, but our classes kept on without interruption. When pneumonia was prevalent in the surroundings and many deaths were registered we had nine cases in the school and two of our young children succumbed. Besides the feeding of the stock, hauling fuel and putting up ice little outside work was done during the winter. The poultry house put up last July paid almost for itself in keeping us supplied with fresh eggs. The cattle kept under cover gave us all the milk necessary for the house and for the sick or delicate children.

Trusting that these details may be of interest.

Our File No. S-8.

Sir:-

I have for acknowledgement your communication of Jan. 27th. last, file No. 163-1-1 regarding a letter which the Department received from Chief Isadore of the Stella Band of Indians complaining about the Indian School at Fraser Lake intending to claim the Indians' hay meadow adjoining the School property and known as Seyasbunket Reserve. In this connection I have to inform you that I have taken the matter up with the Rev. Principal Coccolo and he has replied that my letter was the first time that he heard anything about it, so apparently there is no foundation for the Indian's fears concerning the loss of their meadow.

I might say however that during the past week or so that I have had several Indians from the Stella and Fraser Lake Bands call on me in the office concerning this very matter, they seem to think that Father Coccolo is going to take this meadow away from them in some underhand way and when asked by me how he could do that they have informed me that the Father will get the Chief and some of the Head Men together and enter into conversation with them on some matter and then ask them to sign a document which they do, thinking that it is pertaining to the matter under discussion when in reality it is dealing with some other subject entirely. I have informed them however that they need not fear of any procedure such as this, as the matter would be referred to me sooner or later when I would take it up in Council Meeting with the Bands concerned. This explanation appeared to be satisfactory and there the matter stands.

"All the Indians from the Stella Band of Indians strongly object to let the school take the meadow. We are depending on this meadow to feed our own cattle and we think that this meadow belongs to us Indians at Stella."

He also questions the right of the Fraser Lake Indian Residential School to use the site which has been set apart for it. In this latter connection, we have former Indian Agent McAllan's letter of April 12, 1921, and a resolution signed by the Chief and Councillors of the Fraser Lake Band of Indians, Reserve No. 4, Seasbunket. However, it will be necessary to have your report concerning the quotation from this Indian's letter. If the school purposes using more of the reserve than the 260 acres, or if the hay meadow referred to is not in their original parcel, you should clearly indicate the Rev. Principal's wishes.

Mr. H. R. Moore,

Fort Fraser, B.C.

Dear Sir.-

With the quarterly reports ending December 31st instant, no doubt you would like to have statistics pertaining to our institution.

First I must say that during the quarter the health of the pupils was generally good. The epidemic of colds or whooping-cough prevalent in the district, consequence of sudden and frequent changes of weather, visited our school, but prompt attention, isolation and care given to the sufferers prevented the spreading of the disease and though many children died of it in the surrounding villages we had only one death in the school.

2<sup>nd</sup> Mr. Cairns, school inspector, coming on the 4th of October and spending three days here, seemed pleased with the work in the classroom though the children had just returned from their vacation.

3<sup>rd</sup> Many improvements took place on the farm. Some more acres of land have been cleared, the carpenter and blacksmith shops have been erected though not completed for want of funds, a barn for the loose stock was built which proves great convenience, a thrashing machine bought and operated by the big boys turned out ten tons of grain. The timothy and alfalfa fields gave good returns. Visitors from the East said that going through the prairies they had not seen any better wheat than ours all through the west.

So far the winter has been exceptionally mild and hope it will continue the same.

Yours truly,

A. Coccola

Sir:-

Herewith I enclose reports for the Quarter ending September 30th.. The pupils of our school enjoyed their holidays of six weeks, and on the appointed day September 2nd, the great majority came from their far away on time to board on train. Same could not be said of the boys having gone with their parents fishing, some of them were late.

During the Quarter the big boys built under the direction of a good carpenter a model Poultry House.

The carpenter and blacksmith shops are under construction.

Notwithstanding the dry Summer our hay crops were good, and for the wheat the passers by coming from Alberta said that they had not seen any equal to it.

The children seem to take real interest in their studies. I wish it were the same with the parents who allow their children to come to school more for myself than for their sake than theirs.

I beg to report that on receipt of your letter I went up to the School and interviewed Mr H. Allen who is employed at the school as electrician and engineer.

Mr Allen's statement is somewhat as follows.-

"Mr Finnegan, the farmer had been doing some rather loud talking about his being an American and also leaving the impression that his sympathies were with the Sein Fein movement in Ireland and I did not think it was right for an alien to hold a position in a Government institution especially where Indian children were being educated to respect Canadian laws and institutions and I simply wrote to the G.W.V.A sec at Prince George to advise me where to find out if Mr Finnegan was a naturalized British Subject. I had no intention then of taking the matter any further till that enquiry had been satisfied."

So that you will see Mr Allen did not wish to make any complaint at present to the Department and I would advise that the matter stand in abeyance. I instructed Mr Allen to make his enquiry with Sergt. Taylor of the R.C.M.P. who has to do with aliens and report the result to this office and if the case called for further action the necessary representations would be made from this office, to the Department. Trusting this explanation will be found satisfactory for the present.

Mr. R.H. Moore  
Indian Agent Vanderhoof, B.C.

Sir -  
Herewith I respectfully submit the last quarterly reports for the year ending March 31, 1929.

The health of the pupils, on the whole, has been very good with the exception of the Measles, which visited us in the fall. The Measles hit us hard, as many as fifty five pupils were in bed at one time, giving the staff a rather busy time for a period of six or seven weeks. Two pupils fell victims, both were boys. One of sub normal vitality could not resist to the progress of the disease, the other succumbed to tubercular pneumonia following the measles.

Erysipelas, Pneumonia and eyesores were legacies left from the measles. By medical attention and careful nursing we are now almost rid of these and we count ourselves fortunate at having only two deaths to report.

Our Class-work has been very satisfactory. Not only has gratifying results been achieved in the various classes but the interest taken by the pupils has been unprecedented. Altogether this part of the work has been most encouraging.

Outside the classroom the boys show much interest in agriculture. Stock raising. Farm implements and up to date Machinery have a special attraction for them. Blacksmithing and garage work also make a special appeal to them, and now with the advent of carpentry and cabinet work our manual training give much promise for the future. Besides the above our boys get considerable experience in butchering, cleaning & quartering beeves and hogs and preserving fish and meats.

The girls besides Crocheting, Knitting & embroidering do all kind of plain & fancy sewing. Their work was exhibited at Vancouver and many prizes were captured.

They made during the year 5 doz. of night gowns, 3 doz. chemises and drawers, 7 doz. stockings 8 doz. dresses 9 of eprons, 12 of Pillow cases &c.

Improvements to buildings & farm have kept well apace.

A Silo Has been erected, the carpenter shop completed, the farmers house plastered and electric light installed in all outside buildings.

The Department presented the school with pure bred Holstein stock. One Bull, prize winner at Victoria and two heifers from which good returns are expected. A new Safe has been installed, a new cream separator added to the dairy equipment, a valuable team of young horses purchased for the farm as well as a potato digger and Ensilage cutter. The farm has received a good deal of attention, about 15 acres of new land has been broken, and the old land greatly improved. A conservative estimate of farm produces for the year gives us \$4134.00 this amount comes from beef, pork, butter, eggs, cheese and honey all raised on the farm. The land yielded a fair crop.

Hoping that these remarks will be of interest to you and the Dept.

Yours truly

The Department is desirous of learning if the older girls at the Fraser Lake Indian Residential School are being trained in milking cows. As most of the graduates of your school will return to reserves that are largely farming communities, it is very important that the girls be fully competent in this particular. The Department expects that the older girls, under proper supervision, will be given a course of instruction in milking, and I shall be pleased to learn that suitable arrangements have been made.

Referring to your letter of the 22 No. 103-I-I re milking cows I have to say that this is taught not only to the boys but also to the senior girls.

The care of the cow before, during or after milking, to insure clean healthy milk, is imparted by one who has visited and studied the methods in vogue in some of the best dairy farms in the country.

Though the boys usually do the milking the girls too are taken to the cow barn and there given practical lessons in milking, making butter and cheese. In the matter of making cheese we are fortunate in having on our staff one who made cheese in an up to date factory in Switzerland.

We are now considering the erection of a dairy that the work may be carried conveniently

Dear Sir:

Herewith I submit the reports of our School for the quarter ending June 30, 1929

Health

The health has been very good, only one case of Symptomatic Purpura with several hemorrhages caused us much anxiety. The boy affected by it has after a month of special treatment and nursing entirely recovered. Some cases of sore eye and ear were or are looked after. An oculist visiting the School was kind enough to test the eyes of those with defective vision and prescribe for them. The pupils were all vaccinated and the dentist attended to the needs of all.

Class room

The majority of the pupils show ambition for progress by the attention given to the teachers in the four classes and their efforts to grasp what they are taught in the different branches.

Manual Work

The boys helped in seeding fields and garden. Under the direction of the Manual Instructor they built an addition to the calf barn, erected chicken fences and new outside toilets in the play grounds of boys and girls.

The girls are kept busy with housework, making and mending clothes. Laundry and Dairy work are included in the program for the girls.

The closing exercises of the school will take place on the 15 of the following month, some of the pupils are going to their parents and many are to remain with us for the holidays.

Dear Mr. Duncan C. Scott:-

My deepest gratitude for the congratulations of the Department upon my Golden Jubilee, conveyed by our faithful Indian Agent Mr. Moore.

Fifty years in the vineyard of the Lord, the greatest part spent with the Natives of British Columbia.

You will be glad to hear that our School is progressing nicely with 76 boys and 95 girls, all in good health at present, well disposed and appreciating what is done for them by the Department and its Officials.

With best wishes

Dear Sir,

Hereby I submit the reports of our school for the quarter ending March 31, 1930.

Health

The health of the pupils has been generally good.

We had to register two cases of Pneumonia which promptly attended had no sad consequence, also one case of Purpura and one of Chorea. These two last cases were sent home at the request of the parents. For the last three weeks the mumps invaded the school, but nothing to alarm.

Class Room

There is marked progress among the old pupils, they love their books and are anxious to learn, but many of the new comers seem to have horror of the English language.

Manual training apartment

Good work is done there. The boys not only learn the handling of tools but they have made many useful articles for the house, and with their instructor have built this year a silo, dairy, piggery, large shed for farm implements, and an addition to the calf barn. We see by their letters to their parents the interest they take in manual training.

Farm

Much attention is given to farm and stock as it is seen by the return which consisted:

|                                              |                 |

| From stock, beef, pork, eggs and butter      | <u>1,636.23</u> |

Improvements

During the financial year the improvements consist in the finishing of the silo, erection of a dairy, floor in the play shed, new outside toilets, implement shed, piggery, addition to the calf barn.

Repairs

radiators, New and large boiler for the laundry. New implement Potato cutter and planter. New binder and mower. Installation of Electric fire alarm apparatus.

Here is the number of prizes carried by our children for fancy work, Penmanship, and Drawing.

In reply I have to say that the school's ability to earn more grant by an increased pupilage should have been made known to the Department before our Estimates for the current fiscal year were prepared. Sir:

Herewith I beg to submit the reports of our School for the quarter ending Dec. 31, 1930.

Health:

The health of the pupils was exceedingly good up to the middle of November. From that on on account of unsettled weather we had colds, some cases of whooping cough, many cases of Influenzal Pneumonia and three cases of Pneumonia. One of the three proved fatal, the rest are doing well, except one who is lingering. Knowing how weak are the lungs of the Indians, treatment had to be prompt and constant to prevent serious consequences.

Work:

Progress in class work is conspicuous, also in the manual training room. Many household furnitures such as, dressers, buffets, and office desks were made by the boys. The outside work consists in feeding the stock and getting firewood for the long winter months. Twenty (20) acres of new ground were plowed ready for seeding next spring. The girls are kept at sewing, mending, knitting, and other housework.

Improvements:

We have purchased an outfit for tinsmithing in order to im-

Dear Bishop Buno:

I believe it is now timely to give Father Cocco a well qualified assistant in holy orders at the Fraser Lake Indian Residential School. The present Principal's advancing years militate against his general efficiency, and, while the Department has received no derogatory reports, I believe that he should be relieved of some of his onerous duties.

I should like to suggest to Your Lordship that a priest be selected, who could succeed Father Cocco in due course, and I request careful consideration in the matter of the selection.

SUGGESTIONS:

These, I prefer to be of a confidential nature: I feel that the Department should be informed that Rev. N. WOLLS BRANCH  
OCT 11 1930

Dear Sir:-

Herewith I beg to submit the reports of our school for the quarter ending Sept. 30. 1930.

The majority of the pupils faithfully returned after the holiday expired on Aug. 15, but for some we had to go or send after them. As soon as the parents see their children industrious and well trained they insist on keeping them at home.

Health:

The general health is good. Those who show little weak have a special food and the nurse does not spare cod liver oil and other tonics. All have been successfully vaccinated. Two girls died at home during the holidays, probably of pneumonia.

Our boys take interest in farming, making use of the many farm implements to which we add every year to give an opportunity of becoming familiar with them. We put in the hands of the big boys the Publications received from the Department of Agriculture and other magazines on same subject.

The hours spent in Manual training under the direction of the Instructor are well employed making useful articles. We understand the necessity for our pupils to have a practical education, besides the work done in class room.

The girls presented many pieces of needle work, much admired by the public at the Fort Fraser Exhibition and carried number of first prizes.

The constant cold weather during spring and greatest part of summer followed by very hot days without rain prevented germination and consequently garden and farm returns were poor. We have already ordered two cars of potatoes and five of hay, as there is nothing to buy in the district.

The moving of the hot water jacket to a new location built on purpose eliminate danger of fire and explosion, giving satisfaction.

Fraser Lake Residential School, Lejac B.C. June 30. 1930

Dear Sir:-

Herewith I beg to submit the report of our School for the quarter ending June 30. 1930.

HEALTH- Two boys, one 12 years of age and the other of 9 died after ten days of sickness, of which the doctor could not find the symptoms, it was only after they had passed away that the other boys told that they had seen them with HEMLOCK in their hands. One girl also of 14 died of Hemorrhage of the lungs. Outside of that the pupils enjoyed good health and are lively and happy.

The pupils of the 8 grade are well prepared for entrance examination, but considering that they would have to go where such examinations are taking place and also that the parents would not consent to their children to go outside of the district we did not attempt to present them.

The boys with the farmer and gardener have seeded or planted the hundred and twenty acres of the cultivated land, but the cold nights and even days with the prolonged drought are retarding the growth.

The girls are kept busy, as usual in needle work and housekeep  
Vaccination.

This month all the children not yet vaccinated were done so by the Doctor.

In consideration of the restless dispositions of the pupils after seeing the white children out for the holidays we decided to close our own school on the first of the coming month.

Hoping that the above will give you an insight of our work,

Yours truly

Sir:-

Permit me to submit the quarterly report of our school ending March 31, 1931.

#### HEALTH

Up to the middle of November the pupils enjoyed splendid health when at that time the Influenza raging in the district broke out in the School. We had 52 cases and three died of it in spite of the attendance of the doctor and the good care of the Sister nurse. The rest are all well now and look healthier than ever.

We took advantage of a specialist calling on us, to have the eyes, ears and throats of the pupils examined. Nine of them found with faulty vision have been fitted with glasses and treatment procured for the others.

#### CLASSROOM WORK

Boys and girls are progressing in all grades, showing more ambition than in the past.

#### MANUAL WORK

The boys in manual training, under the direction of their Instructor have made, during the year, many useful articles for the house: desks, cupboards, dressers & much admired by the visitors.

In the farm they have been assisting at the seeding and harvesting. Their work in the blacksmith shop mending sleighs and farm implements is a proof of their skill. The assistant to the engineer is trustful and attentive to his work.

The girls besides the housework have made this year 224 dresses, 165 petticoats, 320 aprons, 85 pairs of stockings, 89 nightgowns, 64 drawers, 23 shirts. They are skillful with the needle and in fancy work have carried out many prizes at the exhibits.

#### IMPROVEMENTS DURING THE YEAR

A press was installed in the laundry, wire fence erected around the piggery and girls playground. The hot water jacket was removed from the engineroom where it was too close to a gasoline pump and placed in a space built for the purpose between the house and the laundry, bought a tinsmith outfit to instruct the boys in that line, connected the hotwater tank with the kitchen range, a canopy was fixed above the kitchen range, bought a feed grinder for the stock. 10 acres of new land have been cleared and fenced ready for seeding.

#### FARM PRODUCE

On account of the cold spring and drought in summer, crops were light in the district. To provide for the stock we had to buy five carloads of hay, which considering the scarcity and freight came high. From our fields we got 40 tons of mixed hay, 30 tons of sunflower green oats and peas for the silo, 66 bushels wheat, 400 bu. oats, 60 bu. barley cabbages 1000 heads, roots 4 tons. Beef, pork, eggs, butter to the value of \$ 3.629.20 Total of Farm produces \$5.202.20

Having that this report will be of some interest to you,

Sir:-

Herewith I beg to submit the reports of our School for the quarter ending June 30. 1931.

The health of the pupils has been generally good, the few cases of chicken-pox had nothing serious, but one boy from Fort-Graham eleven years of age died of Broncho-Pneumonia after lingering for about two months. All what could be done, was done to save him. The parents were notified of the condition of the child, but they were far away trapping for letters to reach them.

Boys and girls made sensible progress in the classroom. In the manual training shops the boys turned out many useful articles, some of them will be sent to the different exhibits Vancouver or Nanloops.

On account of long period of drought the fields looked discouraging, but the last rains brought life into them.

The closing exercises are fixed to the 6 of July and on the 7th. the pupils will be allowed to go with their parents if they come or send for them. The school will reopen on the 20th. of August, parents and pupils are notified by letters.

All the pupils who came this year were vaccinated, the Doctor does not judge necessary to revaccinate the old ones.

Yours truly

Sept. 30, 1931.

Sir:

*noted*  
Herewith I submit the reports of our school for the quarter ending Sept. 30, 1931.

The re-opening of the school was fixed to the 20th of August and on the 19th the first truck from Stuart Lake brought in a good contingent. With the two trucks loaded on the following day the majority of the pupils were in the house. The R. C. M. Police saw that the balance were brought in also. The number of the new recruits is fifty-two. Many more children would be willing to come if we had room for them. Two years ago I made application for an additional grant in proportion to the number of pupils but nothing has been done to it though the Department would like to see all the Indian children properly educated and trained.

The Doctor examined the pupils and found them free from lung infections and other diseases of consequence.

The returns of the harvest after the threshing are:

Wheat---364 Bus.

Oats-----374 "

Barley---232 "

The silo is filled with sixty tons of peas, oats, and rye. Sun-flowers and corn have not done well. Thirty tons of alfalfa, timothy, and brome are in the barn. The potato crop is promising. The cut-worms gave us some trouble in the spring and we were obliged to re-seed a portion of the garden.

IMPROVEMENTS: Renewal of batteries for the electric lights, rebuilding of the root cellar, and erection of slaughter house.

Yours truly,

September 10th. 1911.

Sir:-

I have received a written request from the Rev. N. Coccolo, regarding changing the name of the Fraser Lake Indian Residential School, to "Indian Residential School, Lejac, B. C." in other words to drop the name Fraser Lake altogether. The Principal gives as his reason for making the request the fact that their mail often goes astray or rather goes to Fraser Lake Post Office some five or six miles farther along the Lake, as as there is only a tri-weekly mail service up here it often means that the mail is considerably delayed as it has to be returned by the Post Master at Fraser Lake to Lejac. (Lejac is the name of the railway siding at the School property and there is a Post Office right on the School grounds known as Lejac).

I can quite easily understand how mistakes of that kind can be made which will cause delays and often times serious inconveniences to the Principal, but I also appreciate the fact that the Department must have some distinguishing name for the School, so I would like to recommend that the present name of the School be changed and that the School be known in future as; "THE STUART LAKE INDIAN RESIDENTIAL SCHOOL" at Lejac, B.C. This will give the school the same name as the Agency and might be the means of avoiding delays in the mail service as well as in Express packages. Trusting to hear from the Department in this connection at your convenience.

Sir:-

I wish to thank you for your kind favour of the 20th. ultimo, dealing with the Principalship of the LeJac Indian Residential School and the proposed change. The remarks contained in the second paragraph of your letter are very interesting, especially that part which says: "that the Deputy Superintendent General communicated with the Bishop requesting him to arrange for the nomination of a fully qualified principal to succeed Father Coccole."

In this connection I wish to bring to the attention of the Department the fact that in my previous letters I mentioned the name of another Father called, Rev. P. J. McGrath, whom I thought would be an excellent successor. Since that time I have tried to get a full report on what Father McGrath's qualifications are, and am pleased to inform the Department that they appear to be particularly good, and are as follows: "Father McGrath has been in Northern B. C. for the past 18 years, the past three of which have been spent at work among the Indians of this Agency, as well as having acted as Assistant to Rev. N. Coccole at the LeJac Indian School for two of the three years. Prior to his coming to B.C. he was Prefect of Studies and taught Primary and High School classes under the State Board of Regents in the State of New York., as well as being Superior of a large college conducted by the Church for the use of the Fathers, and located in Buffalo N.Y. He held this position for 6 years."

You will see from the above that my recommendation of Father McGrath was sound, but apart from his class room abilities, he is also well qualified to have charge of the agricultural end of the School, I know this from my personal conversations with him. I am also aware of the very high esteem he is held by all creeds and classes in the community, whites and Indians alike, and I am very anxious that either he or some other such Father be appointed and with as little delay as possible, for it is essential that it be done before any of the Spring work is started.

Dear Bishop Bunoz:

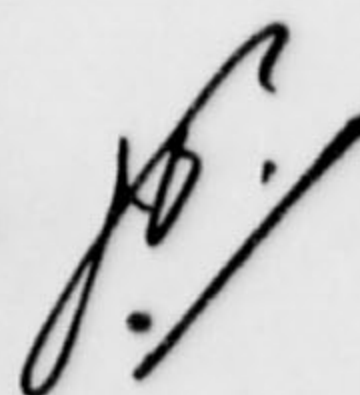

At the time of Your Lordship's visit in November, last, you will remember discussing the matter of the retirement of Rev. N. Coccola, O.M.I., on account of age, from the principalship of the Lejac Indian Residential School. While the Reverend Father has devoted many years' of faithful service to Indian work, it is felt, from the point of view of continued efficiency in the management of this school, that a change in principal should be arranged before the spring work begins. I understand that Father Coccola, who, to all appearance, is still active and keeps the school in fairly satisfactory condition, insofar as the inside work is concerned, is too far advanced in years to keep in touch with the farm work, with the result that he has to depend almost entirely on hired help. Consequently, the school is not getting the maximum returns from the farm and the stock.

I would request that the matter of a change in the principalship receive Your Lordship's consideration, and that you will arrange to nominate a fully qualified principal to succeed Reverend Father Coccola at your early convenience.

Yours very truly,

Deputy Superintendent General.

Dear Sir:

Herewith I beg to submit the reports of our school for the quarter ending June 30, 1932.

HEALTH:

The pupils' health has been very good. One case of glandular troubles and another of Tuberculosis were sent home with the hope that entire rest and outdoor life would be beneficial to them. Little sore eyes and ears promptly and constantly attended were cured without having recourse to the doctor.

CLASSROOM:

Work in the classrooms is very satisfactory with the new method of teaching with the new books suggested by the inspector, making the study interesting and easy for the pupils.

The boys on the farm and garden have been helping in the seeding and planting, but the changeable weather with very little rain is far from being favorable to the growth.

Under the manual training instructor many useful articles have been made, besides the many repairs in the buildings.

The girls are kept busy in the sewing room and with domestic science.

The parents asking to have their children for the first of July we decided to have the closing exercises on the 28th. of June. The holidays to last until the 15th of August. Many of the little ones will remain with us as on account of the general depression they could not expect much comfort at home.

The children were all vaccinated which was done shortly after their coming to school.

Very truly yours,

Dear Sir:-

Herewith I have to submit the reports of our School for the quarter ending Dec 31. 1931

Health

The health of the pupils has been generally good, we had some cases of mumps and lately two of Pneumonia among the boys. One of them is now entirely well and the other is recovering gradually. The Doctor is very attentive and comes when called.

Classroom work

The school was inspected on the 22 and 23 of October and the Inspector was pleased with the general standing.

Improvements

The improvements, during quarter, consist: in roofing and painting the slaughter house, in placing a drain from the piggery to the bank of the pasture, the lake getting so very low we feared a scarcity of water for the house and stock we made new excavation and secured an abundance, the play halls of boys and girls received a fresh coat of paint.

Manual training

The work in the manual training shop is producing useful articles, we disposed of some of them to outside buyers for reasonable figures.

The boys are kept busy in feeding stock and bringing fuel, when the girls are at the mending, knitting, sewing and general housework.

We have reason to be satisfied with our condition.

Dear Mr. Moore:-

Referring to your letter of the 14th. S-2  
re New Name for our School I desire to have it known:  
Father Lejac was an Oblate priest and the first to have  
a residence in this part of the Province.

He came to this district in 1869 and labored indefatigably  
among the Indians until 1881 when he had to retire because of  
ill health.

During his time in Northern B.C. he exercised the ministry  
in practically every mission that is served by the Oblates today.

He was not only the best known and most revered but also  
beloved by Indians and the few whites in the district at that time.

The name of Lejac attached to our School would perpetuate the  
name of a truly great man and go far to please Indians and Oblates  
alike.

Sir,-

I am in receipt of your favor of the 1st. inst. No. 163-1-11, and am pleased to note that Mr. Barry, our new inspector, was so well satisfied with the general standing of Fraser Lake Residential School.

Referring to his remarks about our Blacksmith Shop. It is well you should know, our Blacksmith's pupils were discharged from the school recently and others will be organized as soon as strong enough to handle tools and equipment of that department.

Regarding the farm. It has always been our aim to give our boys a thorough agricultural training. For that purpose we have a practical experienced farmer at the head. He has been in the country a long time. He knows the climatic conditions, essential to our situation here, and above all he knows the mentality of the Indian which goes so far towards achieving results. In fact nothing is left undone to make our pupils proficient in this line.

Knowing that we always benefit by the counsels of others, I am always glad to receive advice, and assure you that Mr. Barry's suggestions will receive the consideration they deserve.

Dear Sir:

Herewith I beg to submit my report of the Lejac Residential School for the quarter ended Mar. 31, 1933.

HEALTH:

With the exception of one case of Tubercular Meningitis, the general health of the children has been exceptionally good. We have been very fortunate, considering the amount of grippe and influenza prevalent in the district, to have had only three or four children in bed and those only for a day or two due to the necessary care been given immediately.

The doctor does not hold out any hope for the girl with Meningitis but all that can be done for her is accomplished. Her father, on notification, visited her and was quite resigned to what may be the outcome of her illness.

Dr. G. G. Walsh, eye specialist, visited the school and examined the eyes of all the children finding 15 cases of Trachoma. Following his instructions we are treating them at the school.

CLASSROOMS:

The children are showing marked progress in their class work and a keener interest is evidenced by the number advanced at the beginning of the new year. The children who were entered with the new term are doing especially well and are very ambitious in their studies.

MANUAL TRAINING:

The children engaged in Manual work show and adaptness to their duties. The bigger boys have given splendid results in the making of desks, waste paper baskets, and other pieces of household furniture, while the younger boys are fast learning how to handle the tools in order to replace the boys to be discharged. The other boys are kept busy tending to the stock and doing other outside chores.

The girls are busy with their many household duties and much comment can be made upon their fancy work, knitting, embroidery etc.

GENERAL REMARKS:

Farm work is given thoughtful consideration. After much experimenting it has been found that Alfalfa does the best of any feed crop with the result that 5 acres were sown 5 years ago. Two years ago another 7 acres were put in. This year we are sowing another 12 acres of the crop while 10 acres are under Sweet clover acting as a nurse crop for more Alfalfa.

As a further experiment 4 acres of Brome Grass and Western Rye were planted last year and from appearances in the fall it will do very well.

Our plum and apple trees produced fruit last fall which resulted in us ordering a further supply to be planted in the spring.

3300 pounds of fertilizer are on order which we feel assured will greatly benefit the soil.

The seeds for the coming spring will soon arrive so that spring work can be promptly attended to.

Our cattle are attracting the attention of the residents of the district to the extent that we have managed to find sale for 4 of our Holsteins.

The supply of beef stock was sufficient year to keep the school supplied with meat. About 25 head of cattle and 20 pigs were butchered for our needs.

The chickens, which breed we have, have kept up a steady supply of eggs.

Deputy Superintendent General of Indian Affairs

Dear Mr. McGill,

I have the pleasure to inform you that I have appointed Rev. L.H. Rivet O.M.I. principal of Lejac Indian Residential School in succession to Rev. N. Coccola retired.

Fr. Rivet is well qualified for the position. He was brought up on an up to date farm near Montreal; besides he has been in contact a good deal with the farmers of Northern British Columbia and Yukon. He will, I am sure, make the farm and stock at Lejac yield their maxima.

With regard to internal discipline and indian education he is also well qualified. He has had long experience in teaching children and made a great success of the work. He knows also the indians with whom he will have to deal at Lejac Residential school.

He will enter into his functions in the beginning of August prox.

Hoping the new incumbent in the principalship of the Lejac Indian Residential School will be satisfactory to you, I am

Yours very truly

Right Rev. Sir:

I have been directed to acknowledge receipt of Your Lordship's letter of the 18th instant, informing the Department that it will be necessary to retain the services of Rev. Father Coccola, Principal of the Lejac Indian Residential School, for a further period of two or three months. The Department will approve of the arrangements made by you to continue Father Coccola's services for the period mentioned, but would request that Your Lordship nominate the services of a competent man to take over the principalship of this school within the period mentioned.

I have the honour to be,

Right Reverend Sir,

Your obedient servant,

Dear Superintendent General,

I have to inform you that I'll be obliged to keep Fr. Coccola 2 or 3 months longer at the head of the Indian Residential School at Lejac in order to secure the services of a very competent man. It is difficult to find a Principal who will meet all the requirements of such an institution. However I'll have one within the period above mentioned. I can assure you, moreover, that the school will not suffer from the delay.

Hoping that this will meet your approval, I am

Sir:-

I beg to attach hereto a letter in duplicate received from the Rev. Principal of the Lejac Indian Residential School, which I trust you will find self explanatory.

The information contained in this letter is perfectly correct and I know that there are going to be many more children seeking admission at the next term than ever before, this can be accounted for entirely since the appointment of the new Principal as he has certainly put a new spirit into the School and the parents of the children are now behind it 100%. It is as the Principal says; that the School is capable of accomodating 25 pupils more than the grant is given for and if the Department could see its way clear to raise the number for which the grant is being paid to 175, I know that a great good would be conferred on the Indians generally. Kindly take this matter into consideration and advise me at your convenience, so that I in turn can inform the Principal.

Mr. R.H. Moore,  
Indian Agent,  
Vanderhoof, B.C.

Dear Mr. Moore:-

In going over the quarterly reports the Department will note that the number of pupils in residence at the school is far in excess to the quota for which they allow a per capita grant. Also, word has come to me that the Indians are anticipating sending many more children for admission with the next Fall re-opening. From the different camps, throughout the agency, there are many more pupils to be admitted or who should be put in the school .

Under the present conditions it will be almost impossible to accept the increase due to the number to be admitted being larger than the number to be discharged.

As these children have got to be fed and clothed, I feel that it is the duty of the Department to lend some assistance in the case.

As the school is capable of accomodating 175 pupils, easily, would it not be possible to have our quota raised to that number and a per capita grant given for same.

Assured that you will give me your co-operation, I am,

Very truly yours,

L.H. Rivet, O.M.I.,

Right Reverend Sir:

In the absence of Dr. McGill, at present in western Canada, I wish to acknowledge receipt of your letter of the 14th instant, nominating Reverend L. H. Rivet, O.M.I., as principal of the Lejac Indian Residential School, to succeed Reverend N. Coccola, O.M.I., who has retired. I note that Father Rivet has the necessary qualifications; that he is familiar with farming operations and school management; also that he has had associations with the Indians with whom he will come in contact in his work at the school.

The Department will approve of the appointment of Father Rivet as from the first of August, next. It is hoped that he will meet with every success in his work at the school. Mr. C. C. Perry, Assistant Indian Commissioner, Victoria, and Mr. R. H. Moore, Indian Agent, Vanderhoof, are being informed of the appointment of Father Rivet. Mr. Agent Moore is being requested to give Father Rivet every possible assistance in his work at this school.

Further, My Lord, I desire to extend to Rev. Father Coccola the thanks of the Department for his long, devoted and faithful services in the work of educating the Indian youth. During the period he was associated with this Department, his services were entirely satisfactory.

Dear Sir,-

The Department is in receipt of your letter of the 13th instant, with reference to the request of Bishop Coudert, O.M.I., to lease a portion of the land now used by the Lejac Indian Residential School.

The resolution of the Fraser Lake Indians of April 12, 1931, read as follows:-

"We, the undersigned, Chief and Councillors of the Fraser Lake Band of Indians, owning the reserve No. 4, Seaspunkut, on Fraser Lake, in the Stuart Lake Agency in the Province of British Columbia, at a council summoned for the purpose according to the rules of the band, and held on the said reserve this 12th day of April 1921, in the presence of the Indian Agent for the said reserve, representing thereat the Superintendent General of Indian Affairs for the Dominion of Canada;

"Do, hereby for ourselves, and on behalf of the Indian owners of the said reserve, agree and request that the East half of the aforesaid No. 4 reserve and approximately amounting to 260 acres be set aside for the purposes of the erection of an Indian School and farm and grounds therefor."

Signed and sealed in  
the presence of

W. J. McAllan  
Indian Agent.

| Edward William | X         | H.M.   |

A blueprint showing the land set aside for school purposes was forwarded to you in official letter of June 1st, 1934.

In view of the fact that the resolution of the Fraser Lake Indians as shown above states that "260 acres be set aside for the purposes of the erection of an Indian School and farm and grounds therefor", it is considered that, before leasing any land to Bishop Coudert for the erection of a residence for himself and other Roman Catholic missionaries, the consent of the Indians should be obtained.

As soon as you can conveniently do so, you should place this matter before the Indians and advise the Department of their wishes. In the event of their being favourable to the leasing of the land to Bishop Coudert for the purpose mentioned, you should define the land to be set apart by metes and bounds in order that the Department may have definite information on file.

Sir:-

I beg to acknowledge receipt of your letter of the 27th. ultimo, File No. 163-1-1 with reference to the request of Bishop Condert, O.M.I. that the Department sell or lease a portion of the land now used by the Lejac Indian Residential School so that the Oblate Order may build a house for himself and the other R.C. Missionaries of the District.

In this connection I wish to advise that I had already discussed the matter with Bishop Condert and it was at my suggestion that he wrote the Department. I feel that the building of the Residence there would not, in any way, detract from the property for School purposes but rather add to it. However, I hardly agree with His Honour when he says that it can be made independent from the School property. (I beg to submit herewith a sketch of the School building and the proposed site for the residence, which shows that it is approximately 100 yards directly East of the School proper and contains an area of 200' square.) Except the Bishop's idea of making it independent is by fencing. He has changed his mind now about taking in the land over the bank and North of the Railway track, at any rate I could not recommend that much, but am prepared to recommend the area he is now asking, in fact I would suggest that we give him 300' square instead of 200' asked, otherwise he will be a little crowded.

From the point of view of the School it will be much better for all concerned to have the visiting Priests living somewhere else rather than in the School.

I presume that in case of sale or lease the money received would go to the Indians owning the Reserve before it was turned over to the Department for School purposes.

Dear Sir,-

The Department is in receipt of a letter from Right Reverend Jean-Louis Coudert, O.M.I., Co-adjutor Bishop of Yukon and Prince Rupert, in which he requests the Department to sell or lease to the Oblates of Mary Immaculate for an indefinite period of time a portion of the land used by the Lejac Indian Residential School.

The Bishop desires to build a residence on this land to be used by himself and other Roman Catholic missionaries of the district. He suggests as the most suitable location for this residence the portion of the school property located east of the school building and extending down the bank as far as the C. N. R. track. He considers that this piece of land can easily be made independent from the rest of the school property and that it would mean no practical loss to the Department.

I would appreciate having your opinion regarding the Bishop's request and you should state if you consider the leasing of this land to him would in any way effect the property for school purposes.

Dr. McGill, Deputy Minister  
Superintendent of the Dept of Indian Affairs  
Booth Bldg

Sir;

I am taking pleasure in writing you from my new field of labor. After leaving Fort Chipewyan and the other missions of the McKenzie District where I have been working for 14 years, I am now acting as Coadjutor Bishop to Bishop Buncos in Northern British Columbia and the Yukon Territory. In this quality I established my winter quarters at the Indian Industrial School of Lejac, confided to our care.

In regard to our residence here, allow me to approach Your Department concerning a plan I have in mind, as a result of the survey I made of the conditions of living of our Missionaries here as well as in the surrounding district.

1.-I found it very inconvenient for Father Principal as well as for the other priests connected with the work at the School not to have any separate living quarters outside of the School Building proper.

2.-My presence here is the occasion of more numerous visitors coming from the surrounding mission district; much to my regret I feel quite unable to give them the appropriate hospitality in the very restrained quarters set apart for us in the School.

3.-As Fraser Lake is the most central place of meeting for all our Missionaries working among the Catholic Indians of Northern British Columbia, it is my most earnest desire to have a large residence established here, wherein occasionally I could gather all the priests of the region interested in Indian work for their annual Retreat and Convention.

In consideration of the above stated reasons, I beg to ask you whether it would be possible for the Department to sell or to lease to the Oblates of Mary Immaculate for an indefinite period of time a portion of the land owned by the School, so that we might build, at our own expense, within a reasonable distance of the Indian School, the projected residence, which would be used both by the Personnel affected to the School and by the other Missionaries of the district.

I would suggest as the most suitable location for our Residence the portion of the School property located East of the School Building and extending down the bank as far as the C.N.R. track. The said piece of land can be easily made independent from the rest of the School Property; would have an outlet to the station; and would mean no practical loss to the Department.

Dear Sir,-

With reference to your letter of the 21st ultimo, the Department communicated with Rt. Rev. E. M. Bunoz, O.M.I., advising him of your recommendation of Reverend Father McGrath as Principal of the Lejac Indian Residential School.

His Lordship considers that a definite decision regarding the principalship should be deferred until next January. At the same time, he states that he was much pleased to receive your recommendation of Father McGrath.

Yours truly,

A. F. MacKensie.

Sir:-

I beg to acknowledge receipt of a copy of your letter to the Rt. Rev. Bishop Bunoz approving of the temporary appointment of Rev. P.J. McGrath as Principal of the Lejac Indian Residential School.

In the above connection I would respectfully suggest to the Department that His Honour, The Bishop may be further communicated with and the suggestion made that Father McGrath's appointment be made permanent. I have known the Rev. Dear Sir:

The Department is in receipt of your letter of the 22nd instant, enclosing copy of letter received from the Principal of the Lejac Indian Residential School with reference to an increase in pupilage.

On his return to Ottawa last July, Mr. Phelan brought to the Department's attention the Principal's request for an increase in pupilage from 160 to 175. However, owing to lack of funds, it was not possible to authorize the expenditure that would be necessary if the pupilage had been increased. Our appropriation for the current fiscal year has been totally assigned and, in addition, definite orders have been received that expenditure must be curtailed as far as possible. Under these circumstances, I regret that the Department cannot consider, at the present time, increasing the pupilage at the Lejac School.

Lejac, B.C.

Mr. R.H.Moore,  
Indian Agent,  
Vanderhoof, B.C.

My dear Moore

I want to call your attention to the fact, that the Indian Department of Ottawa has paid the Lejac School for only 160 children, when according to the promise made by Mr. Philip Phelan in the name of the said Department last June, we were to be paid for 175 children from October 1st. 1935.

It is discouraging when you expect a certain sum of money to meet your bills, and in the meantime you have to pay interest to the bank for money that you should have received from the Indian Department, I do hope, my dear Mr. Moore, that you will at once take up this matter with the Indian Department, so that the balance of \$605-62 due to the Lejac School should be forwarded in the very near future.

During that period, we had as many as 98 girls and 84 boys. We should have received \$7065-62 $\frac{1}{2}$  and we received only \$6460-00.

Yours very sincerely,

Signed:- L.H.Rivet, O.M.I.,

Mr. R. H. Moore,  
Indian Agent,  
Vanderhoof, B. C.

Dear Sir:

Herewith, I beg to submit a report of the Lejac Residential School as to date ending Dec. 31, 1935.

HEALTH

With the beginning of this quarter, the health of the children was at high ebb with a very few minor illnesses such as colds, etc; and although the respective reservations in the community were affected with measles we fought a losing fight to keep the school immune to the disease by not allowing visitors from any of the affected camps. On Nov. 16th. we received our first introduction to the epidemic when two boys were ordered to bed having contracted the measles in some manner unknown to us. From that time on one child after another become laid up with the disease until about 70 per cent of the pupils were in bed at one time. From then on the disease slackened until at the present time we are fortunate in having a very few in bed convalescing from the after-effects.

No casualties can be blamed directly on the measles, though we much regret the passing of one pupil, Euphrasia Louie, who passed away Nov. 20th. after being a pupil in the school for only 4 months. From the time of her admittance she was under observation due to an advanced tubercular condition and then, when she contracted measles, the odds were too much for her frail spirit to combat.

Other indispositions are of a minor nature and receiving careful attention are mending rapidly.

CLASSROOMS:

Work in the classrooms had been progressing in very good order but with the development of measles many children were inadvertently detained from attending sessions with the unfortunate result that the studies were compelled to lag somewhat.

Naturally, the work set out by the curriculum to be covered by Christmas cannot be completed; but with resuming of full class again every effort is being made by the teaching staff to bring their respective grades up to the standard.

What work has been covered has been done in a thorough and conscientious manner both by the teachers and by the pupils.

MANUAL TRAINING::

Manual Training activities are again in progress with practical knowledge again the keynote of its studies. The boys are finding their work both interesting and helpful with a decided change in their attitudes towards their tasks. With the privileges of outlining and planning their work they feel the responsibility attached thereto and endeavor to perform their tasks with care and precision.

A very noteworthy benefit derived from the system of "Practical Training" is the manner in which the children are taught and shown how to utilize odds and ends which otherwise would have been a waste of material. Competition is a feature in the success of the system which will bear out lasting proof to the advisability of its introduction.

The young ladies are as usual well stocked with duties to perform. Their household tasks of darning, knitting, sewing, etc. always abound in plenty so that their time is well spent in caring for their own and the boys garments.

The neatness and alacrity with which their tasks are performed have often been praised but not without just cause.

The girls may also be highly commended for the advancement made in the cooking department where every advantage is allowed them to learn the deeper secrets of the culinary art.

GENERAL REMARKS:::

With winter with us again, work in the fields and other outside points has ceased. Work is proceeding, however, along other lines in preparation for requirements for spring. The season is now admirable for procuring the necessary materials for fence repairs and additions to same with the fact following that the men are kept constantly employed getting out the timber needed.

We are greatly pleased with the information recently received to the effect that our requests for a new root cellar and piggery have met with the satisfaction of the Department and grants for same will be allowed so that erections can commence as soon as the weather conditions will permit.

Estimates show that a required expenditure of between \$2500 and \$3000 will be necessary to cover costs of both buildings but this will give us added storage for our garden produce and also additional room for hogs in the piggery. The present iron from the burned hogsty can be straightened and re-used but a new pen will have to be added to care for our increasing stock.

At the request of Mr. Phelan, whose visit during the summer proved so beneficial to us, we are again making an appeal in behalf of the childrens' playhalls. These quarters are in extremely poor condition and some aid is necessary in order to put them into a shape suitable for recreation halls. In poor weather it is impossible to keep the youngsters outdoors while the dust arising from the concrete floors and collecting in poorly constructed clothes presses makes the playhalls unbearable as well as impairing the health of the little ones.

This matter has on several occasions been referred to the Department and although Departmental visitors have acknowledged the necessity of some measure being taken nothing has ever been accomplished. The question has been taken up with many authorities on floors and it is the advice of these gentlemen that a good grade of Battleship Linoleum be used to combat the scourge.

We trust that the Department will take an interest in the foregoing request and give it some serious consideration.

The school has lately been extremely fortunate in procuring a large variety of reading material for the children. The books were obtained from the Anyox Community League at a very nominal sum covering freight and other slight expenses. In this manner we hoped to associate the children with a wider range of wholesome and interesting literature. The children are making splendid use of the opportunity and becoming well acquainted with the various authors.

Farm returns for the past quarter have been very satisfactory and although during the winter months it is harder to keep up the summer standard we, nevertheless, are making every endeavor to continue the good record.

In closing I wish to express my appreciation to the Department for the many favors extended to us and in return assure the strict co-operation of the institution at all times.

Respectfully submitted,

INDIAN RESIDENTIAL SCHOOL.

Lejac, B.C.  
Dec. 20, 1934.

Mr. R.H. Moore,  
Indian Agent,  
Vanderhoof, B.C.

Dear Sir:-

Allow me to draw your attention to your letter of May 3rd., 1934 file No. S-2-587 re an increase of pupilage at the Lejac School.

As the time is nearing the completion of the fiscal year, I feel that the attention of the Department should be drawn to their promise of increased appropriation.

At the present time the school is housing, at its own expense, a number of pupils over the allotted number. Other children, who should be receiving the schooling are remaining at home. Requests have been made for their entrance into the school but due to the heavy expense involved we have had to refuse them. The school is capable of housing 175 children and if the Department is in accord with our wishes there is no reason why more children should not be allowed the privileges afforded by the institution.

I wish also to bring to the notice of the Department, the matter of a new root cellar for which, last April 17th. we asked a grant.

At the present time we have not sufficient storage capacity for our vegetable crop even though after the Department's refusal to our request we did not produce the quantity intended.

Unless some help is forthcoming this year we will again next year have to harvest a small crop which means that extra necessities will have to be purchased as required and space allows.

With the means of production with which the School is so well fitted, such steps appear ridiculous and I feel certain that in submitting their year's estimates for 1935-36 the Department will meet with no difficulty in procuring the necessary funds for a new root-cellar.

Since the construction of the School and buildings some 12 years previous, they have never received a second coating of paint and the result of battling the weather conditions are very evident from all angles. Every building, including the school roof, is very much in need of refreshing up and should receive the immediate attention of the Department so that the work may be commenced as early as possible in the New Year.

It is estimated that 100 gallons of paint would be required to complete the work and I trust that the Department will give their consideration.

Trusting that you will outline our needs clearly and give your assistance, I am,

Very truly yours,

Signed:- L.H. Rivet, O.M.I.,

I have your letter of the 2nd instant, reporting on conditions, generally, at the Lejac Indian Residential School and giving a list of the requirements for the coming fiscal year.

Regarding a grant for increased pupilage; the construction of a root cellar; the providing of paint to paint the school roof and outbuildings; and the erection of a store-room, I have to say that our Estimates for the coming fiscal year have not yet been approved, and I am therefore unable to state what appropriation, if any, will be available towards the above mentioned requirements. I would suggest that you draw this matter to the attention of the Department, through the office of the local Indian Agent, in April, next. INDIAN RESIDENTIAL SCHOOL.

Lejac, B. C.  
Jan. 2, 1935.

Deputy Minister of Indian Affairs,  
Ottawa, Canada.

Sir:

Allow me to draw your attention to a few facts relating to our school, which when given serious consideration, I feel certain will receive rectifying from the part of the Department.

Of which the Department is aware, when taking over the principalship a year and a half ago, the school status was at a very low ebb. Farm production was extremely limited and repairs were necessary to machinery and buildings. This had to receive immediate attention and by fortifying the positions with capable hands we, to-day, can boast of improvements which will place us within the limelight and satisfaction of the Department.

However, the necessitated improvements involved heavy expenditures and with the meagre income from the per capita grant it is impossible for the school to continue its improvements which still remain undone.

With the rendering of the fiscal year report for March 1934, a request was made for increased pupilage. At the time, Departmental estimates had already been submitted and our request was acknowledged with a promise of increased pupilage for 1935.

At the present time we are housing over the school's quota without assistance and many parents are asking admittance for their children but due to lack of funds we have had to refuse. Inasmuch as the building is capable of caring for a larger number, and the children are plentiful in the different camps, it is rather unfortunate that some means cannot be undertaken to give these youngsters the education they so sorely require. With some of the conditions existing on the reserves, it is almost inhuman to leave the children amidst such surroundings; but with the present financial difficulties to face it is impossible to accept them into the institution.

Nevertheless, I feel that the Department will not fall short of its promise and that next spring we may have a remedy for such conditions.

Secondly, allow me to again submit our cause for a new root cellar of which the school is very badly in need. In former years it was customary to purchase all the required sustenance for the school. Last year, I made a very determined effort to produce our own needs and had my efforts

(Deputy Minister----- P.2)

crowned with success inasmuch as our gardens and hay fields produced abundantly and sufficiently. For the first year in the school's history we have not had to buy feed for our stock. Forty-five extra acres of land are ready for cultivation next year; but again like this year, we will have to limit our garden produce unless some means are arranged for storage.

It does not seem creditable to such an institution, which should in reality act as a model farm to the district to have to be dependable upon the energies of other farmers to cope with the needs which it should be producing for itself. This fact has many times been commented upon by visitors in very emphatic terms and in justice to the Department the school management feels that the school should be the model the people expect.

With present shortage of store-room facilities it is an impossibility for the school to cope with such a situation and for that reason, unless the Department sees fit to carry the burden of constructing a new root cellar, we will next year, again, have to limit our crop to meet present accommodation both in space and preserving qualities.

Moreover, I would bring to your notice the question of repainting which is so necessary to the preservation of our out buildings and school roof.

Since their erection none of these buildings have received a second coating of paint and after battling diversified weather conditions for so many years their appearances show the signs of many rebuffs. They by no means bespeak the harmony one expects to find prevailing in a government institution, and after the school's endeavors of the past year in placing the buildings in symmetry it is only proper that we should expect to have the Department stand behind us and improve them with a newer and fresher hue.

It is estimated that 100 gallons of paint will be required and we trust that the Department will accede to our requests.

Finally, the question of a store-room of sufficient capacity to accommodate our year's supply of flour is most vital. It is necessary that we procure our wants in carlots which saves us much on transportation and always assures having a sufficient quantity on hand.

Our present storage space is hardly large enough to allow for storing half a carlot and has three large heating pipes running through it. The flour has necessarily to be piled high resulting in heavy losses due to insects getting into the flour and cereals.

Just recently our entire supply has had to be investigated and part stored in the garage and other places where room could be found, thus leaving it open to the weather and rodents to increase our already heavy loss.

This same condition has existed each year and the school has borne the loss annually. However, that no other means of help seems forthcoming we would ask that the Department kindly give us a helping hand and help us in our move for

"SUCCESS."

Trusting that our requests may meet with favor,

Obediently yours,

INDIAN RESIDENTIAL SCHOOL.

Lejac, B. C.  
Dec. 31, 1934.

Mr. R. H. Moore,  
Indian Agent,  
Vanderhoof, B. C.

Sir:

Herewith, I beg to submit the school's report for the quarter ending Dec. 31, 1934.

HEALTH:::

Ailments of different natures have been rather prevalent in the school during the past quarter giving the attendant nurse a very busy and steady time. Colds, sorethroats, and the flu gripped a large number of the pupils and kept them confined to their beds for a lengthy period. Following on this an outbreak of chicken pox caused the isolation of a great many of the children who were bedridden for some days. One boy displayed a serious case of Housemaid's Knee and was in bed for three weeks. Constant care and lancing brought about relief and recovery.

Theresa Houl, who was taken home by her parents on Nov. 1, suffering from advanced tuberculosis died the following week in Fort St. James.

Martha John, suffering from an infected throat, which brought on spasms of choking was ordered to the Burns Lake Hospital, on Dec. 20th, where immediate attention could be given in case of necessity.

Paul Shorty, Liard Post, badly affected with tuberculosis has been showing signs of constant decline. As his case is very severe and he is considered unsafe for communication with other youngsters he has been isolated. This was the request of the Department and has had careful attention.

Dr. Wahl, Trachoma Specialist, made a survey of the children in October. A great many were found to be affected and are being treated daily according to instructions left by him. A steady improvement is being noted and with his next visit we hope to have attained successful results.

Illnesses at the present time are very slight consisting mainly of sore throats and colds.

CLASSROOMS:::

Routine in the various classrooms has been progressing most satisfactorily. The children have shown themselves very proficient in their tasks accomplishing the term's work in a very commendable manner. The exercises recommended for completion to Christmas have been well prepared and the youngsters have adapted themselves admirably.

The new pupils are showing much progress in their study of English and now use the new language with fluency.

The teaching staff deserve much credit for the extreme care and conscientious manner with which they have executed their duties; their efforts being manifested in the results shown by the pupils.

#### MANUAL TRAINING:::

So far into the term Manual Training has been a minor art, the work of the classes being comprised mostly in making the different improvements and remodellings throughout the buildings. For the Indian youth, this work is much more important inasmuch as he receives a more substantial knowledge in the use of tools as well as fitting him for the necessary work he will find to do when at home.

The children are taught the care and use of every instrument and have to keep their saws, chisels, planes, etc. sharpened and in good order.

The young ladies still keep the house in order and give their combined attentions to the care of the clothes. The kitchen absorbs a great deal of their time and in this Department is shown advanced improvement.

#### GENERAL REMARKS:::

With the forwarding of the September ending quarterly report, we were unable to quote the threshing results of the school grain returns. With the operations completed in October the yield is extremely encouraging with 1203 bushels itemized as follows:

Oats-----373 bus.  
Wheat-----102 "  
Barley----228 "

Since our ~~milk~~ stock has come under the care of an experienced cattleman, we are more than proud of the improvements shown. The present quarter supply concludes with 70,740 lbs of milk from which, after deducting the quantity of milk and cream supplied the school, was produced 187 lbs. of butter.

The above returns are a splendid example of what might be obtained from careful feeding and care. Ten cows, alone, are the producers some of which have been producing since last March and are soon to freshen.

The chicken house has been re-sited and remodelled to care for our new shipment of chickens which is expected to arrive within the near future. The old stock have all been disposed of and we expect much better results from the new arrivals.

Our calf barn is now in good order to care for the young stock having been re floored and the pens, mangers, etc. renewed. Double walls have been added with sawdust between to assure warmth during the cold months. A log building of sufficient proportions has been erected to take care of the outside cattle during the severe weather.

A special request has gone forward asking grants for the construction of a root cellar, painting and increased pupilage.

These three items should receive the Department's careful attention inasmuch as a shortage in store-room facilities will not permit of us producing the required sufficiency of vegetables for our own use. It is hardly sensible for us to continue clearing more land and producing the fruits if after all our work and efforts the results are allowed to rot.

The buildings are in very bad shape after braving the weather conditions for so many years, and to make them befitting the qualities one expects to find in a Government Institution it is expedient that they receive painting.

Increased pupilage for the school was favored last May in a letter from the Department so that we have no fear of the request being rejected and the Department falling short of their promise.

Very respectfully submitted,

INDIAN RESIDENTIAL SCHOOL.

Lejac, B. C.  
Sept. 30, 1934.

Mr. R. H. Moore,  
Indian Agent,  
Vanderhoof, B. C.

Dear Sir:

Herewith, I beg to submit the quarterly report for the period ending Sept. 30, 1934.

HEALTH:

Ailments amongst the children are only what might be expected amongst youngsters at this time of the year and consist of sore throats, colds, headaches and a few sores which over the holiday season did not receive the necessary attention and are now in need of special care. No serious illnesses appear to be arising and consequently the infirmary work is slight.

CLASSROOMS:

Following the midsummer vacation the children have all been placed in their respective grades and work for the year has commenced in earnest although a review of the previous year's work is added to the daily routine in order to give them a better grounding for their new work.

A number of new arrivals have been added to the list which of course gives the primary class teacher much extra work as they have first to be taught English. However, rapid progress is being shown and the children are already becoming acquainted with their new language.

A new system has been inaugurated for the small grade in which printed pictures with names of different objects, animals etc. are inscribed and is proving a very capable method of teaching.

MANUAL TRAINING:

No special manual training classes have as yet been arranged but the children are receiving care and attention in the capacities of building and alterations. Some of the boys are left entirely to themselves to perform their tasks and have their work occasionally supervised by the instructor who points out their mistakes and gives advice. The youngsters are highly delighted with this manner of working and take every precaution to have their work well done when the instructor makes his rounds. It is also proving a very apt way of teaching the children how to plan and construct for themselves.

The girls are engaged in the daily household duties and are busy preparing things for the year's work in the dress-making line. It is rather difficult to have everything in readiness in so short a while and therefore definite plans have yet to be considered.

(Mr. R. H. Moore--Quarterly Report Cont'd.--P.2)

School opened on August 15th. with an enrollment of 147 children. All were looking well and were quite eager to return after the long holiday. The doctor has made his annual examination of the new children and found them sufficiently well for entry in to the school.

Word has recently reached us that in the near future we may expect an influx of new pupils. From the report given it is to be expected that the school will be overcrowded according to the present quota capacity. Under the conditions of the present per capita grant we are not in a position to cope with the situation but nevertheless some sacrifice has to be made as many of these children, all of school age, cannot be turned away on account of the home conditions and it therefore leaves us with a heavy burden to bear. The timely assistance already promised by the Department for the next fiscal year will come as a very welcome aid in lessening our worries.

The dairy, which for many years has stood a great distance from the source of milk supply, has been moved to a nearer location and remodelled inside with a new wall and concrete floor as well as the entire building receiving a new coat of paint which adds a freshness to the occasion. The interior has been done over in white which gives it that appearance of cleanliness which a dairy should have.

A butter and cheese room of ample proportion has been added with insulated walls and concrete foundation and floor to keep an even temperature throughout the year. This is an addition much to be appreciated owing to our ever increasing stock of the products. For the quarter we can quote a butter and cheese production of 721 pounds and 300 pounds respectively.

The Total milk production for the quarter amounted to 32, 300 pounds.

Moving preparations are under way for the chicken house when it will be put closer to the barn so that the chickens may have the freedom and scratching of the barn yard. The concrete floor which in the past has proven very unsatisfactory, will be abandoned. Our egg production for the quarter has been very low due to the fact that we are doing away with our present brood of hens and will restock with a better grade of layers.

We are exceptionally proud of our farm returns this year and especially the Alfalfa yield which crop is proving a heavy yielder in such a climate. To date we take pleasure in the following returns:

Alfalfa---67 tons; Timothy--9 tons; Brome---10 tons;  
Green oats & Peas (Silage)--15 tons; Green Oats--6 tons.

We are indeed sorry that at the time of writing our grain crop has not been threshed, owing to the inclemency of the weather, and we are unable to submit a true estimate of the returns. However, the next report will bear the tale of a very fruitful yield.

In past years our grain threshing had to depend largely upon the convenience of the one thresher owner of the district with the result that as many as 100 bushels of grain were lost before it could be threshed. This year the school took it upon itself to purchase a second hand machine and tractor which action permits us to thresh direct from the field while the weather is still permissible.

(Mr. R. H. Moore---Quarterly Report Cont'd.--P3)

Breaking activities have commenced on our newly cleared 20 acre field and also on two smaller plots comprising about 20 acres, which will next year produce a further supply of grain. With so much land open for cultivation a thresher is a necessity to the institution.

It is to be much regretted that we were unable to obtain a grant for the construction of a new root house. Due to the very unfavorable conditions of the present one we lost seven tons of vegetables. With the bumper crop already in the process of storing and to be stored the loss to be expected by next spring will certainly defray the expense of a new cellar. We hope that the Department will view our situation from a new angle and rectify the wrong.

The progress made by the school in the past year has been very extensive though no unnecessary work has been carried on. Our progressiveness has been the source of many inspiring remarks from the many visitors to the school and we are extremely proud to display our gardens and other achievements. The expense attached to our improvements has been heavy but we cannot expect to succeed before everything is in the required shape. We hope that one day the Department will realize the extent and value of our efforts and extend their appreciation in the form of financial aid.

Respectfully Submitted,

A.F. Mackenzie, Secretary  
Department of Indian Affairs  
Ottawa

Dear Sir;

I beg to acknowledge receipt of your communication of Nov. 24 ultimo, with enclosed copy of your letter to Mr. R.H. Moore, Indian Agent, Vanderhoof, B.C., in connection with my request to lease a portion of the land now used by the Lejac Indian Residential School.

With reference to this communication, I cannot help expressing to your Department my great surprise at your action, whereby you requested this matter to be placed before the Fraser Lake Indians.

1.-After all the trouble taken by the Department to secure the deed signed April 12, 1921 (as per your copy) by the Fraser Lake Indians, I did not think that the Department could possibly entertain any scruple about the legitimacy of its title over the said land.

2.-Should the Department entertain any scruple concerning the reasons advanced before the Indians to secure aforesaid land, I beg to remark that the lease I am applying for falls exactly within the School purposes mentioned in your deed with the Fraser Lake Indians. -If you will kindly refer to my letter of October 22d, you will see that the first reason I advanced in my request was to have a piece of land whereon to build appropriate quarters for the Principal and staff of the School.

Of course, if the Department is willing to go through such expenses as to build a house for our Principal, as apparently was done in other Schools, I will immediately withdraw my request, and will be satisfied with any location, whereon the Department will choose to set up the said building.

3.-Unless the Fraser Lake Band of Indians has been of late prejudiced against us by some man antagonistic to our work, I can positively assure the Department that, to the best of my knowledge, none of the said Indians will object to my residing at the School. -Most of these Indians come and visit me weekly at the School, and all have expressed their great satisfaction to see me residing there in order to supervise more carefully the work conducted at the School by the Sisters and Fathers under my care. -In the mind of these Indians my presence near the School is so intima-

tely connected with the work of the school that they will certainly fail to see the distinction between the school work and my work.

I trust, therefore, that the Department will not, on account of such a procedure as the one mentioned in your letter to Mr. Moore, delay any longer the granting of the favour asked for in my letter dated October 22nd.

After taking the advice of the members of the Oblate Council for the District of Northern British Columbia, held November 10 ultimo, I deposited at the Office of Mr. R. H. Moore, Indian Agent at Vanderhoof, a sketch of the land we are applying for, describing therein the exact location and desired dimensions, amounting to a little less than one acre, -leaving to the generosity of Your Department to lease us a larger piece of ground, if you thought it convenient.

Expecting to hear soon again from you on this matter of great interest to us,

I beg to remain,

Dear Sir,

respectfully yours

Ottawa, December 30, 1936.

Right Reverend Sir:

I have Your Lordship's letter of the 12th instant, regarding your request to lease a portion of the land now used in connection with the Lejac Indian Residential School.

In reply may I say that this land, a part of the Fraser Lake Reserve No. 4, was surrendered and set aside by the Indians of the Band for the purpose of the Lejac School only, and, in the event, at any time, of it not being further required for school purposes, the land would revert to the Band. It is therefore necessary, before leasing a portion of this land for other than school purposes, that the consent of the Indians be obtained. The local Indian Agent was therefore requested to place the matter before the Indians of the Band and obtain their consent to leasing the portion required by you as a site for the residence which you wish to erect.

May I say, further, that the Department understood, from previous correspondence, that the house you intend to erect is for the use of yourself and the Oblate missionaries of the district. It is now noted, from your letter, that this house is for the use of the Principal and staff of the Lejac School. We understand that accommodation for the staff and suitable living quarters for the Principal are provided in the

school building.

As soon as the Department is advised by the local Indian Agent of the approval by the Indians to rent a portion of the school land as a site for a residence, the necessary action will be taken. It is not anticipated that there will be any objection on the part of the Indians to the leasing of a small portion of the school land for the purposes required by you.

LE Jac Indian Residential School Inquiry,  
March 2nd and 3rd, 1937.

Witness: Provincial Constable Jennings in charge of Vanderhoof Provincial Police Detachment.

Place: Vanderhoof Police Office.

Date: March 1st, 1937.

Commissioner MacKay:- I will read the evidence according to this report as given by you at Fort Fraser, B. C. on January 4th, 1937, before Coroner C. Pitts, M.D. and jury enquiring into the death of four Indian Boys, Allen Patrick, Andrew H. Paul, Justa Maurice and John Michel Jack, pupils of Le Jac Indian Res. School and who left the School after 4:30 p.m. on January 1st, 1937 for "Nautley" Indian Reserve.  
Commissioner MacKay reads the evidence.

Commissioner:- Is this your evidence?

Witness:- Yes.

Commissioner:- Would it be difficult to search for lost or missing persons in that area?

Witness:- No. There are three straight routes to travel; the Lake, the main road, and the railway.

Commissioner:- When were you notified of the tragedy?

Witness:- At 8:05 p.m. January 2nd, 1937.

Commissioner:- When were the bodies found?

Witness:- At 5:30 p.m. on January 2nd.

Commissioner:- Do you think the interval between the time the bodies were found and the time you were notified was unnecessarily long?

Witness:- No. There could be good reasons for the delay.

Commissioner:- How far did the children travel?

Witness:- Approximately  $7\frac{1}{2}$  miles.

Commissioner:- How long would you say it took the children to travel the distance from the School to where their bodies were found?

Witness:- From 6 to 8 hours, probably the latter. The children were only little tots and would become fatigued after the first 3 miles which they would probably make in less than 3 hours. The balance of the distance would take them longer. The longer they travelled the slower the pace and besides the walking was not easy.

Commissioner:- What was the depth of snow on the lake?

Witness:- Five inches, the part next to the ice was wet and slushy.

Commissioner:- You stated in your evidence the snow was packed for a radius of ten feet around where three of the bodies were found, what caused this?

Witness:- The children were so fatigued they could not go on, and they trampled the snow around where they stood before they collapsed.

Commissioner:- If a search party had been organized at 9:15 p.m. or as late as 10 p.m. on January 1st, do you think the children could have been saved?

Witness:- I certainly do.

Commissioner:- When do you think the children died?

Witness:- I would say around midnight on January 1st, or later.

Witness: - Harry Paul, father of Andrew Paul, one of the four school boys frozen to death on Fraser Lake.  
Place:- In the home of Louie George, Fraser Lake Band, Indian.  
Date:- March 3rd, 1937. at Nautley I. Reserve.

Commissioner MacKay:- Your boy Andrew Paul was eight years old and attended school?

Harry Paul:- Yes.

Commissioner:- When was the first time you heard your boy was missing?

Harry Paul:- January 2nd at 3 o'clock.

Commissioner:- Who told you this?

Harry Paul:- The people here.

Commissioner:- What did you do then?

Harry Paul:- I did not do anything.

Commissioner:- When did you hear your boy was frozen to death?

Harry Paul:- January 2nd between five and six o'clock.

Commissioner:- Did you go then to the lake?

Harry Paul:- Yes.

Commissioner:- How was he lying on the ice?

Harry Paul:- Face down. One boy on top crossways, my boy face down couple of feet away.

Commissioner:- Was the snow tramped around?

Harry Paul:- Yes, the boys had tramped the snow down.

Commissioner:- Did your boy have heavy clothing on?

Harry Paul:- No, just summer clothing.

Commissioner:- Had he a hat on?

Harry Paul:- No hat and one rubber was missing and his foot bare.

Commissioner:- Were the boys frozen hard?

Harry Paul:- About one half frozen.

Commissioner:- Did they bend when picked up?

Harry Paul:- Just one half frozen.

Commissioner:- Did your boy at any time complain about the treatment received at the School?

Harry Paul:- He told me he liked to stay there. He had good treatment there.

Commissioner:- Did your boy run away from the School any time before?

Harry Paul:- No, he liked to stay in the School.

Commissioner:- Have you heard any time from other boys about bad treatment at the School?

Harry Paul:- I don't know much about that.

Commissioner:- Were you at the School on New Year's Day?

Harry Paul:- No, not me or any of my friends.

Commissioner:- No one he could have come home with?

Harry Paul:- No.

Commissioner:- How long do you think it took the boys to walk from the School to where they were found?

Harry Paul:- Seven or eight hours, hard walking in four or five inches of snow. Lots of water under snow in places.

Commissioner:- They could not make more than about one mile per hour then?

Harry Paul:- No.

Commissioner:- If the School authorities had organised a search party at 9:30 do you think the boys could have been found that night?

Harry Paul:- Yes, I think we could have found them alive if a whole bunch had gone out to look for them.

Commissioner:- Even at 9:30 or 10 o'clock.

Harry Paul:- Yes.

Commissioner:- Some time before when boys were missing from School was it long before a search was made for them?

Harry Paul:- I don't know.

Commissioner:- You haven't anything against the School at all?

Harry Paul:- No.

Commissioner:- The children did well there?

Harry Paul:- The big boys come home to visit on Sundays and I think the young boys should be allowed to come home some times too as they get very restless there.

Date:- March 3rd, 1937. at Nautley I. Res.

Commissioner MacKay:- How old was your boy?

Sylvester Patrick:- Eight and three quarters.

Commissioner:- Was he healthy?

S. Patrick:- Never sick.

Commissioner:- Had you heard any complaints from him regarding treatment received while at the School?

S. Patrick:- He said he did not get proper food.

Commissioner:- Did he say anything about being punished at any time?

S. Patrick:- He did not complain.

Commissioner:- When were you notified the boy was missing?

S. Patrick:- I was out working then, when I got home at 4 P.M. January 2nd, then I heard.

Commissioner:- What did you do then?

S. Patrick:- They started a search party. I stayed at home.

Commissioner:- When you heard about the boys being dead what did you do?

S. Patrick:- I phoned Father McGrath.

Commissioner:- What then?

S. Patrick:- We waited till the Police came.

Commissioner:- Where was your boy?

S. Patrick:- My boy was about 75 feet away lying face down with coat under him. He just had summer clothing on and some kind of a bonnet. He was the only one with a cap on. He had running shoes on with no rubbers.

Commissioner:- How long do you think it was between the time the boys left the School till they reached the place where they were found.

S. Patrick:- About 8 hours.

Commissioner:- They walked slowly?

S. Patrick:- It was hard even for men to walk on the lake.

Commissioner:- Was it cold?

Commissioner:- Did he complain about the School?

S. Patrick:- Yes.

Commissioner:- Because he was punished,

S. Patrick:- No, he did not like the School.

Commissioner:- Do the teachers punish the children there?

S. Patrick:- Most of the time.

Commissioner:- You were punished yourself.

S. Patrick:- Yes.

Commissioner:- How were you punished?

S. Patrick:- With straps, sticks or anything.

Commissioner:- Do you mean you were strapped on the bare hands?

S. Patrick:- Yes, we were strapped on the bare hands and sometimes they would take our pants down and give us a good licking.

Commissioner:- Were they very severe?

S. Patrick:- Yes.

Commissioner:- Who did the punishing?

S. Patrick:- The sisters did quite a lot of it.

Commissioner:- Is there any sister at the School now whom you knew who punished the children herself?

S. Patrick:- Yes, Sister Michelas, punished too hard. She was my teacher at Fort St. James when I was at the School there.

Commissioner:- If the School authorities had organised a search party at 9 or 10 o'clock do you think the boys could have been found and saved?

S. Patrick:- Yes, I think so.

Commissioner:- Do the School authorities usually wait long before starting to search for missing boys?

S. Patrick:- Just the same when boys ran away when I was there.

Commissioner:- You think there is excessive punishment from time to time?

Commissioner:- When did you first hear the boys were missing?

C. Charley:- I heard January 2nd when I got back about 3 or 4 P.M.

Commissioner:- Who asked you to go and search?

C. Charley:- The boys' parents.

Commissioner:- Did Father McGrath speak to you?

C. Charley:- No. Justa Morris boy want with me. I went by way of Gerhardt's place and then across the lake to Encombe. I picked up the tracks on the South side of the lake by the big point. I saw the tracks of four boys. The boy of Justa Morris was with me when I found them.

Commissioner:- Three bodies together and one farther on?

C. Charley:- Yes.

Commissioner:- You followed the tracks; Yes: Did they go straight?

C. Charley:- When I picked them up they went straight to the light that was at the Village.

Commissioner:- They got to within half a mile from here?

C. Charley:- Yes, half a mile from here.

Commissioner:- What was their course on the lake?

C. Charley:- They came to the mouth of the river and it was open water and they turned back when they step in and get wet and they turn back to Beaumont's Beach and I find them about one quarter mile from there. I think they had all been in the water. They had tramped the snow down and scraped some away and put down sweater on ice then one lay on top of sweater and one on top of him and one close by and one 25 feet away.

Commissioner MacKay:- Were you at the School Near Year's Day?

L. George:- Yes.

Commissioner:- Who was with you?

L. George:- My wife.

Commissioner:- What time did you return?

L. George:- I came back maybe three o'clock on the road. I had my team.

Commissioner:- What time did you leave the School?

L. George:- About three o'clock.

Commissioner:- You saw the boys then at the School?

L. George:- One boy there, all I see, Willie Allen.

Commissioner:- At 3 o'clock?

L. George:- Yes.

Commissioner:- When you were at the School you just saw one of the boys?

L. George:- Yes, just see one, I have no boy stop School now, I have girl there, I just go to see her.

Commissioner:- You did not talk to Allen Willie?

L. George:- No, I did not talk to Allen Willie.

Commissioner:- He did not ask to come with you?

L. George:- No.

Commissioner:- Were there many at the School from here?

L. George:- Not many, just us I think.

Commissioner:- You did not pass anyone on the road?

L. George:- No, no one.

Commissioner:- Does your girl complain about the treatment at the School? How old is she?

L. George:- About 9 years. She like the School. I like too. My boy out of School now like the School, he is 17 years old now.

Commissioner:- Are the teachers good to the children?

L. George:- Good for my girl. Me think good for children go to School.

Commissioner:- Do the boys or girls complain that they are whipped?

L. George:- No, they never do that. My boy run away one time. I take car next day and take back as soon as I find him.

Commissioner:- Was he whipped when he got back?

L. George:- I can't tell you that. He did not tell me.

Commissioner:- How long do you think it would take the boys to get to where they were found from the time they left the School?

L. George:- I do not know. It take long time.

Commissioner:- If Father McGrath had started to look for the boys at 9 or 10 o'clock do you think he would have found the boys alive that night?

L. George:- Maybe, I do not know.

Commissioner:- How fast would the boys walk in that snow?

L. George:- About one mile an hour, some boys run and are smart.

Commissioner:- Have you anything against the School?

L. George:- I like the School. My children like the School. They are treated very well.

Witness:- Mrs. Sylvester Patrick, mother of Allen Willie, one of the four boys frozen on Fraser Lake.  
Place:- In her own home as she was ill with influenza at the time: Nautley Indian Reserve.  
Date:- March 3rd, 1937.

Commissioner MacKay:- Did you go to the Indian School?

Mrs. S. Patrick:- Yes, I went to the Indian School when it was at Fort St. James before they moved it to Lejac. They did not treat us right there. We were punished at that school. Sometimes they whipped us by hand, sometimes by stick on hands, sometimes by eight inch strap about 30 times on each hand. Even when we just smiled at one of the boys they gave us that much.

Commissioner:- Was the food all right?

Mrs. S. Patrick:- Sometimes we ate worms in the meat, just beans sometimes and sometimes just barley.

Commissioner:- Did your boy complain about punishment any time?

Mrs. S. Patrick:- Lots of times they punish him and some times he nearly run away.

Commissioner:- Did he run away?

Mrs. S. Patrick:- First time he run away with other boy.

Commissioner:- Did he like the School?

Mrs. S. Patrick:- Yes, he liked it.

Commissioner:- Does this little girl (referring to a sister of the deceased Allen Willie) say that the teacher punishes her?

Mrs. S. Patrick:- Yes. My teacher made my back very big and punished me on my back.

Commissioner:- Did you like School?

Mrs. S. Patrick:- I would rather stay at home than at School. One time we talked Indian in our own language and the Sister said we had to talk English all the time and she make us take down our drawers and she strap us on backside with big strap. Sister Josephine was the Sister who did this.

Commissioner:- Have you heard other complaints about the School?

Mrs. S. Patrick:- I heard lots of complaints they kick them and everything.

Witness:- Rev. Dobson of the United Church at Fort Fraser, B. C. Mr. Dobson was a member of the Coroner's jury investigating the deaths of the four boys frozen to death on Fraser Lake.

Place:- In the Manse, Fort Fraser, B.C.

Date:- March 3rd, 1937.

Commissioner MacKay:- You were a member of the Coroner's Jury?

Witness:- Yes.

Commissioner:- Reads the first clause of the findings of the Jury and asked "How did you arrive at this decision"?

Witness:- Considering the evidence which came out we felt that we could not attach any criminal blame to any particular persons.

Commissioner:- Reads the second clause:- How did you arrive at this decision?

Witness:- I do not think we have given an unfair decision in any way although most people now seem to say that we should have attached more blame than we did. There have been quite a number of cases of children running away. The feeling of the men in the Jury was that we could not attach direct blame to any party but we felt that there had been laxity in certain ways. We added the riders to direct attention to this in order that conditions at the school might be bettered.

Commissioner:- Reads Clause 3 - "What form of co-operation was in the mind of the Jury"?

Witness:- When Father McGrath came next day about noon he wanted the mother of the child to tell him where the child was as he considered that she had hidden him and did not want to turn him over. That did not look like a very good understanding between the parents and the Principal.

Commissioner:- Did you refer to this intentionally?

Witness:- They were speaking generally, I think. They were not thinking of this particular event but this is the one that brought it to a climax.

Commissioner:- In your opinion should the authorities at the School have taken more aggressive action than they did and earlier than they did?

Witness:- Yes, quite definitely so.

Commissioner:- Reads the clause re excessive corporal punishment:- "What did they mean by this"?

Witness:- I understand the girls get along very well but they have considerable trouble with the boys. Some of the Indians think the boys get too much punishment. Father McGrath was supposed to be the Principal but did not seem to have full authority and had to pamper the children with kindness and nice things. I think the Principal should have a free hand to run the School.

Commissioner MacKay:- What did the white people think about the action taken by the School?

Witness: (Rev. Dobson) - The white people were very strong in their condemnation of the School. I think myself they have a most difficult situation to handle. The people generally think we were not severe enough.

Commissioner:- Has the situation died down now?

Witness:- Well, the Indians still talk but the white people here being most Protestant and being situated at a considerable distance from the Indian School are not very much interested in that School. The white people close to the School at Fraser Lake would probably be talking more about it. There are no outstanding men among the white people locally who would bother to take any part in demanding any further investigation as they are not sufficiently interested.

Commissioner:- Are you of the opinion that any good purpose could be served by a Judicial Inquiry?

Witness:- That would be rather hard to answer. I have not been where other Indian schools are and do not know what is the usual procedure in such cases.

Commissioner:- Had steps been taken by the School up to 9:30 p.m. on January 1st, do you consider that the children would have been recovered and saved?

Witness: - I doubt if they could have been found but they would have cleared themselves much better had they taken immediate steps to trace the missing children. If there were a telephone on each Indian Reserve it would be a great help in cases of this kind.

The Commissioner then thanked Mr. Dobson (witness) for the way in which he had given his evidence. This concluded the hearing of evidence at Fort Fraser.

Witness:- Sister Superior (Sister Josephine)  
Place:- Le Jac Indian Res. School  
Date:- March 2nd, 1937.

Commissioner MacKay:- How long have you been connected with this School?

Sister Superior:- With the School since its foundation 1917 (Fort St. James) and after at Fraser Lake since it opened here in 1920.

Commissioner:- What is your position here?

S. Superior:- Sister Superior in charge of the Sisters and all the work done by them in control of the children.

Commissioner:- How many teachers in the School?

S. Superior:- Four teachers, all Sisters.

Commissioner:- What grades were the boys, who perished, in?

S. Superior:- 3 in the primary; 1 in the Kindergarten.

Commissioner:- Were you present and in charge on New Year's Day?

S. Superior:- Yes.

Commissioner:- Who was the teacher in charge on New Year's Day?

S. Superior:- There was no school session on New Year's Day.

Commissioner:- Who taught the children prior to Christmas?

S. Superior:- Sister Noella.

Commissioner:- Did you know the boys?

S. Superior:- Yes.

Commissioner:- Were they well behaved children?

S. Superior:- Yes, very well behaved; they were nice.

Commissioner:- Does the teacher of the class punish children when found necessary?

S. Superior:- For three or four years no punishment was administered by the Sisters; the boys were punished those years by the disciplinarians. The girls are punished by the Sisters. This punishment consists of strapping on the hands.

Commissioner:- Was there excessive discipline prior to the tragedy?

S. Superior:- For one year there was practically no discipline with the result the boys did what they liked.

Commissioner:- Do you remember seeing the boys on New Year's Day?

S. Superior:- Yes. I saw the boys on New Year's Day. One of them, Johnny Michel came to the Office. He came for candy, this was at 4 P.M.

S. Superior:- I did not see them after 4 p.m.

Commissioner:- When did you notice the children's absence?

S. Superior:- I was informed of their absence at 6:30 p.m.

Commissioner:- By whom?

S. Superior:- By Sister Noella.

Commissioner:- You did not see them having their lunch at 4:30.

S. Superior:- No. I did not.

Commissioner:- When did Sister Noella notice their absence?

S. Superior:- At 6 p.m. for she was in charge of the dining room.

Commissioner:- When you were informed the boys were missing what did you do?

S. Superior:- I found the Father in charge of the boys and asked him if he knew the children were missing.

Commissioner:- What did Father Marsigny say?

S. Superior:- I know they are missing, they asked and obtained permission from the Bishop to go.

Commissioner:- What time was this?

S. Superior:- About 6:30.

Commissioner:- Father McGrath was then at the School?

S. Superior:- Yes.

Commissioner:- Did you know he was?

S. Superior:- Yes, I must have known.

Commissioner:- Did you inform Father McGrath the boys were missing?

S. Superior:- No. I did not for I understood they had permission to leave.

Commissioner:- When did you see Father McGrath to discuss the matter with him?

S. Superior:- Bishop Coudert.

Commissioner:- What did Bishop Coudert say?

S. Superior:- He said Father McGrath should know and I presume he then informed him; this would be about 8:30 p.m.

Commissioner:- Did you take any steps to find the boys then or offer any suggestions as to what should be done?

S. Superior:- The boys were not satisfied, they wanted to go home.

Commissioner:- That is not answering the question -- Did you take any steps to find the boys or offer any suggestions as to what should be done?

S. Superior:- No, I thought the Bishop and Father McGrath would do what was necessary. If it had been girls I might have been more concerned.

Commissioner:- Do you know if any or all of the boys who perished complained of the treatment received at the School?

S. Superior:- No, the boys did not complain, they had no reason to complain.

Commissioner:- Had any of these boys been punished during the time they attended the School?

S. Superior:- I am sure they were not.

Commissioner:- Considering the circumstances, have you anything to say as to what should have been done when the Bishop and Acting Principal knew the boys were missing?

S. Superior:- The Bishop and Father McGrath thought they would reach home safely.

Commissioner:- What was the depth of snow?

S. Superior:- I could not say.

Commissioner:- What was the temperature and was there a strong wind?

S. Superior:- I do not know what the temperature was. There was not a strong wind.

Commissioner:- Who was in charge when the Acting Principal was absent?

S. Superior:- The Bishop.

Commissioner:- Is there any Church regulation as to who takes charge when the Principal or Acting Principal is absent?

S. Superior:- Not to these boys. Other runaways were punished by strappings but Father McGrath was present each time and counted the strappings.

Commissioner:- Was there any definite rule as to who took charge in the absence of the Principal?

S. Superior:- I do not know.

Commissioner:- Are individual teachers allowed to administer corporal punishment at will or must the case go to the Principal?

S. Superior:- The teacher refers the case to me and for minor offences I instruct the teacher as to the punishment to be administered and for major offences I refer the case to the Principal.

Commissioner:- If the offence is serious who administers the punishment?

S. Superior:- I do to the girls and the disciplinarians do to the boys.

Commissioner:- What does the punishment consist of?

S. Superior:- The strap for major offences - on the hands and on the backside when they run away.

Commissioner:- Has each boy a separate place for his clothes?

S. Superior:- Yes, a peg to hang clothes on and a box for their shoes.

Commissioner:- Where is this?

S. Superior:- In their play hall.

Commissioner MacKay:- Did you know the children?

Witness (P.J. Corcoran):- Yes.

Commissioner:- In your experience with them were they well behaved?

Witness:- Yes; they were good boys.

Commissioner:- Do you know if any of these boys ran away before?

Witness:- Yes. Maurice Justa, on two occasions he was found and brought back at 4 P.M. and ran away again about daybreak the following morning.

Commissioner:- Was he punished for this?

Witness:- I could not say definitely, but I feel confident he was.

Commissioner:- You have had experience in going after missing boys before?

Witness:- Yes.

Commissioner:- When the boys asked for permission to leave the School it was understood they wanted to go to Nautley I.R.

Witness:- Yes.

Commissioner:- Permission was refused by the Bishop?

Witness:- Yes.

Commissioner:- How deep was the snow on the lake the way the boys travelled?

Witness:- I would imagine about 6 or 8 inches.

Commissioner:- You have had a lot of experience with small children walking in the snow?

Witness:- Yes; quite a little bit.

Commissioner:- How long would you estimate it took them to cover the distance between the School and where the bodies were found?

Witness:- It is difficult to say - I wouldn't like to say.

Commissioner:- What was the temperature?

Witness:- I could not say.

Commissioner:- When children are reported missing is there usually a delay in organizing a search party?

Witness:- No, as soon as we find out they have gone we go right after them. This means day or night; I have gone without meals to go after them.

Commissioner MacKay:- Do you know why there should have been such a delay on this occasion?

Witness (P.J. Corcoran):- No I don't - I feel sure had Father McGrath known I would have been after them right away.

Commissioner:- Father McGrath knew at 9:15<sup>P.M. Jan. 1st</sup>/the children were missing. Do you know why he did not send and ask you to arrange to search for them then?

Witness:- No. I do not know.

Commissioner:- Is it the usual custom at the School when children are missing irrespective of age of children and weather conditions to allow overnight interval to elapse before making a search?

Witness:- No. This is the first time I know of that it has ever occurred.

Commissioner:- What justification had Acting Principal McGrath for assuming the children had left with friends?

Witness:- There were a number of Indians around that day with whom they might have gone.

Commissioner:- Are not visiting Indians seen as they come in and when they go out or are they allowed to come in and go out at will?

Witness:- They have been allowed to do that in the past but are not always seen when they come in or go out.

Commissioner:- Assuming that it was not definitely known whether or not these children were warmly clad what reason can be given for not making an immediate search, whether the children were supposed to be with friends or not?

Witness:- It was such a short distance and there were such a number of Indians around.

Commissioner:- Do you consider the distance between this School and the Nautley I. R. a short distance for children of such ages to travel and under the prevailing weather conditions?

Witness:- I would not consider this a great distance - We did not think of them travelling by the lake.

Commissioner:- Would a search in the snow about the School shore line boundaries immediately their absence was discovered have revealed tracks showing which way the children had gone?

Witness:- It is difficult to say.

Commissioner:- If a search party had been organized when the boys were first missed so as to cover the routes to Nautley I. R. (that is by the Lake, the road and the railway) simultaneously do you think the boys could have been saved?

Witness:- Yes; I do.

This question was also asked of Mr. Anderson who answered in the affirmative.

Commissioner MacKay:- Have you heard complaints against the administration of the School?

Witness (P.J. Corcoran):- Yes, founded on rumors but not on personal knowledge.

Commissioner:- Is it your experience to find the children at this School satisfied with conditions under which they are trained?

Witness:- Yes.

Commissioner:- Are the parents of the children opposed to sending their children to this School?

Witness:- A certain number of them.

Commissioner:- Is this because they think the children are subjected to unnecessary and undeserving punishment?

Witness:- No. It is on account of their abnormal love for their children and the desire to have them with them at all times.

Commissioner:- Was the road open between here and Vanderhoof on January 1st and 2nd.?

Witness:- Yes, but tough going.

Commissioner:- Do you think Father McGrath had sufficient authority?

Witness:- No - If he had the authority Father Grant now has, I doubt if this tragedy would have occurred - He didn't know what authority he had.

Commissioner:- Do you remember if this evidence of Jean Donze is substantially correct? (Commissioner reads evidence)

Witness:- Yes.

Commissioner:- You are of the opinion, Doctor, the children died on the ice before midnight on January 1st, 1937?

Witness:- I think so.

Commissioner:- What are your reasons for so thinking?

Witness:- Well, it is difficult for me to say whether they actually died before midnight on January 1st. It looked as if two had been sitting resting then had fallen back on their backs. The third was lying down on his face across one of the bodies of the first two. - The fourth was 50 feet away lying on his face. The bodies were frozen stiff.

Commissioner:- How long would it take them to travel the distance covered?

Witness:- At least 3 hours.

Commissioner:- Do you think they were exhausted when they reached the space in which they were found?

Witness:- Apparently. - They were probably freezing before they collapsed.

Commissioner referring to Item (3) of Jury's Verdict and asks:  
On what was this based?

Witness:- On the evidence of Father McGrath, Jean Donze and P. Corcoran. If energetic action had been taken on the night this occurred up until 9:30 p.m. the jury were of the opinion the children could have been recovered and saved.

Commissioner:- Were these boys normal physically and mentally?

Witness:- Yes.

Commissioner:- Have you heard from any authoritative source that excessive corporal punishment was administered at the School?

Witness:- No. I haven't.

Commissioner:- Have you any reason to believe from your examination of the children that severe punishment was administered?

Commissioner MacKay:- Paul, did you leave the School for Nautley I. R. with the 4 boys who lost their lives on Fraser Lake on January 1st?

Witness (Paul Alex):- Yes.

Commissioner:- When did you leave the School, Paul?

Witness:- I go with other boys after I get lunch.

Commissioner:- Did you ask the Bishop if you could go?

Commissioner MacKay:- Do you know if excessive corporal punishment has been administered in this School?

Witness (Father Grant):- I understand severe strappings have been given.

Commissioner:- Do you know if this took place just prior to the death of the 4 boys?

Witness:- I cannot say positively for of course I wasn't here, but I have information to the effect that boys and girls were punished somewhat severely before my arrival.

Commissioner:- Do you know what the punishment mainly consisted of?

Witness:- Strappings on the bare hands, legs and posterior.

Commissioner:- Would this take place after the Acting Principal had been informed and with his approval and before him.

Witness:- Oh! yes, I would think so.

Commissioner:- What methods of punishment are now in force?

Witness:- I have made changes, corporal punishment will not be given unless approved by me and only then in cases of immorality or serious cases of misconduct - Indeed, we will operate in this regard along the lines of the provincial public schools.

Commissioner:- Do you think Father McGrath had sufficient authority as acting principal?

Witness:- I think he could have taken it. The situation was complicated, Father McGrath couldn't speak French and the French Disciplinaryians would naturally refer to the Bishop.

Commissioner:- Where does your responsibility begin and end in so far as the student body is concerned?

Witness:- That is a difficult question to answer.

Commissioner:- Do you know?

Witness:- My personal opinion is that we are responsible for their safe keeping while they attend School.

Commissioner:- Does your responsibility extend beyond the boundaries of the School in a case of absence with or without permission?

Witness:- When they are missing, I would say we should look for them until they are found but this is my personal view. I know of no set rules although there may be rules governing our responsibility in detail.

Commissioner:- You have made some changes since your arrival?

Witness:- Yes, the Disciplinaryians have been changed and also some changes have been made in the outside staff.

Commissioner:- The Indian Department's representative, Mr. Moore, was not informed of the tragedy until the afternoon of January 3rd and then not by the School authorities.

Witness:- I understand that is correct - It was a mistake, Mr. Moore should have been notified as soon as possible after the children's absence was discovered.

**LEJAC RESIDENTIAL SCHOOL**

Oct. 4, 1937

Report for quarter ending Sept. 30th 1937.

Mr. R. H. Moore,  
Indian Agent,  
Vanderhoof, B.C.

Dear Sir,

I beg to submit the following report for the quarter ending sept. 30th 1937.

The period covered by this report takes in two months of the holidays and one month of the school year. Even this one month includes two weeks in which comparatively few of the children were present as the date of opening for some of the camps was delayed on account of epidemics of measles and whooping cough.

Crops: Owing to the late season we are not yet in a position to give an exact estimate of this years crops. The acreage will be as follows:

|                |          |
|----------------|----------|
| Alfalfa-----   | 55 acres |
| Potatoes-----  | 10 acres |
| Wheat-----     | 30 acres |
| Green Feed---- | 8 acres  |
| Hay-----       | 5 acres  |
| Oats-----      | 10 acres |
| Barley-----    | 5 acres  |

All we can say so far is that the crops are fairly good. The potato is far above the average and we are having trouble at present trying to find place to store them. Even if the root cellars which have been used in the past were available this year we would not have sufficient space to store all our potatoes but two of the cellars are full of water and the third is so undermined as to be unsafe. For the moment we are planning to use box stalls in the cow barn and we hope to be able, if the weather permits to put a roof over the excavation near the school building where we are planning to have our permanent root cellar.

We would again like to call the attention of the Department to the urgent need of a permanent well constructed root cellar and would respectfully renew our request for a special grant for this purpose.

Livestock: Since our last report we have added four holstein cows (purchased from Tranquille Sanatorium Herd) to replace grade cows which were not giving enough milk to justify their being kept

In order to be able to furnish the school with good meat at a reasonable cost we are beginning this year with a small herd of Hereford heifers and a Pedigree Bull purchased from the Prairies. This will enable us to demand a better quality of beef from those wishing to sell to the school as we will be able to show the type of animal we need and will be able to supply our own meat in case of necessity.

We are still confronted with the problem of finding accommodation for our pigs since the fire that destroyed the pig pen two years ago we have been using the calf barn as a temporary pig pen but the increase in the number of holstien hieffer calves will make it impossi

impossible for us to do this and unless the Department can see its way to authorize the construction of a pig pen we shall content ourselves with supplying the pigs with rough shelters covered with straw.

The development department has been very successful and we now have six hundred and fifty laying hens. With this number we hope to be able to sell sufficient eggs to pay for the cost of upkeep. and supply the school with sufficient eggs at a practically low cost. The two new hen houses and the five hundred pullets have been subject to many favourable comments from numerous visitors during the summer months.

Our small flock of sheep, destined to supply the school with fresh mutton within a year or two, are doing very well.

In order to assure sufficient grain and hay for the increased number of livestock we have rented a quarter section of land about two miles from the school with about forty acres of land under cultivation and we are negotiating with the owner of thirty acres of land under cultivation about three miles from the school.

There is very little to report concerning the school itself since it is only a little better than two weeks since the opening of the school.

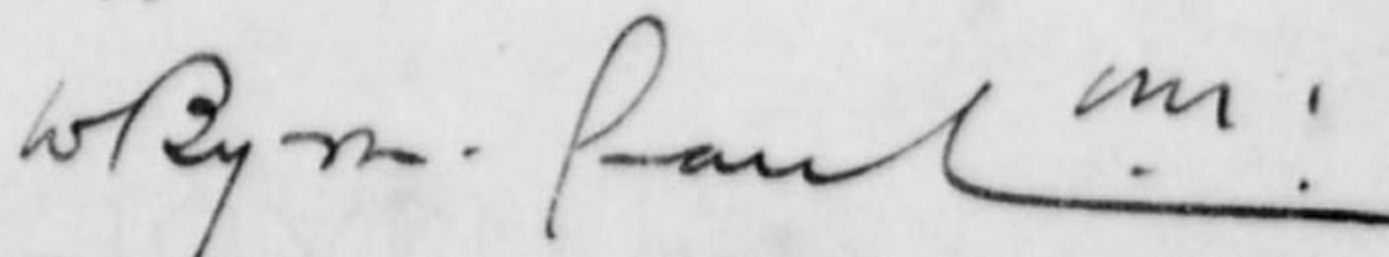

Attendance: As usual we have not yet received all the children but I am told that the number present now compares favourably with the attendance of the corresponding date of other years.

Health: As was to be expected we have not escaped the whooping cough which has been passing through the various camps during the summer months and we have had a few cases in the infirmary since the opening of the school. We were worried for a while over one case of what seemed to be typhoid fever. The child was taken to the hospital at Prince George and we have not yet received a definite report as to the real nature of the sickness. We do know however that if the case turns out to be typhoid it was not contracted at the school itself since there are one or two similar cases on the Stellaco Reserve from which the child came.

Staff: We are beginning the year with a full staff which includes the Principal, Nine Sisters, Engineer, Manual Trainer, Farmer, Poultry Man, Supervisor and Barn Manager. The last two mentioned and the Poultry Man sleep in the dormitory and help with the supervision of the recreation and the outside work.

The Rev. Sister Superior: Will act as vice principal should it be necessary on account of the absence or sickness of the Principal.

Yours truly,

Rev. W. Byrne-Grant, O.M.I.  
Principal

## LEJAC INDIAN SCHOOL GOOD

Fine Progress Made in Developing Institution; Agriculture Is Stressed

By HARRY BOWMAN

PRINCE GEORGE—The Indian residential school at Lejac is rapidly becoming one of the leading agricultural institutions in the province. Located on the south shore of beautiful Fraser Lake and nestled in the foothills provides ideal scenic surroundings for academic and practical training.

The school site was located by happy accident in 1912 when Rev. Father Cocola, in company with Indian guides, were canoeing on the lake visiting Indian settlements. A high wind caused the lake to become rough and the canoe was beached. It was then Father Cocola discovered the possibilities of establishing a school in these ideal agricultural and scenic surroundings. Following his discovery and recommendation, there were many years of agitation and exchange of letters until the buildings were constructed and the school opened in 1922.

There are approximately 225 acres of land, of which 155 are now under cultivation. Fifty-five acres are seeded to alfalfa. This crop has produced heavily even of fields seeded down for eight years. Thirty acres were in wheat this season, and the balance of cultivated land in oats and peas for green feed, potatoes, garden and hay land. Four hundred and eighty acres of additional land have been rented for pasture and cereal grains.

The school has an average attendance of 160 pupils. These come from Shelley, Hazelton, Cheslatta, Takla and Trembleur Lake districts, and from reserves that are within the circle of which the above points are most distant.

### BALANCED PROGRAMME

Every phase of agricultural activity is emphasized in order that the children on leaving school may be equipped to produce all necessary foods for table use. The girls are instructed in home cooking and preserving, sewing and butter making. The boys take their turns at the regular farm work in addition to their regular academic subjects and manual training.

The dairy herd comprises 26 head of Holstein cattle. Many are registered and are enrolled in the local cow testing association. Five excellent registered Holstein cows and heifers were recently purchased from the Tranquille Sanatorium farm. The herd sire "Agassiz Re-echo Rajah," by "Agassiz Tsussie Rajah," was added to the herd this season. This bull's dam "Agassiz Old Pietze Re-echo" has a record of 17,241 pounds of milk and 662 pounds of butterfat on twice-a-day milking. It is expected that a beef herd will be started shortly to furnish the meat requirements of the school.

Special attention is being paid to the raising of poultry. Five hundred and fifty white Leghorn

pullets and 160 Barred Rocks from specially selected stock were purchased early this year. Two modern poultry houses, fitted with running water, electric lights and Dutch ovens were constructed in case the winter proves severe.

Thirty-three head of commercial sheep have been introduced this season. This flock is to be enlarged as accommodation is prepared.

Fifteen hives of bees were secured this spring. They have done well, and Rev. Father Byrne-Grant, the principal, hopes to increase the number up to 50 or more hives.

Four brood sows of Yorkshire breeding are maintained to take care of the pork requirements of the institution.

The horsepower consists of several Clyde mares, two of them registered. A few good colts have been raised.

A complete line of farm machinery is on hand, and includes a threshing outfit and modern haying equipment.

Every attempt is being made to

make the school self-sustaining as possible, and at the same time to give the students a practical knowledge of the best agricultural practices.

The farm buildings are modern in every respect, but not elaborate. Running water and electric lights are provided by their own power and lighting plants. In fact every detail tending toward comfort of stock and caretaker has been considered in the construction of the buildings and arranging the farm, fields and programme.

This institution stands as a monument to the foresight of Father Cocola and the Indian Department at Ottawa. The possibilities of a practical school first visualized by Father Cocola have taken form under the guiding hands of the succeeding principals, with the co-operation of A. J. F. Rea.

Report for quarter ending June 30th 1937.

Mr. R.H. Moore,  
Indian Agent,  
Vanderhoof, B.C.

EXD

Dear Sir,

I beg to submit the following report for the quarter ending June 30th 1937.

Health. We have been very fortunate this year and apart from an epidemic of colds and sore throats during the last week of the term, we have had no sickness in the school.

Mr. Hocking the Dentist from Prince George, passed five days and the school and examined all the children.

Dr. Pitts, the medical officer for the School, left us last week and is succeeded by Dr. Poole, who seems very interested in his work. We were sorry to see Dr. Pitts leave as he has been giving us very good service and not only came regularly for his weekly visit but was always glad to come if we called him.

Attendance. The regulations of the Dept. concerning permission to go home during the year has been rigorously enforced and very few of the children were allowed to go home during the year.

Conduct With two or three exceptions among the older boys, the conduct of the children has been excellent.

Morale. In my last report I mentioned that I had been pleasantly surprised on coming to the School in January, to find the children apparently quite content and happy and I am glad to be able to report that up to the last day, this spirit has been maintained.

~~\*\*\*\*\*~~

Class-work The Sisters in charge of the class-rooms seem very satisfied with the work done and the progress made by the children. The rainy weather, which made outside work difficult, helped to keep them content at their desks till the last day.

Outside work. Not very much outside of the routine work has been done during this quarter. This is partly due to the weather and partly to the decision to keep the boys in the class-room during the rush of the spring work, when it was difficult to provide the necessary supervision.

Manual training. Apart from the usual farm work, the older boys have had an opportunity of learning more about practical carpentry and cement work. We have built a new hen-house near the girls' play ground and the work is a credit to the carpenter and the boys who helped him. Several of the boys have shown marked aptitude in this kind of work and one has been hired to work with the carpenter during the holidays.

On the girls side, the usual work of mending and making clothes has kept them busy and not one of them will leave the school without having acquired a certain proficiency in the essentials of good house-keeping.

The Farm

As I write today, conditions look very promising for our crops. A late spring, then three weeks of very dry ~~weather~~ weather and then ten days of rain had made the outlook rather sombre but if we have a continuance of the ~~the~~ present weather we shall have an abundant harvest of hay, green feed and potatoes.

Dairy We have recently joined the cow-testing Association and we hope that this will be a big help in building up a good herd of pure-bred Holsteins. In our last report we referred to the purchase of eight head of holsteins. Owing to unforeseen delays, the ~~se~~ animals have not yet arrived but we hope to have them by the middle of July.

Poultry. A considerable extension of our poultry work is being ~~now~~ made and in the fall we hope to have 600 laying hens. One of the poultry houses will be looked after by the girls and some of the boys will help with the rest.

Clearing. We hope to be able to finish clearing and to put into winter wheat, ten acres of land south of the highway. This will leave us about twenty acres of land to be cleared.

Root-cellar. For some years past the attention of the Dept. has been called to the need of better provision for the keeping of potatoes and roots. This need is greater than ever this year as the cellar we have ~~now~~ been using has started to cave in and the same cellar under the barn is flooded. We have therefore taken advantage of the presence in the neighborhood of the Government Bull-doser, to have the excavations made for a large cellar near the school building. This work has begun. The big expense will be incurred in building the cement walls and putting the roof on and I hope that the Dept. will see it way to help us to meet this expense. We have planted over ten acres of potatoes this year and if we have a good crop, we would not have sufficient place in the old cellars for the potatoes alone without counting the cabbages, carrots and field roots.

Sanitation. We have a plumber working on the repairs to the septic tank and before long we should know just what will be needed to prevent the trouble we have been having ~~the same trouble~~ on account of the laundry water flowing into the Sceptic Tank.

Water Supply. The unusually high level of the Lake will prevent work on the intake pipes for sometime. The water is so high that the pump house is flooded and we have to use an auxilliary engine brought down from the school.

I think this covers all the important points that should be treated in this report.

Yours sincerely,

W. Byrne-Grant m!

EX'D.

Dear Sir,

Herewith I beg to submit the report of the Lejac Indian Residential School for the ~~year~~ year ending March 31st. 1937

Staff. Since the last quarterly report there have been a few a few changes in the personnel of the Administration. A new Principal, Rev. Father W. Byrne-Grant, O.M.I. and a vice-Principal, Rev. Father J. Murphy, O.M.I. have been appointed. Mr. P. Corcoran, who has had along experience as supervisor of the boys, has been re-appointed for this work and I am glad to say that under the supervision of Rev. Father Murphy and Mr. Corcoran the discipline in the school is very good indeed.

Health. We have much to be thankful for on this point. In spite of the various epidemics that have swept other parts of the country and other schools, we have been fortunate enough to escape and during the last three months the health of the children has been excellent. We have, of course, the unpleasant duty of recording in this report the death of the four children on the 1st. January. As I took over the duties of Principal after this accident occurred and as the Department has received from other sources a full report of the accident, I shall content myself with saying that we shall do all in our power to prevent the conditions which, according to some, made such an accident possible.

School morale. In spite of the accident I think I can truly say that the children are as happy and as well disposed as any group of children ~~under~~ living in a residential school. During the last quarter there has been no attempt on the part of any of the children to run away. A skating rink constructed near the school itself and ideal weather for ski-ing and tobogganing has helped to keep them all in good humor. I may say that I have been agreeably surprised on this point and have found conditions far different to what I had expected.

Class-rooms. The report of the school Inspector, who visited the school in January is the best testimony we could have of the good work being done by the Sisters. Mr. Barry expressed himself as very satisfied with ~~the~~ the standing of the children and with the work done in the class-rooms.

Manual training. A few changes in this department have taken place during the last quarter. We have gone back to the system of having the boys ~~do~~ do the milking both morning and night. They seem very interested in this work and in everything connected with the dairy cows and horses. I believe that the school is doing a very good work along these lines and is preparing the boys for the not far distant time when the boys will have to take up farming more than they have done in the past. Another change has transferred to the girls the work of making butter. This was done in the past by women engaged for this purpose. We have found that under the supervision of the Sisters, the girls are making the butter just as well and more economically than under the other system. During the past three months, the problems arising from our severe winters have kept the boys busy. From now on they will be occupied with all the details of farm work.

We were very fortunate in having an abundant crop of hay last year and we are finishing the winter with a good supply on hand. The late fall with six weeks of extra grazing helped to reduce consumption.

We have been less fortunate with our live-stock. Sickness and injury have deprived us of two valuable horses and a pure-bred Holstein bull. To replace the former we have recently purchased two Clydesdale mares and to improve the dairy herd, we have bought from Tranquille Farm and from the Indian Residential School at Mission, eight pure-bred heifers and one bull. The horses and dairy cows will cost us about \$800.00. We now have a good dairy herd and I shall be greatly disappointed if we do not have some cows with very high milk records. The boys working in the barn are deeply interested in the daily record of the cows they milk.

We are planning to make some experiments with commercial fertilizers this year. We are going to have the advantage of expert advice from the Superintendent of the experimental farm at Agassiz. If these plans work out, we shall be able to set aside more land for pasture. This is our most serious problem..... our lack of pasture. The problem will not be solved permanently until we obtain more land.

We are planning to follow the advice of the Dominion Experimental farm and are making a start this year to produce our own certified seed potatoes. We are hoping to have increased production on a smaller acreage and every step in our experiments will be explained to the older boys.

In closing I would like to express my appreciation ~~to the~~ for the co-operation and kindness of the Indian Agent, Mr. R. H. Moore, who has shown a great interest in all the problems of the school. We would also like to thank Major MacKay, the Indian Commissioner, whose visit to the school this spring was very much appreciated.

Respectfully submitted.

**CONFIDENTIAL**

Dear Sir,

On February 18th. I received the following telegraphic communication, "Understand there is local feeling over tragedy whereby four Indian boys perished at Le Jac School New Years Day. Please investigate fully as soon as possible", signed Harold W. McGill.

Pursuant to these instructions I left Victoria on February 22nd. and, after dealing with certain departmental matters in Vancouver, proceeded by way of the P.G.E. Railway, to Quesnel and thence by motor car to Prince George, Vanderhoof and Le Jac. According to pre-arrangement Indian Agent Moore met me at Prince George and on Sunday, February 28th., we journeyed together to Vanderhoof where the agency headquarters are located.

As this was my first trip to the Stuart Lake Agency I spent the following day with Mr. Moore discussing agency matters in general and also called on Provincial Constable Jennings, Provincial Game Warden Brown and Road Foreman Parks, of whom I asked certain questions in connection with the main purpose of my visit to the district. About noon on March 2nd. accompanied by Mr. Moore and Mr. Lacey, Agency Clerk, I arrived at Le Jac Indian Residential School, having been somewhat delayed enroute from Vanderhoof owing to the heavy snows which had drifted to considerable depths along parts of the road. The Principal, Rev. Father Bryne-Grant, O.M.I., met us at the entrance to the school and extended a kindly welcome. ation he had received to my knowledge, he proceeded to make arrangements for setting aside the necessary accommodation for our requirements.

The Le Jac Indian Residential School is an imposing brick structure of pleasing design standing on a gentle northerly slope and a few hundred feet southerly from the mid-south shore line of Fraser Lake, a clear view of a large part of which can be obtained from the school premises. The bricks used in the construction of the school were made on the ground from the soil of the Reserve property. The right-of-way of the Canadian National Railways passes through the school grounds approximately midway between the school itself and the aforementioned shore line, while the main highway, easterly to Vanderhoof and westerly to the community of Fraser Lake, passes a few hundred yards higher up the slope to the south of the school. Much of the acreage of the school property is under cultivation, the returns from which I understand are quite satisfactory; the water supply is abundant and of good quality.

The location of this school is a suitable one from the point of view of centrality, transportation facilities and soil and water advantages, and indicates much careful thought and study on the part of those responsible for the choice of the premises for this institution.

The purport of your telegram could be taken to indicate that the investigation should be confined to ascertaining the extent of the local feeling existing as a result of the tragedy whereby four pupils of the Le Jac School perished, but after careful thought, I decided to place a broader interpretation on

your instructions and proceed along lines which would, if possible, amplify the evidence already before the Department and more definitely determine the underlying causes which led up to the loss of the four children.

Before opening the investigation I had a short talk with the Rev. Principal when I informed him that I wished to call separately, certain members of his staff for examination and, principally those who were members of the staff prior to his arrival and assumption of the principalship. After consulting with the Sister Superior, Father Grant consented to this procedure but requested, on behalf of the Sister Superior, that she be permitted to be present when the Sisters were being questioned, to this I agreed.

I was surprised and disappointed on opening the inquiry to find that Bishop Coudert together with Father McGrath, Acting Principal at the time of the tragedy, and Disciplinarian Donze were not available for examination. Bishop Coudert was on a visit to the reserves in the western part of the agency, Father McGrath had gone to Baker City, Washington, immediately after the arrival of Father Bryne-Grant at Le Jac on January 7th. and Disciplinarian Donze was in the Hazelton area on missionary work to which he had been transferred early in January. It will be recalled that Father McGrath and Disciplinarian Donze gave evidence before the Coroner's jury at Fraser Lake on January 4th. but Bishop Coudert was in the western part of his diocese at this time and was not available to give evidence. The witnesses examined by me were, Provincial Constable Jennings of Vanderhoof, Indian Harry Paul, Indian Sylvester Patrick, Indian Charley

Charley, Indian Louie George, Indian (Mrs) Sylvester Patrick, Rev. Mr. Dobson, United Church Minister, Fort Fraser; Sister Superior Josephine, Sister Noella, Sister Cecile, Father Marsigny, Patrick Joseph Corcoran, Brother Anderson, Dr. C. Pitts, Fraser Lake, Paul Alex (Indian Boy), and Rev. Father Bryne-Grant O.M.I.

The evidence discloses that five boys, Allen Patrick aged 9, Andrew H. Paul aged 8, Justa Maurice aged 8, John Michel Jack aged 7 and Paul Alex aged 10 left the school without permission on the afternoon of January 1st., between 4.30 and 5 o'clock. Earlier in the day Bishop Coudert, who was in charge during the absence of Acting Principal McGrath had refused permission to these boys to visit Nautley Indian Village because of their age and the sub zero weather conditions. Father Donze before the Coroner's jury inquiring into the tragedy, stated he saw the boys at 4 P.M. on January 1st., and it is therefore safe to assume the children waited for their afternoon lunch, which on this particular day was not served until 4.30 P.M., before they left the school.

The children were not in their places for the evening meal at 6 o'clock and their absence was noticed and reported to the Sister Superior immediately by Sister Noella who was in charge of the diningroom at the time. The Sister Superior communicated this information to Father Marsigny who, is reported to have stated in reply, "I know they are missing, they asked and obtained permission from the Bishop to go"; Father Marsigny disclosed in his evidence that the latter part of this statement was based on supposition and he also gave the time when he

was first informed of the children's absence as 6 P.M. It is important here to note that although Father McGrath, the Acting Principal had returned to the school about 5 P.M. and was known to be in the school, and was therefore actually in charge, no attempt was made to inform him of the children's absence and, in this, is quite definitely indicated that lack of cooperation in the administration of the school which can be accepted as one of the contributing causes of the tragedy.

On leaving the school the five children went straight down to the railway tracks which they followed easterly for about one mile to a point where the shore line of Fraser Lake breaks in close to the railway right-of-way, here four of the children decided to strike across the lake in the direction of the Village, the fifth, Paul Alex eldest of the group, not wishing to go on the lake nor continue the journey along the tracks alone, decided to return to the school where he arrived before the close of the evening meal. The course on the lake followed by the four boys was fairly direct up until they encountered open water at the outlet of Fraser Lake, a distance of about 5 miles, this open water the children attempted to ford but finding the depth too great were compelled to crawl back on the solid ice. To turn back when so close to the north shore of the lake within sight of the Village and safety, must have been tremendously disappointing and sorely discouraging to already greatly fatigued children and the added discomfort of wet and freezing clothing aggravated a situation which had become desperate. Resuming the journey from the open water in a south easterly direction, the children with great difficulty

reached a point on the lake approximately one quarter of a mile from Beaumonts Beach. The snow at this point was found to have been trampled over a small area and in places brushed aside by the children indicating they were nearing the point of exhaustion and unable to go on, wanted to rest; it was here they collapsed and died and their frozen bodies were found by Indian Charley Charley at 5.30 P.M. on January 2nd. The total distance covered by the children would be approximately eight miles and the time taken to reach the spot where their bodies were found is estimated at seven hours; on this basis it is concluded the children perished at midnight on January 1st. or there-after, or between seven and eight hours after they left the school.

The delay in informing Acting Principal McGrath of the absence without permission of the children was a very serious and costly omission, quite inexcusable and cannot be explained away by weak assumptions nor a shifting of responsibility; this should not have occurred, nor would have occurred, where administrative authority and responsibility were known, definitely fixed, appreciated and recognized. It is not too much to say that Father McGrath as Acting Principal had been dissatisfied for sometime prior to the tragedy, he gave evidence of this at the coroner's inquest, he did not know the extent of his authority as Acting Principal, nor the scope of his responsibilities as such, nor had he been informed what these were. Father McGrath's position was uncertain and the situation was complicated when he became Acting Principal by the addition to

the staff, much against his wishes, of two French Disciplinarians neither of whom had any knowledge of the English language; scholarly and well meaning young men, no doubt, but quite unsuited for the responsible positions in which they were placed. As Father McGrath could not speak French, the Disciplinarians became inclined to consult Bishop Coudert on matters within the jurisdiction of the Acting Principal, this no doubt had a tendency to weaken Father McGrath's administrative control of the staff and school with results which could not have been satisfactory to him. The evidence definitely indicates a lack of that cooperation between the Acting Principal and the subordinate staff most essential to the successful administrative management of an Institution such as an Indian Residential School and, it is hardly necessary to look beyond this, for the foundational cause that led up to the loss of the four children.

I consider the main reasons given for not organizing a search party between 6 P.M. and 9.15 P.M. on the night of January 1st., as weak and unsupported by reliable evidence. It was definitely established that only a few Indians visited the school on New Year's Day, most, if not all of whom, started for their homes prior to 4.30 P.M., the time when the five boys are supposed to have left the school. I am of the opinion from the evidence and information before me, had energetic action been taken to organize a search party when the absence of the children was first noticed and reported, the children would not have perished.

Father McGrath was well liked by the school children and highly regarded by their parents. There was no evidence to

show that punishment of any kind had anything whatever to do with the boys leaving the school without permission. It was simply a natural desire for freedom and to be with their parents during the holidays. Nor did I find any justification for the statements and rumors regarding unwholesome food being supplied to the children, I questioned both parents and pupils closely on this point and, with the exception of Mrs. Sylvester Patrick mother of one of the dead children, whose evidence should be largely discounted because of her mental and physical condition, all spoke well of the quality and quantity of the food supply. In view of these facts it is clear that any attempt to picture Father McGrath as heartless, severe and generally disliked by the children or their parents cannot be sustained by the evidence.

I visited a number of Indian homes and discussed the tragedy with nearly all the adult Indians I met and although I found indications of unrest and resentment this was mostly confined to the relatives and friends of the dead children. There was no demand among the Indians or the residents of the white communities visited for a judicial inquiry, nor do I think such an inquiry at this time would be in the best interests of the Indians.

My investigations lead me to the conclusion that the Department should take steps to strengthen its administrative control of our Indian Residential Schools through the full use of the privilege which it reserves of approving the more important appointments to the staffs of these schools.

LEJAC, B.C.

EXT.

Nov. 24, 1937

*Mr. Philip Phelan  
Department of Indian Affairs,  
Ottawa, Ont.*

Dear Mr. Phelan:

I am trying to recall whether I wrote to you last February or March concerning some work which I had ordered to be done in the school at that time. You will perhaps recall that I took charge of the school on Jan. 7, 1937 and one of the things that struck me most forcibly and most disagreeably was the fact that the Indians both men and women were using the lavatory facilities in the part of the house reserved for the principal and visiting officials. I still smile when I recall my consternation, the morning after my arrival to find an old Indian squaw using the wash basin the I had come to use.

I knew nothing about school regulations but I decided at once that the system in vogue was neither suited to the usual secluded life of the clergy or to the ordinary prudence suggested by the habits of the Indians themselves. I therefore sent for a plumber and had him install a toilet on the second floor near the Fathers recreation room and wash basin with hot and cold water in three of the rooms.

It was only afterwards that I learned that it was customary to obtain the authorization of the Department before putting improvements of this kind.

The total cost of these improvements including fixtures and labor comes to about \$200.

I would like very much to have the Department pay these bills but I thought it better before making formal application to consult you privately, first, as to the advisability of making the request and, secondly, as to the best means of doing this without incurring the danger of a refusal.

I was pleased to hear that the report of the school Inspector, Capt. Barry, was very favourable and that the Department is pleased with the condition of the school.

Probably the same mail that brings this letter to you will bring also a letter to the Department from the Indian Agent at Vanderhoof submitting for the approval of the Department regulations concerning the visits of Indians to the school. After my experience during the last ten months I feel sure that these regulations are needed in order to prevent any recurrence of the conditions which made last years tragedy possible. Should these regulations come to you for action I would be glad if you would give them very favourable consideration.

The formal approval of the Department is really necessary for the success of these regulations. The Indians are under the impression that the school belongs to them and that the principal has no right to interfere with their coming and going and the very fact that these regulations would seem to come from the principal alone would convince them that they are based on the personal opinion and wishes of the principal himself rather than on any definite policy laid down by the Department, ~~itself~~.

The Commissioner and the Inspector of Schools have impressed upon me again and again that the Department holds responsible for anything that may occur at the school. I can see that this is quite reasonable but I feel also that the Department should be willing to assume responsibility for regulations considered absolutely necessary for the safe-guarding of the welfare of the children.

I have sometimes felt that there is a reluctance on the part of some of the officials of the Department to assume their share of responsibility in matters of this kind for fear that it might impair their popularity or friendly relations with the Indians with whom they are in constant contact. There is perhaps a tendency to "pass the buck" and to leave to the principal the odium of disagreeable decisions.

That is why in this particular case ~~I am~~ I am anxious to have the Department give something more than their moral support to these regulations.

The Indians are fond of threatening to write to the Department when they think that they are treated too sternly and it would be just as well to forestall letters of this kind by giving official approval to the regulations.

I do not suppose for one moment that another tragedy will occur but I certainly would like to show both to the Indians and to the general public ( who I am told have their eye on Lejac School ) that there is complete co-operation between the Department and the local officials.

If you have anything to do with the budgets of the different Indian schools you will no doubt smile at our famous "( Hardy annuals)"; root cellar and pig pen. They appear again this year and I am wondering if there is any possibility or rather if there is anything we could do to impress upon the Department the real need that we have for these two buildings.

You will be pleased to hear that in spite of the accident and the fact that there were epidemics of measles and whooping cough which necessitated the postponement of the opening of the school, the attendance is now up to 146, fourteen less than our quota. No doubt a few more will come during the Christmas holidays.

The health of the children is very good and they all seem happy and content. Major McKay was struck by this last point on the occasion of a flying visit which he made to us last week.

Yours very sincerely,

STUART LAKE AGENCY INSPECTION REPORT NO. 16.

SCHOOLS

Fraser Lake.

I inspected the Residential school at LeJac,

In view of the regrettable deaths of some of the boys last winter here, I had a long, confidential talk with the Principal, chiefly upon the matter of divided authority, on account of the residence there of a Bishop, for so long a time. I am pleased to report that he informed me that the Bishop is shortly leaving there to take up his residence elsewhere.

The Principal informed me that most of the children were two weeks late in returning to school after the summer holidays. This was owing to measles, and the doctor's advice of delay. This, of course, occurred at the last minute, and in the meanwhile the school was carrying a full staff. As this expense was no fault of the school authorities, I should recommend that one half the numbers of the children at the school be allowed to be carried on the list as though they were there for those two weeks.

Central B. C. Indian School  
Does Valuable Work at Lejac

THE Indian Residential School at Lejac is rapidly becoming one of the leading agricultural institutions in the province.

Located on the south shore of beautiful Fraser Lake and nestled in the foothills it has ideal scenic surroundings for academic and practical training.

The school site was located by happy accident in 1912 when Reverend Father Cocola, in company with Indian guides, were canoeing on the lake visiting Indian settlements.

A high wind caused the lake to become rough and the canoe took water. The crew pulled to shore to dump the canoe and it was then Father Cocola discovered the possibilities of establishing a school in these ideal agricultural and scenic surroundings.

Following his discovery and recommendation there were many years of agitation and exchange of letters, until the beautiful buildings were constructed and the school opened in 1922.

Rev. Father J. Allard was principal for the first year, followed by Rev. Father Cocola, who looked after the institution for ten years. Rev. Father Rivet was principal from 1933 to 1936 and the present incumbent is Rev. Father Wm. Byrne Grant. Each of the principals left his mark in beautifying and developing the school farm.

**GROW ALFALFA.**

There are approximately 225 acres of land of which 155 are now under cultivation. Fifty-five acres are seeded to alfalfa. This crop has produced heavily even on fields seeded down for eight years. Thirty acres were in wheat this season, and the balance of cultivated land in oats and peas for green feed, potatoes, garden and hay land. Four

hundred and eighty acres of additional land has been rented for pasture and cereal grains.

The school has an average attendance of 160 pupils. These come from Shelley, Hazelton, Cheslatta, Takla and Trembleur Lake districts and from reserves within the circle of which the above points are most distant.

The school's dairy herd comprises twenty-six head of Holstein cattle. Many are registered and are enrolled in the local cow-testing association. Five registered Holstein cows and heifers were recently purchased from the Tranquille Sanatorium Farm. The herd sire, Agassiz Re-Echo Rajah, by Agassiz Tsussie Rajah, was added to the herd this season. A beef herd will be started shortly to furnish the meat requirements of the school.

Special attention is being paid to the raising of poultry. Five hundred and fifty White Leghorn pullets and 160 Barred Rocks from specially-selected stock were purchased early this year. Two modern poultry houses erected, fitted with running water, electric lights, and Dutch ovens, were constructed in case the winter proves severe.

Every phase of agricultural activity is emphasized in order that the children on leaving school may be equipped to produce all necessary foods for table use. The girls are instructed in home cooking and preserving, sewing and butter making. The boys take their turns at the regular farm work in addition to their regular academic subjects and manual training.

The dairy herd comprises twenty-six head of Holstein cattle. Many are registered and are enrolled in the local Cow Testing Association. Five excellent registered Holstein cows and heifers were recently purchased from the Tranquille San-

atorium Farm. The herd sire Agassiz Re-Echo Rajah by Agassiz Tsussie Rajah was added to the herd this season. This bull's dam Agassiz Old Pietje Re-Echo has a record of 17,241 pounds of milk and 662 pounds of butter fat on twice-a-day milking. A beef herd has been started this fall to furnish the meat requirements of the school. A couple of carloads of Hereford heifers from the drought areas of the Prairies are now on feed at Lejac.

Special attention is being paid to the raising of poultry. Five hundred and fifty White Leghorn pullets and one hundred and sixty Barred Rocks from specially selected stock were purchased early last year. Two modern poultry houses were erected, fitted with running water, electric lights, and Dutch ovens were constructed in case the winter proves severe.

Thirty-three head of commercial sheep have been introduced this season. This flock is to be enlarged as accommodation is prepared. Four brood sows of Yorkshire breeding are maintained to take care of the pork requirements of the Institution.

A complete line of farm machinery is on hand and includes a threshing outfit, and modern haying equipment. Every attempt is being made to make the school as self-sustaining as possible and at the same time to give the students a practical knowledge of the best agricultural practices.

# British Columbia Indian School Has Fine Location

THE INDIAN Residential School at Lejac is rapidly becoming one of the leading agricultural institutions in British Columbia. Located on the south shore of beautiful Fraser Lake and nestled in the foothills of the Interior it provides ideal scenic surroundings for academic and practical training.

The School site was located by happy accident in 1912 when Reverend Father Cocola in company with Indian guides were canoeing on the Lake visiting Indian settlements. A high wind caused the Lake to become rough and the party were forced to ashore. It was then that the idea came to Father Cocola of establishing a school in these ideal agricultural and scenic surroundings. Following his discovery and recommendation there were many years of agitation and exchange of letters, until the beautiful buildings were constructed and the school opened in 1922. Reverend Father J. Allard was principal for the first year, followed by Reverend Father Cocola who looked after the Institution for ten years. Rev. Father Rivet was principal from 1933 to 1936 and the present incumbent is Rev. Father Wm. Byrne-Grant.

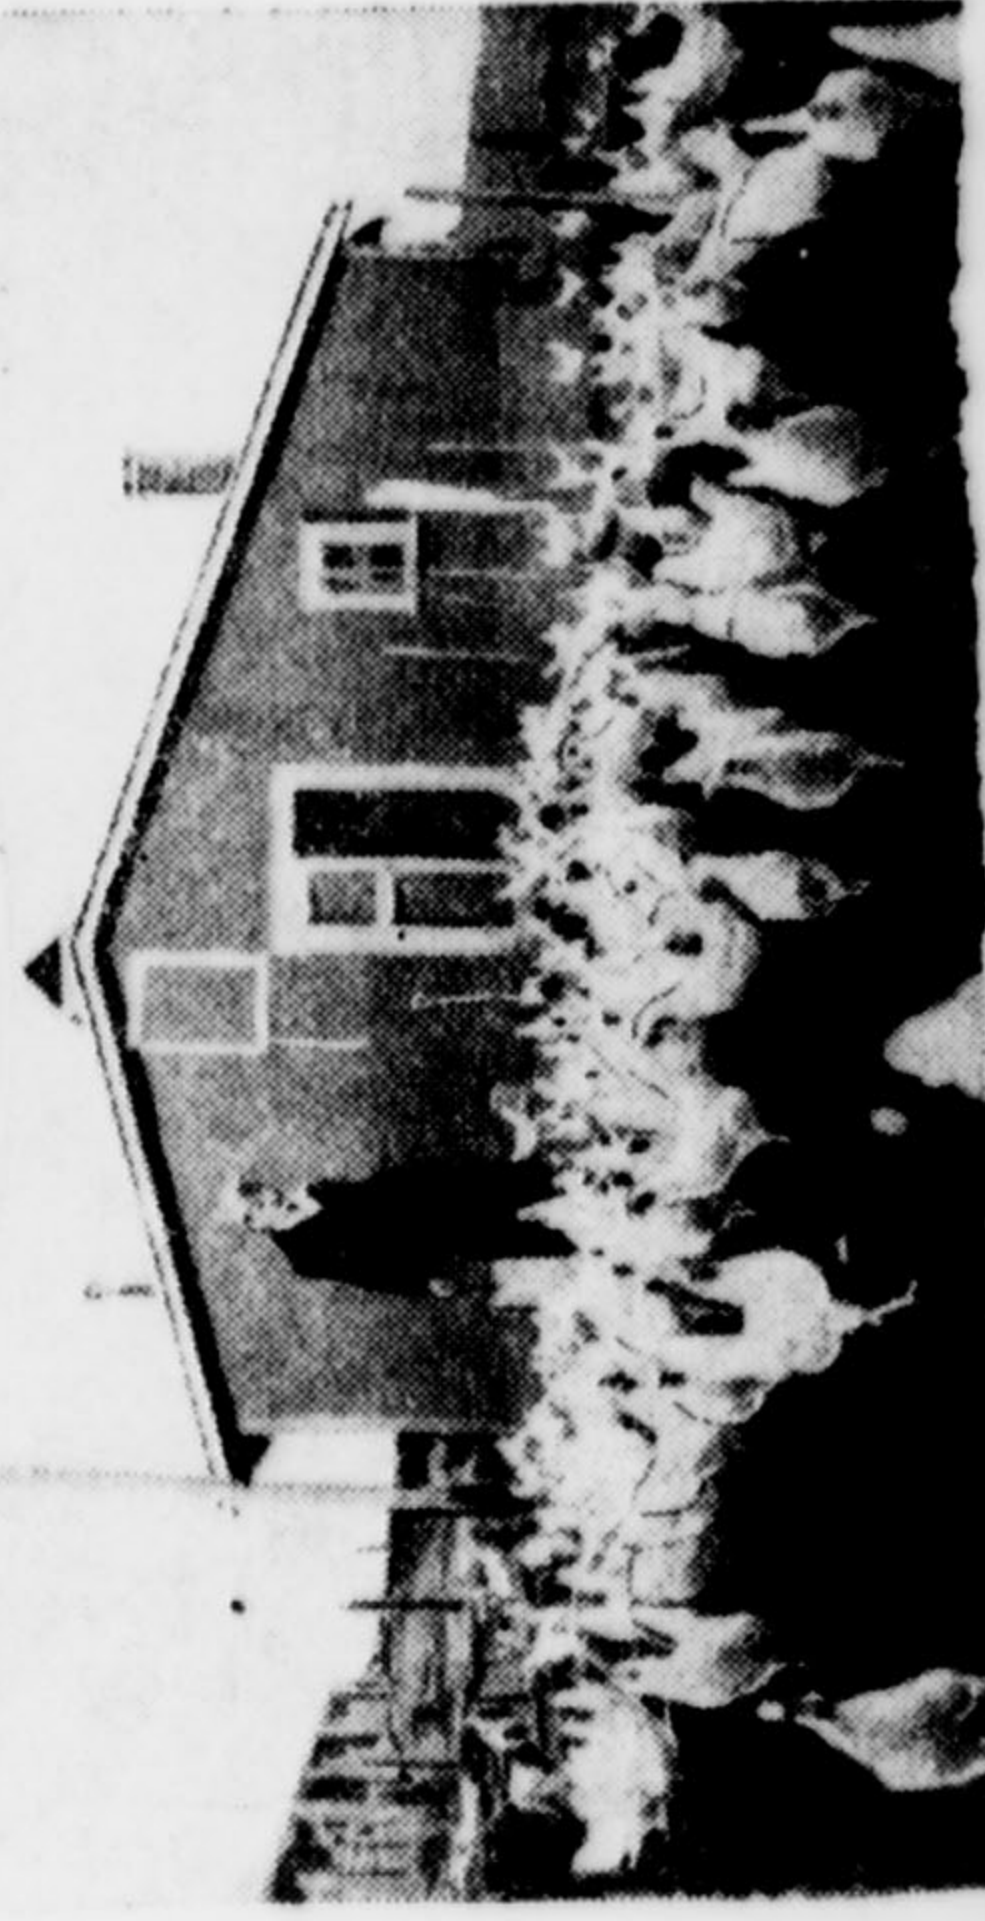

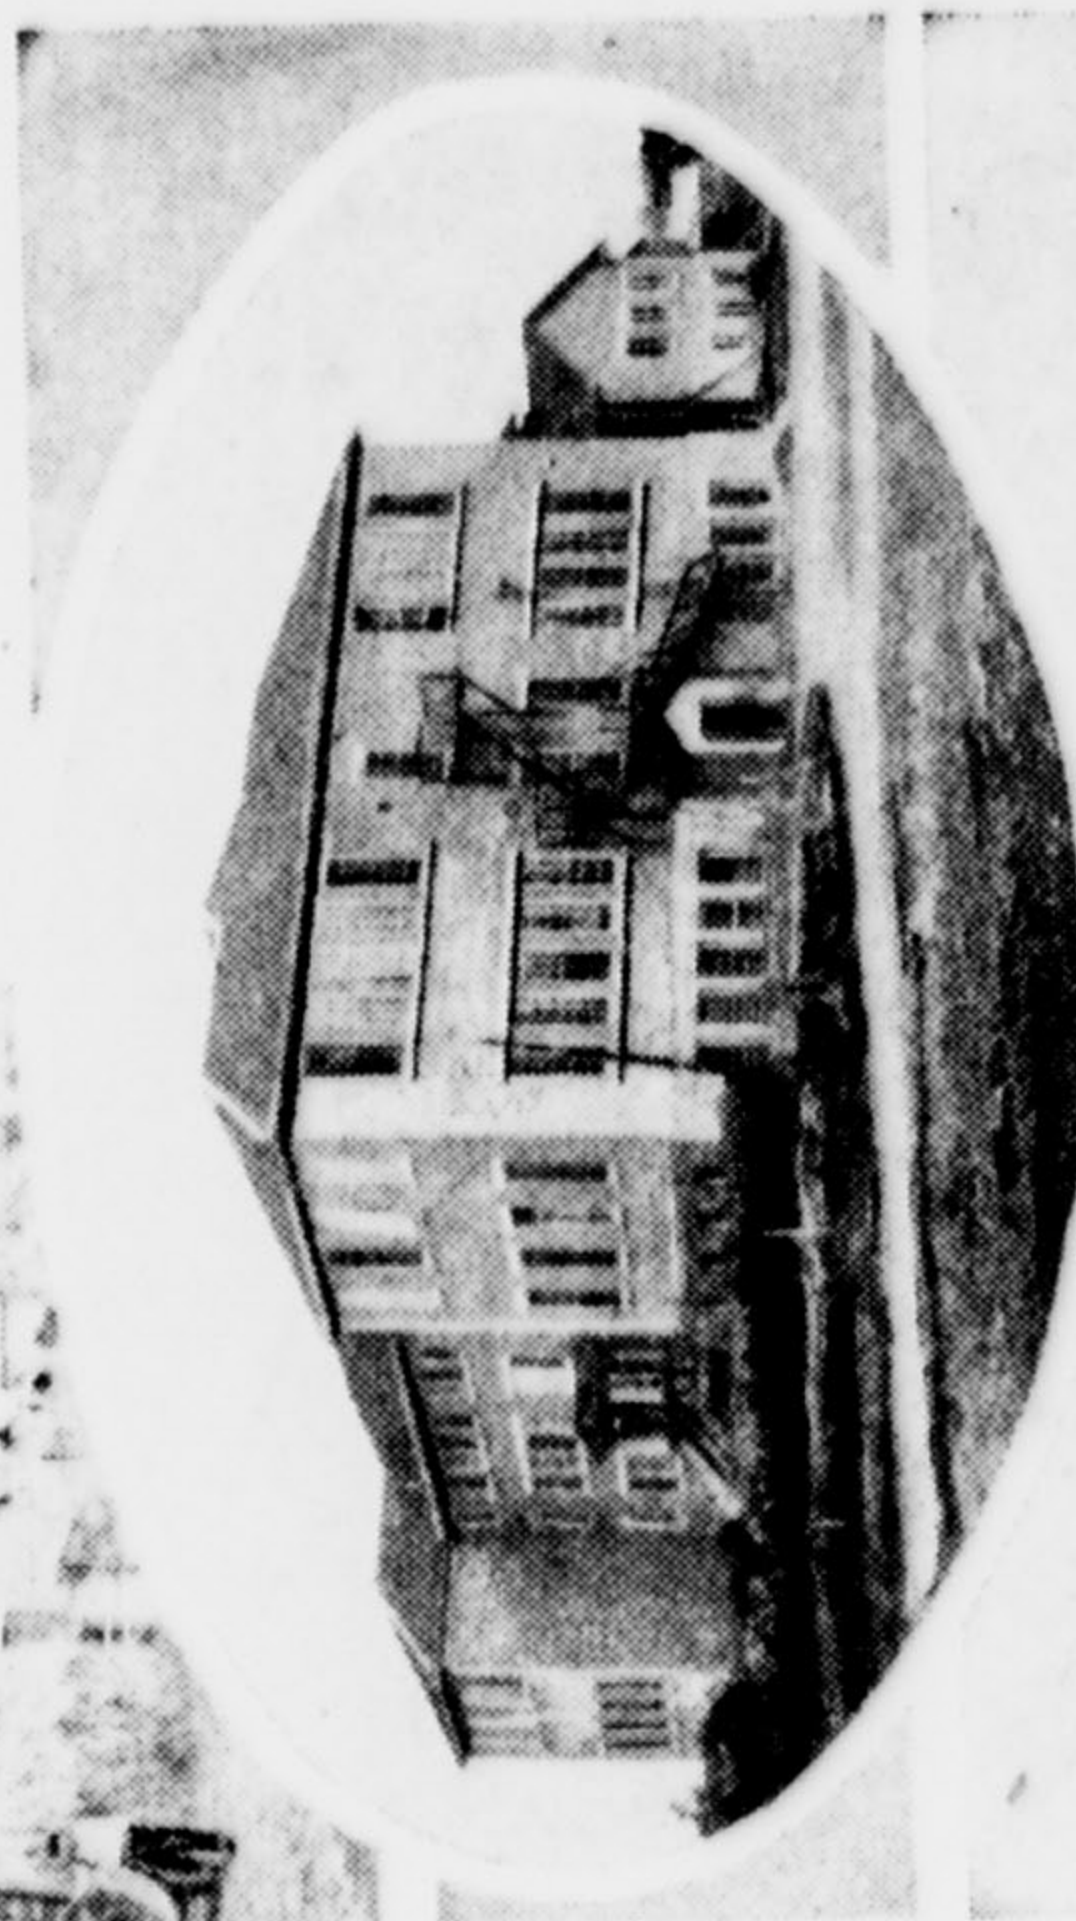

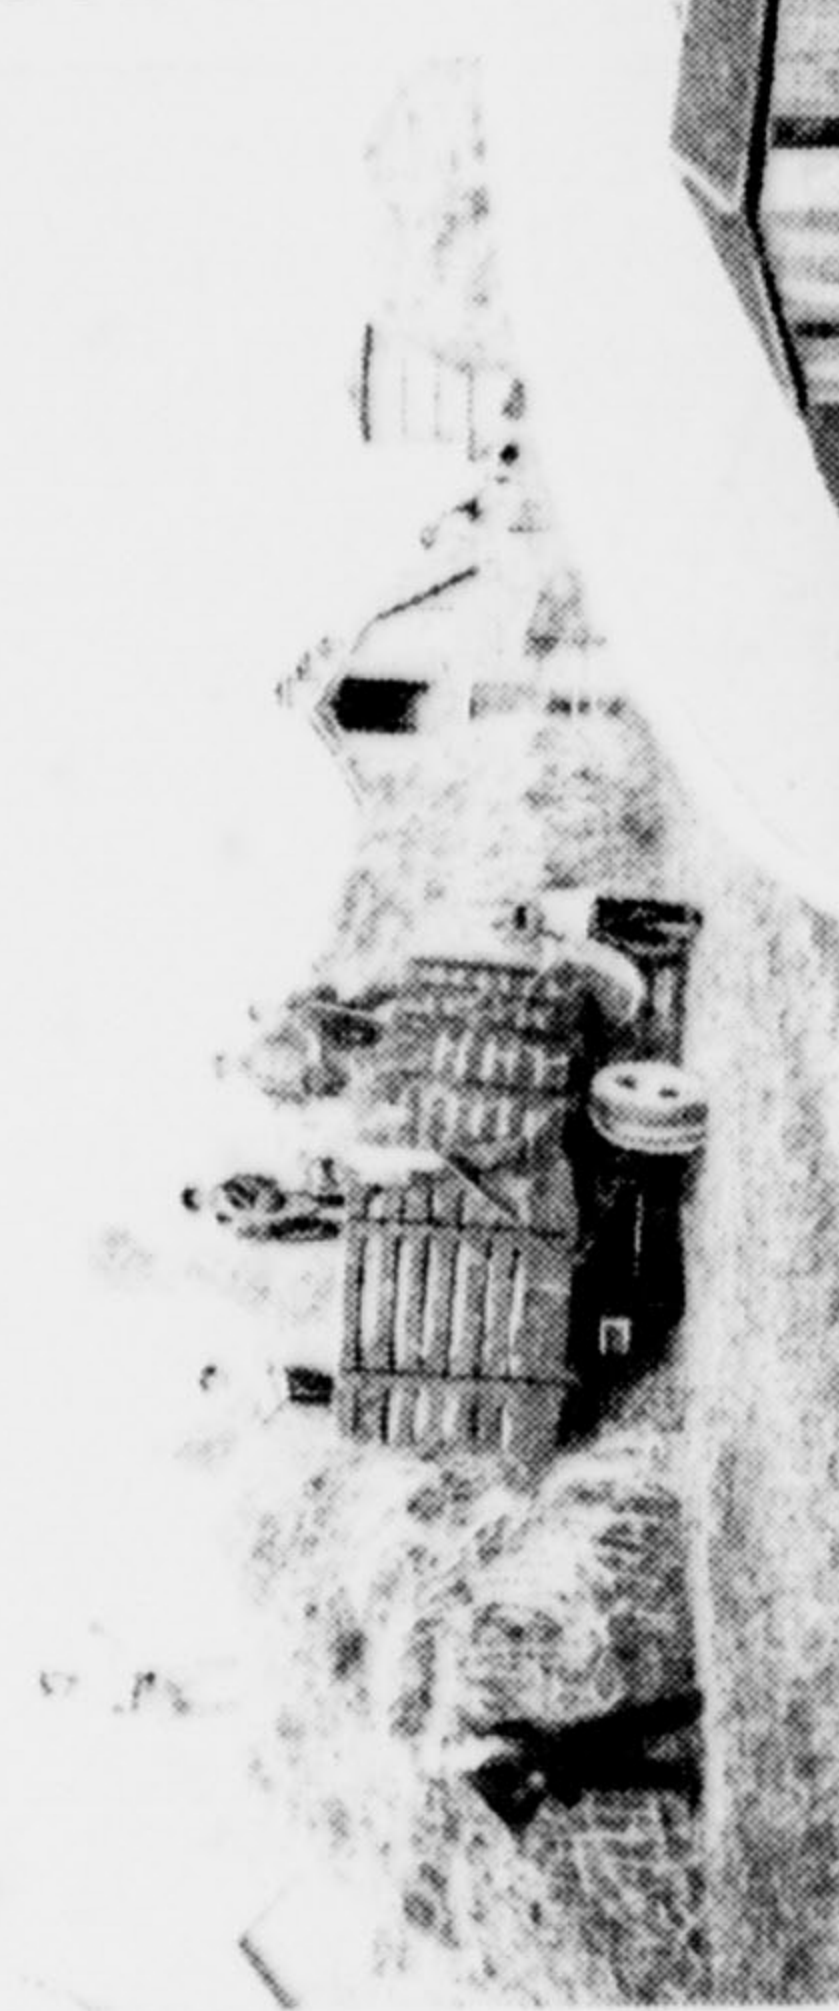

There are approximately 225 acres of land of which 155 are now under cultivation. Fifty-five acres are seeded to alfalfa. This crop has produced heavily even of fields seeded down for eight years. Thirty acres were in wheat this season, and the balance of cultivated land in oats and peas for green feed, potatoes, garden, and some additional land has been rented for pasture and cereal grains.

The school has an average attendance of 160 pupils. These come from Shelley, Hazelton, Cheslatta, Takla, and Trembleur Lake districts and from reserves that are within the circle of which the above points are most distant.

Every phase of agricultural activity is emphasized in order that the children on leaving school may be equipped to produce all necessary foods for table use. The girls are instructed in home cooking and preserving, sewing and butter making. The boys take their turns at the regular farm work in addition to their regular academic subjects and manual training.

EX'D.

R E P O R T  
for Quarter ending September the 30th  
1938

OCT 17 1938

RECORDS

ATTENDANCE

The attendance at the school for the first quarter is higher than usual for this time of the year. There are still about 25 children who should be here, but if they were all to come, we would not have room for them.

BEGINNERS

The number of new-comers is very satisfactory and is greater than the number who are being discharged after having reached the age-limit.

MORALE

While there are naturally some of the younger children who are home-sick and are having the usual difficulty in adjusting themselves to their new life, the children seem to have settled down very quickly to the routine of school life and we have not yet had any trouble about run-aways.

RUN-AWAYS

During the past two years we have had no trouble on this score. On one occasion two small boys managed to get about a mile from the school before being picked up, but there have been no other cases since then. Apparently, run-aways occur in cycles and of course we cannot be sure when they may start again.

CONDUCT and DISCIPLINE

The conduct and discipline of the children is very satisfactory. Those in charge of the children during recreation have good control and we anticipate very little trouble in this respect. Occasional use of the strap has to be made but in doing this care is taken to use only the methods approved by the Provincial regulations.

MANUAL TRAINING

In accordance with the wishes of the Dept., we are doing all we can to develop this branch of our work.

Girls

As far as the girls are concerned there is not very much more that can be done. They already are taught all the branches of domestic science and this year we are going to concentrate on the handling of wool: right from the sheep's back to the various finished articles: sweaters, blankets, mattresses, socks, gloves, etc.

Boys

We have been giving serious thoughts to the best of means of developing rapidly the program of manual training for the boys. The opportunities available at the school are sufficient in one sense. The farm itself provides the means of practical lessons in dairying and in the care of beef cattle, sheep, hogs, poultry and rabbits, while members of the staff have the necessary knowledge and equipment to give elementary training in carpentry, shoe-making and black-smithing.

Our difficulty is to find the necessary time for the routine "chores", the class-room work and the various branches of manual training we wish to develop. I hope to send to the Dept. a special memorandum on this subject in the very near future.

#### HEALTH

The health of the children is much better than at this time last year. The medical officer, Dr Irish, has completed a thorough examination of all the children. We are expecting a visit of Dr Wahl in the very near future to help us in the work of checking thracoma. Dr McQuarri was here about two weeks ago and we discussed the possibility of establishing a Preventorium here. We hope to have the school thoroughly examined by the Provincial T.B. traveling clinic. and when we have a complete report, Mr R.H. Moore, the Indian Agent will study the whole question with me.

#### CROPS

One of the driest years in the history of the country reduced our crops considerably. In fact, we have harvested less than half a crop of hay and cereals. The potato crop, which at first looked like a complete failure, now promises to be better than a half crop, thanks to some late rains.

#### LIVE STOCK

We are gradually developing this branch of our farm work and thus we are combining the advantage of producing our own food and the means of increasing the opportunities of practical farm instruction for the boys.

At present, we have :-

- 22 Holstein cows & heifers and one bull
- 75 head of beef cattle and one bull
- 10 sows and a boar
- 1000 laying hens and a few geese and turkeys
- 8 horses
- 40 head of sheep
- 12 angora and heavy breed rabbits

#### IMPROVEMENTS

The new cellar (48 by 48) attached to the school building has been completed outside and the floor covered with 6 inches of gravel.

About one mile of new fencing has been built.

Owing to some misunderstanding, the building of the new piggery was delayed but work is being started immediately.

An eight foot fence, 300 feet long is being built on two sides of the boys play ground to protect them from the cold winds from the lake.

LEJAC RESIDENTIAL SCHOOL QUARTERLY REPORT

Mr. R. H. Moore,  
Indian Agent,  
Vanderhoof, B.C.

Dear Mr. Moore:-

I beg to submit the quarterly report for the quarter ending March 31st, 1938.

ATTENDANCE

At the end of the quarter the attendance was 157 (91 girls and 66 boys). This is ten more than the attendance for the previous quarter. If it were not for the fact that four girls were sent home for reasons of health we would have had a full attendance.

HEALTH

The medical officer, Dr. Poole, tells me that in general he is well satisfied with the health of the children. There have been no epidemics of any kind and the whooping-cough and German measles have disappeared completely. Four girls were sent home on account of pulmonary T. B. With regard to T. B. in the school the Doctor tells me that the cases mentioned above would have been diagnosed earlier if X-ray facilities had existed. It would be impossible to give a definite opinion about the prevalence of T. B. among the children without X-ray examination. We had one case of a boy who had been refused admittance several times on the ground of T. B. but when he was sent to Burns Lake for examination the X-ray showed no evidence of T. B.

Trachoma

With regard to the prevalence of Trachoma among the children Dr. Poole tells me that he has had no previous experience with this disease. He has examined all the pupils and finds that besides the known cases from the list given by Dr. Pitts (the previous medical officer) he has found that practically all the children are suspicious. Most of them have only the slight violet dis-colouration, which is the first sign. These cases are being treated as trachoma. The Doctor does not think that these are new cases which has developed in the past six months. Apparently the children had not been examined for trachoma during the past two years though treatment had been given to the known cases. Dr. Poole is very anxious to have a visit from Dr. Wahl as soon as possible so that he will have some definite guidance from a specialist.

MORALE

The spirit among the children is excellent. The facilities for winter sports provided for them at the beginning of the season have kept them busy and they all seem quite happy and contented.

DISCIPLINE

The discipline of the children is excellent. No unruly characters have developed since the beginning of the year and we have every reason to be pleased with the conduct of the children.

Cont. "2"

There have been no attempts to run away and while every precaution is being taken there does not seem to be any tendency on the part of the children to leave the school. The skating rink and the other winter sports have helped a great deal to make the work of the supervisors easy.

#### MANUAL TRAINING

The bigger boys have been kept busy not only in helping with the farm work but also have worked with the carpenter so that they have been able to learn something about repairing buildings and have been able to do a great deal of rough carpentry. The winter has been comparatively mild and they have been able to work outside much more than in previous winters.

#### DOMESTIC TRAINING

The girls are continuing the usual programme of training in all branches of work for which they are especially adapted. There is no doubt that every girl leaving the school is well able to undertake all the household duties such as cooking, sewing, washing and ironing.

#### HANDICRAFTS

The Exhibition of Indian Handicrafts at Vancouver has given us an opportunity to see just what can be done at the school. We find that the children have not learnt very much from their parents along these lines and if handicrafts are to be developed we shall have to count more on the training given at the school than on anything the children may learn from their parents. As I said in my last report these things cannot be done at once and we are therefore planning a programme which will take some time to develop.

#### FARM OPERATIONS

While the winter has been comparatively mild it has been just as long as usual and during the past quarter the outside work has consisted entirely of looking after the stock. The boys have their regular duties and those who enjoy this kind of work have an opportunity of learning all about the proper care of horses, dairy cows, beef cattle, pigs and poultry. Most of them seem to like this kind of work and would much rather be working among the animals than attending class. They even willingly give up their recreation if their help is especially needed.

#### POULTRY

We are well satisfied with the poultry experiment and while production is not as high now after our long winter the total production for the winter months has been very good indeed. We feel that it will be worth while developing the poultry branch of our activities as we find that it is possible to provide plenty of fresh eggs at very little cost.

PIG PEN

We would like to express our appreciation to the Department for having decided to replace the pig pen which was burnt down three years ago. Operations will begin as soon as weather permits and before next fall we hope to have the building completed and ten Purebred Yorkshire sows installed in their new home.

ROOT CELLAR

In order to provide for an unusually heavy crop of potatoes we have dug a cellar which connects with the school itself. The new cellar is forty eight by forty eight and will not only provide all the space we need but will also, on account of its location, obviate the necessity of having the children go outside during sub zero weather to bring in the vegetables. There is much work to be done yet in the cellar itself and we would be glad if the Department would keep this in mind should funds be available for improvements during the coming fiscal year.

During the winter months we did not usually expect or receive visits from any of the officials of the Department. No doubt we shall be more fortunate when winter is over and the roads become passable.

Yours truly,

W. Byrne-Grant m!

Dear Sir:

I am in receipt of your letter of the 1st instant enclosing a copy of a letter from the Principal of the Lejac School together with the copy of proposed regulations regarding parents visiting the school.

It is felt that the regulations should be satisfactory but it is not possible to decide if they will meet all requirements until they have been put into effect and their results noted. You may advise the Principal that the regulations, as submitted, are tentatively approved and if it is found in practice that some modifications are necessary the Indian Agent and yourself should be consulted.

Dear Major MacKay:-

I have examined with care the amended draft of Visiting Regulations for the Lejac Indian Residential School, together with the explanations given by Reverend W. Byrne-Grant, O.M.I. in his covering letter of 18th February.

Except in one or two instances, the Principal appears to have accepted the suggestions made in my letter of December 16th, 1937, and I am now satisfied that there are satisfactory reasons to cover the minor variations from my own suggested outline of Visiting Regulations for the above School.

I would, therefore, recommend that the Department accept the amended Visiting Regulations as drawn up by Reverend Father Grant and forwarded by Mr. Indian Agent Moore with his covering letter S-2-429 dated February 21st, 1938.

Lejac, B.C., February 18th, 1938.

Mr. R. H. Moore,  
Indian Agent,  
Vanderhoof, B.C.

Dear Mr. Moore:-

Re Visiting Regulations

I am enclosing the new visiting regulations for the school, modified according to the suggestions of the Commissioner. You will notice that we are again submitting again for the approval of the Department Rule C. The purpose of this rule is to be able to keep the Indians from running all over the house and I believe that the addition of the sentence concerning the right to visit the building accompanied by a member of the staff will meet the suggestions of the Commissioner.

Outside of the building no objection is made to the parents and children being together provided that Supervisors can control their actions.

You will notice that Regulation E has been combined with Regulation F of the original draft. The Commissioner had suggested that the hours, 12:30 till 2:00 P.M. would be too short if the parents were allowed to visit their children only once a month. To meet this objection we suggest continuing the present system of allowing them to visit every Sunday but only from 12:30 till 2:00 P.M. Both Sister Superior and the Supervisors of the boys assure me that to extend the visiting hours till 4:00 P.M. would entail many serious inconveniences. It would prevent the children from taking their Sunday walk, to which they look forward with a great deal of pleasure, and would interfere with the luncheon hour.

Regulation F will meet the wishes of the Commissioner with regard to parents coming from a long distance. As a matter of fact we have always been very lenient in the case of those parents who are only able to visit the school at long intervals.

I am glad to be able to report that since the regulations were sent out to the different camps at Christmas dealing with the visiting hours during the holidays we have had no further trouble from any of the young men and there has been no complaint about drinking or disorderly conduct.

Yours sincerely,

"W. Byrne-Grant, O.M.I.  
Principal.

WBG/HB

P.S. I might again call your attention to the advantage of having a small building down by the lake side which could be used by the Indians coming from a long distance when they visit the school during extremely cold weather, when camping outside may be rather difficult.

VISITING REGULATIONS FOR LEJAC SCHOOL

- A. Indians will not be permitted to camp in the school under any conditions. Camping in the school grounds will not be allowed as there are available camp grounds on the Reserve less than half a mile from School Buildings.
- B. Indians visiting children at the school must not expect to have meals supplied to them even though they may be prepared to pay for such meals.
- C. Both parents and children must remain in the Indian Parlor while in the school building. Parents wishing to see the school rooms, dormitories, infirmary or play rooms should be accompanied by a member of the staff.
- D. Only the parents or the guardians of the children are allowed to visit the children or to be on the school property. Outside of visiting hours no one is allowed on the property unless he has business with the principal.
- E. The ordinary visiting day is Sunday. The visiting hours are from twelve thirty till two. A bell will be sounded at two P.M. when all children will at once report to the Supervisors. Parents will be expected to leave the building before two P.M. at the latest.
- F. Parents coming from long distances and only able to visit the school once or twice a year will receive permission to see their children outside of the regular visiting hours.
- G. Parents coming by train from Stony Creek, Shelly, Ft. St. James, Tache, etc., will be allowed to see their children between trains on Tuesday, Thursday and Saturday.
- H. Special regulations will be made for visiting hours at Christmas and Easter.
- I. Permission cannot be given for children to leave the school to visit their parents, except when such cases have been referred to the Indian Agent and his sanction obtained in writing.

DEJAC RESIDENTIAL SCHOOL QUARTERLY REPORT

Mr. R. H. Moore,  
Indian Agent,  
Vanderhoof, B.C.

EXD.

Dear Sir:

I beg to submit the report for the quarter ending  
Dec. 31st, 1937.

ATTENDANCE

At the end of the quarter the attendance was 147 ( 88 girls and 59 boys). This is fourteen below the school quota. The reduction in the number of children is due to several reasons. First, the postponement of the opening of the school for two weeks resulted in some of the parents leaving for their trap lines with their children. It is possible that some of these children may be brought to the school at the end of the Christmas holidays. Secondly, the epidemic of measles and whooping-cough in the camps, which caused the postponement of the opening, left some of the children too sick to attend school. Some of these may return now. Thirdly the number of the children discharged at the end of the school year was greater than usual. The accident last year does not seem to have had any effect on recruiting.

HEALTH

The medical officer, Dr. Poole, tells me that he is well satisfied with the general health of the children. There were some cases of whooping-cough and German measles and all the children seemed to have bad colds when they arrived at the school but now the children all seem quite well. There is of course the occasional indisposition and occasionally we find one or two children in the infirmary but there is nothing serious.

MORALE

The spirit among the children is excellent. Every provision has been made to provide them with ample facilities for winter sports. The children are provided with a full sized skating rink, skis, and sleighs and everyone visiting the school remarks on the evident contentment of the children.

DISCIPLINE

The discipline of the children is excellent. The departure of three rather unruly boys at the end of the school year has helped a great deal and we have every reason to be pleased with the conduct of the children so far. Earlier in the year two little boys from Tache tried to run away from sheer homesickness but this is the only case. Of course every precaution is been taken. The location of the skating rink close to the school building instead of down on the lake has helped to maintain the necessary control and render far easier the work of the supervisors.

### VISITS

It is generally agreed that one of the contributing causes to the accident last year was the disorder caused by the number of Indians visiting the school at one time and the fact that several families from out-lying points were camped in the Indian parlor. Steps have been taken to control the days and hours of visiting so that while ample facilities are granted to the parents to visit their children the inconvenience of having to greet a number come at the same time is being avoided. The Indians are no longer allowed to camp in the Indian parlor. This latter regulation is not without its drawbacks and I believe that some means should be provided to enable parents coming from distant camps to remain near the school for a few days. These people usually make their visits during the winter months when climatic conditions make camping out of doors rather difficult. This is especially true for those who come by train and do not bring with them the usual equipment for camping in woods. I believe that the final solution of this problem will be found in the construction of a suitable building along the lake shore for the use of the parents visiting their children. This problem dates back many years. In 1926 the Department received complaints from the Indians directed against Rev. Father Coccoia because he refused to allow them to camp in the school. In answering these complaints, Rev. Father Coccoia stated that he had suggested to the Indians that they collect the necessary materials for the construction of the building for their use, but nothing was done and it is unlikely that the Indians themselves will have enough energy or initiative to do anything themselves. I believe that for \$200 it would be possible to build and equip a small house which would meet the needs of the Indians and remove finally all ground of complaint on this point. It would be better that the building be constructed by the school itself as it would enable us to have full control of the building and prevent any abuse of it. I would like to recommend to the Department that a grant be made for this purpose.

While discussing the question of visits it might not be amiss to draw attention to the inconveniences caused by the visits of some disorderly Indians. X On two occasions at least the whole school was upset by the conduct of these Indians who were evidently under the influence of liquor. X On another occasion several young Indians even went so far as to be insulting to the Sisters in charge of the girls. It is unfortunate that the impression seems to exist that any Indian has the right at any time to walk into the school building and that neither the principal nor those directly in charge of the children have any right to control their conduct. Regulations are being drawn up to meet the situation and I hope that in my next report I will be able to say that the abuses caused by visits of this kind have been completely checked.

*note* This was investigated by the Police at the time it happened, but "cold tea" was the only liquor produced & no evidence for a prosecution. L. J. Moore.

#### MANUAL TRAINING

The first two months kept the boys busy harvesting the root crops and preparing for winter. Since then the usual winter program is being followed. There are fewer big boys this year so that we are not able yet to divide them up in such a way as to permit some of them to specialize in carpentry as we did last year. They are however getting practical experience in building work both around the school building and in connection with the farm.

One change has been made from last year's programme partly due to the small number of big boys and partly to the sickness that was prevalent when they returned from the camps. We have not used the boys for milking the cows. I have sometimes wondered whether it would not be just as well to discontinue this practise altogether. The fact that most of the children have T. B. in their system leads me to think that in order to safeguard the purity of the milk it would be better to get on without them for this work. I believe also that in the camps the men do not bother about work of this kind which is left to the care of the women.

#### DOMESTIC TRAINING

The girls are continuing the usual program of training in all branches of work for which they are especially adapted. I think we can say without exaggeration that the girls leaving the school are really well trained in cooking, plain and fancy sewing, washing and ironing, and in general house work.

#### HANDICRAFTS

Steps are being taken to prepare the school to be in a position to take up special handicraft work. We shall make a beginning this year by making our first attempt at teaching the children to make Indian sweaters, scarves and stockings with home spun wool from our own flock of sheep. We are planning to gradually expand this work so that every child will leave the school able to earn money by means of one of these handicrafts.

#### FARM OPERATIONS

Winter came early this year and practically all our work now consists in looking after the stock and meeting the difficult conditions which go with our severe winters. Some of the boys spend at least an hour and a half each day in this work. We are wintering about one hundred head of stock including thirty six head of high grade Hereford hiefiers which we imported from the prairies as the foundation of our beef herd. I believe that this will afford useful training to many of the boys whose parents are engaged in raising beef for the market.

POULTRY

The experiment begun last spring of increasing the poultry flock and of showing to the Indians what can be done with poultry even in the coldest weather has been quite successful even in the coldest sub-zero weather. We are getting as high as four hundred eggs a day from six hundred hens and we are thus in a position to supply the school with all the fresh eggs needed and at the same time sell enough to pay for operating costs. This experiment will be useful not only to the Indians themselves but also to the farmers of the neighbourhood.

ROOT CELLAR AND PIG PEN

We are still hoping to receive news that the Department is going to help to provide us with these two buildings which still are our most pressing needs.

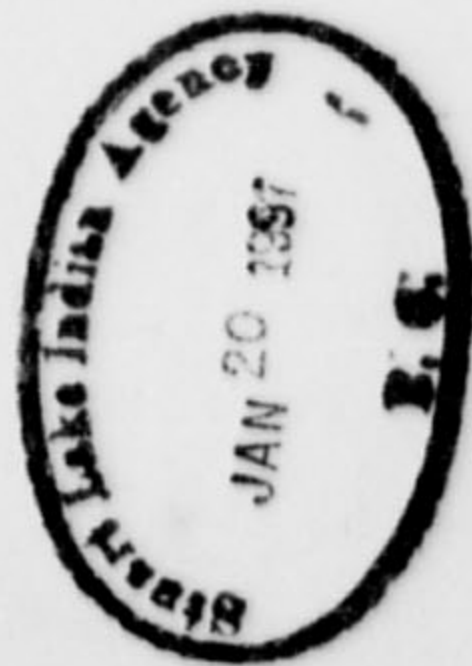

We have had the pleasure since our last report of receiving visits of Major D. M. MacKay, the commissioner, and from Inspector G. H. Barry. Their visits were both helpful and encouraging and were greatly appreciated. I would like also to express my appreciation for the active co-operation of Mr. R. H. Moore, the Indian Agent. He has visited the school frequently and not only shows a great interest in all our doings but has been a great help in connection with various problems that have come up. I might also mention that during the past year we have received many visits from Federal and Provincial officials of the Department of Agriculture who have been greatly interested in our work and have helped in many ways.

Yours truly,

Sir:-

This is to inform you that the Right Reverend E.M. Buno, O.M.I., Vicar Apostolic of the Yukon, called at this office a few days ago and advised that Rev. Father Grant, Principal of the Lejac Indian Residential School had been moved, with very little warning, and sent to the United States. He also informed me that Rev. A.R. Simpson would be Acting Principal at the School pending a permanent appointment. Unless otherwise advised by the Department I am carrying on, on the assumption that Father Simpson's appointment as Acting Principal will be approved by the Department.

Dear Sir:

I regret to have to announce to you that the Rev. W. B. Grant, O.M.I., the Principal of the Lejac Residential School at Lejac, B.C., left the school two days ago.

Having a too keen sense of his responsibility attached to the conduct of the school he felt anxious to be relieved of the burden; hence he accepted a call to Buffalo, tendered his resignation and was obliged to leave on short notice.

I have the satisfaction, however, to propose as his successor at Lejac a man in every way qualified to fill the position in the person of the Rev. Alexander Robertson Simpson, O.M.I. He is a British subject, born in Scotland, a good disciplinarian, expert business man; and has acted as assistant at the school for several months and is familiar with all the details of the school. I feel sure that he will make an efficient principal; hence, I have no hesitation to recommend him to you for his official appointment from Ottawa.

INDIAN RESIDENTIAL SCHOOL

GENERAL REPORT

FOR QUARTER ENDING DECEMBER 31st., 1939.

Attendance.

There are actually 180 children in the school at present, and three others in the hospital. Once more I wish to draw the attention of the Department to the fact that we are only receiving the per capita grant for 160 children, which makes things increasingly difficult for us.

Morale

The spirit of the children is very good, and we have not yet had a single runaway this year.

Manual Training.

This phase of the training of the children is following the customary lines, and with considerable success.

Health.

We have been greatly inconvenienced during the past three months by the fact we did not have a local doctor; and were obliged to call Dr. Stone from Vanderhoof when necessary. Dr. Stone has been very considerate and has always answered our call, but Vanderhoof is 40 miles away, and the telephone service is not very reliable. There have been two cases of pneumonia and one boy broke his arm, in addition to various other minor ailments.

On the whole the health of the student body is very good.

Crops.

Once again our potato crop was a failure, and we were obliged to purchase a carload of potatoes from Kamloops at very great expense.

Livestock.

All of the livestock are doing well, and the numbers are about the same as in the last report. The pigs are now established in the new piggery and appear to be quite contented. The chickens have done well, and a fair profit has been realised from the sale of eggs. Some additional has been earned by the sale of cream and pork, as well as hides.

Visual Education.

We are going in for this branch ~~xxx~~ of education rather strongly, and find the children very responsive. A silent 16mm. projector has been purchased, and we also have projectors for glass and film slides; all of which the children enjoy very much indeed.

EXD.  
A.

Reverend Sir:

I am in receipt of your letter of the 13th instant with reference to the pupilage at the Lejac Indian residential school.

Requests for increased pupilage are continually being received from Principals of residential schools throughout the Dominion. However, these requests cannot be favourably considered unless the necessary funds have been specifically provided. In the case of the Lejac school provision was made in our current year's appropriation for a pupilage of 160 and in view of present regulations it is not possible for us to pay grant for any larger number.

When preparing our estimates for the fiscal year 1940-41 the pupilage at the Lejac as well as other residential schools will be reviewed but owing to present conditions I am unable to state definitely at the present time whether or not it will be possible to provide the funds that would be necessary for an increased pupilage.

Yours truly,

R. A. Hoey, Esq.,  
Supt. of Welfare and Training,  
Indian Department,  
Ottawa, Ont.

Dear Sir:

Having exhausted all the other channels of approach without result or acknowledgement from the Department, I now appeal directly to you.

If the credit and the good name of this school is to be maintained, and the Indian children are to continue to receive all of the services to which they are entitled, (as you directed in your letter to me of January 5th., 1939) it is imperative that an increase of pupilage be granted.

All during the last school year the daily average of attendance was well over 170. At the present time we have 178 children in the school. And, as you are aware, our per capita grant provides for only 160.

Despite all of my efforts since assuming the charge of this school, I have been unable to reduce its debt by any appreciable amount. And now, with rising prices, it is going to be even more difficult to keep the debt from increasing in the future.

So, once more, I beg of you that our pupilage be increased to 175. If this cannot be done, may I suggest that the per capita allowance be increased from 170 dollars per pupil to 180, as is the case in other schools that do not have the expenses we have. One of our biggest burdens is paying for freighting of our goods from Vancouver, due to the fact that we are so far north.

Please give this appeal your favourable consideration and you may be assured of the deep gratitude and appreciation of,

Yours very truly,

LEJAC INDIAN RESIDENTIAL SCHOOL.

GENERAL REPORT

For quarter ending June 30th., 1939.  
-----

Attendance.

The actual number of children now in the house is 174, and for a part of this quarter we had 176. Again, I wish to draw attention to the fact that an increase in the per capita grant would considerably lessen the present strain upon our finances. If we had all of the children of school age from the territory served by the school, we should have an enrolment of about 400 children.

Morale.

The spirit of the children continues to be excellent. We had two runaways, but they were returned to the school within three hours.

Manual Training.

The boys are taking quite a good interest in their work, especially the carpenters who are gaining valuable in the erection of the new pig-gery; all of the work being done by the Manual Training Instructor and the boys.

The girls continue their studies of painting, spinning, carding, and the other household sciences.

Health.

None of the children are sick in the house at present. During the quarter two children were sent to the hospital, one developed gangrene in the right leg and had to have it amputated, the other requiring eye treatments.

When the travelling clinic for T.B. of the Provincial Government passed through here I tried to have all of the children X-rayed; as had been suggested by Dr. McQuarrie on his last visit here. But, the doctor said that he could do nothing unless the Department made arrangements with his superiors. This clinic will be back here during September, so I suggest that the Department arrange for a proper examination of the children by having a clinic held here at the school.

Crops.

Due to the heavy spring rains, all the indications point to a good crop this season, which will be a great help to the school.

Livestock.

We have at present:-

16 Holstein milch cows, 4 two year old heifers, one one year old heifer, 11 calves, and one bull.  
30 Hereford cows, 13 yearlings, 24 calves, and one bull.  
28 Ewes, 40 lambs, and one ram.  
7 Sows, 2 fat hogs, 21 young pigs, and one boar.  
535 laying hens, and 740 young chicks.

All of these are in excellent condition, and should do very well this season.

GENERAL REPORT

For quarter ending March 31st., 1939

Attendance.

At present we have actually 173 children, which is just two less than at the end of the previous quarter. Once more I wish to call attention to the fact that our "per capita" grant makes provision for only 160 children; and that the additional pupils are a heavy drain on the resources of the school. The present enrollment seems to be quite consistent, so again I request that the Department raise our grant by at least ten pupils; viz. to 170 instead of 160.

Morale.

The spirit of the student body is excellent, and all the children are apparently very happy indeed. There have been no runaways during the past five months.

Manual Training.

A number of the boys are doing very well in the carpenter work, and are showing great interest and proficiency, even working in their spare time. Many useful articles of furniture and other things have been turned out by the boys this quarter.

The girls are taking great interest in woolworking, carding, and spinning the fleeces from our own sheep.

Health.

At present none of the children are sick; they all seem to be in fairly good health. During the latter part of January we had a slight epidemic of chicken-pox; about a dozen children took sick, all of them being very mild cases. The dentist made his visit in January, and was fully occupied during the six days he was here, even working in the evenings after supper. Three of the children were taken to the hospital for tonsilectomies.

Two of the children were sent to the hospital to be treated for tubercular infection of the lungs.

Crops.

Due to the short crop of last season and the unusually long winter we have run short of feed for the livestock; and have been obliged to buy hay at considerable expense.

Livestock.

All of the animals are in good condition. The production of our milk herd, according to the government test, is best of any in the district. We have now:-

- 20 Holstein cows, 7 calves, and one bull;
- 59 Heresford beef cattle, and one bull;
- 9 Sows, 10 shoats, 19 sucklings, and one boar;
- 700 Laying hens, and 7 turkeys;
- 7 Work horses;
- 28 Ewes, 6 wethers, and one ram;
- 14 rabbits.

Improvements.

The electric generators have been moved from the basement of the main building to a small outbuilding; making a great improvement in the efficiency of the motors, and removing a nuisance from the house.

The high pressure boiler in the laundry was moved to a more suitable and convenient place, after it had caused a fire in the laundry..

GENERAL REPORT

for quarter ending December 31st., 1938.

ATTENDANCE.

At the present time we have 175 children, which, I believe, is the largest number in the history of this school. Since our per capita grant **only** makes provision for 160 children it is becoming increasingly difficult for us to make ends meet; and we are very reluctant to refuse entrance to eligible children. To judge by appearances, we shall have even more children after the Christmas season, not newcomers, but those who are already on our rolls but have not yet returned since the summer vacation.

Morale.

On the whole, the spirit of the student body is very good, and the children seem to be quite content.

There has been some recurrence of the "runaway fever," about six boys having tried it. All were brought back within 24 hours, except one who is still hiding in the bush.

Manual training.

In this respect there is little to add to the report for the previous quarter. We have received a spinning wheel and a carding machine from the Department, which will add to our facilities in training the girls in wool working.

The boys are following the usual routine work of the farm and in the carpenter shop.

Health.

The medical officer, Dr. Irish, states that quite a number of the children have infected tonsils; four of five of them standing in need of immediate attention. But I am informed that the Department will not authorise tonsilectomies for the children.

About fifty per cent of the children are in need of dental attention, but this will be attended to when the dentist comes here next month.

Crops.

The potato crop was almost a total failure, and we were obliged to purchase 20 tons.

Livestock.

Our animals are all in satisfactory condition; we have

- 21 Holstein milk cows and one bull,
- 59 Beef cattle and one bull.
- 9 Sows, 14 shoats and one boar.
- 850 Laying hens, geese and turkeys.
- 7 Horses.
- 38 Sheep and one ram.
- 12 Rabbits.

Improvements.

A considerable amount of new fencing has been erected; a new laying house for the chickens has been built; and, at the moment, we are engaged in moving the electric generators from the basement of the main building to a small building in the rear.

Ottawa, Ontario,  
January 31st, 1940.

Honourable T.A. Crerar,  
Minister of Mines and Resources,  
Ottawa, Ontario.

Dear Mr. Minister:

About ten days ago I had a conversation with Reverend A.R. Simpson, O.M.I., Principal of the Indian Residential School at Lejac, B.C.

Father Simpson tells me that their average attendance during the year 1938-39 was 175; that this year it has averaged 180; and that at the present moment there are actually 184 children in the school.

The school grant is based on 160 pupils, and Father Simpson is very anxious that the pupilage be increased in such manner as will meet actual conditions. Father Simpson is of opinion that certain other schools in British Columbia receive a higher grant per pupil than the school at Lejac. He claims that because of the distance of Lejac from Vancouver, at which point most of the school supplies are purchased, the cost of freighting to his school is much higher than the cost of freighting to other schools.

I should be glad if you would have the necessary inquiries made so that if Father Simpson's contention is well founded, the situation may be corrected.

With best personal regards,

Yours faithfully,

LEJAC INDIAN RESIDENTIAL SCHOOL. 163/1/1

GENERAL REPORT

for quarter ending September 30th., 1940.

ATTENDANCE.

Considerable difficulty has been experienced this year in bringing the children back to school. At the orders of the Department, we tried to have the parents bring their children at least part of the way into school; but they obstinately refused. Finally the services of the Mounted Police had to be requested. We are still about 20 children short of the desired number.

Morale:

Those of the children who have returned seem to be in good spirits. There have been no attempts to run away, as yet.

MANUAL TRAINING

This is proceeding along the customary lines, carpentry and farm instruction for the boys; and the usual household work for the girls, combined with instruction in spinning, carding, rug-making, dressmaking, etc.

HEALTH

Soon after the children returned we had a severe attack of the "flu." No one in the house escaped, and at one time we had over 70 children in bed at the same time. It seems to be almost over now, there are only two or three children left in bed.

One girl was sent to the hospital that day after she came, with incipient pneumonia.

CROPS

The yield was good this year. Harvesting is almost finished. It will not be necessary to purchase potatoes this year, as in the past two years. We also have enough feed on hand for our stock. The garden was good this year, and large quantities have been canned for the winter.

LIVESTOCK

The animals are all in good shape, and the numbers remain about the same. The lamb and pig crops have been disposed of at fair prices.

GENERAL REPORT 163-1-1

FOR QUARTER ENDING JUNE 30th., 1940

ATTENDANCE.

The number of children in the school is still over 180. Due to the reduction in authorised pupilage it will be necessary to reduce the number of children for the next school year to about 150. Probably, no more children will be accepted from outside of the Stuart Lake Agency, except in the case of orphans or destitute children.

MORALE.

The morale of the children is very high. They are very well behaved, and give little trouble. There have been no runaways this year.

HEALTH.

On the whole, the health of the children has been good. We had a severe siege of the 'flu, and at one time we had sixty children in bed at the same time. There have been three children sent to the hospital for various reasons.

ACTIVITIES.

The Sisters and many of the girls are actively engaged in working for the Red Cross. Many articles such as pyjamas, pillowslips, towels, socks, etc., have already been made by them. The children take a very keen interest in this work, and well realise what it is for.

IMPROVEMENTS.

The root cellar has finally been fixed. Instead of the ponderous and costly concrete structure that had been planned, we removed all of the dirt, and put on a wooden roof, covered with rubberoid roofing. Under the roof there is about two and a half feet of sawdust and shavings for insulation. This makes a light and effective roof, that will be much better than the old one, and just as efficient as a more costly one of concrete. The cost of this work was about \$250.00, exclusive of the labour.

LIVESTOCK.

The farm animals are all doing well. We had a lamb crop of about 60, and the calves are still coming. The chickens are producing well, and keeping up a large and steady supply of eggs. Our milk herd has the best average production in this district.

CROPS.

ALL of the seed is now in the ground, and provided we get sufficient rain, there should be a very good crop.

Dear Father Simpson:

I have your letter of the 25th ultimo  
with reference to the staff at the Lejac Indian  
Residential School.

I was rather surprised to read the last  
paragraph of your letter. I may say that this Branch  
has not issued any specific instructions regarding  
the non-employment of enemy aliens. As a matter of  
fact such action was considered unnecessary as it was  
presumed that under present conditions no Indian  
residential school would even think of employing an  
enemy alien.

Yours truly,

Philip Phelan,  
Chief, Training Division.

Ottawa,  
December 2, 1940.

Dear Sir:

I desire to refer to your letter of the 6th ultimo addressed to the Minister of Labour, also my reply of the 16th ultimo, with regard to the staff of the Lejac Indian Residential School.

Very careful inquiries have been made and it is found that every one of the men employed on the staff of the Lejac School is a Canadian citizen and, with one exception, were all born in the Dominion of Canada. The exception is Herman Hesse, the manual training instructor and carpenter. This man is a native of Bohemia, a province of Czechoslovakia. He came to Canada after the last war and was naturalized at Prince George in 1927. He entered the employ of the Lejac School in 1936. Although Mr. Hesse was born in Bohemia he cannot be considered as an enemy alien because Czechoslovakia is officially an ally of Great Britain and nationals of that country are not considered enemy aliens.

All the Sisters at this school are Canadian-born except one who was born in Ireland.

You will note from the above that the complaint that you received regarding the employment of enemy aliens at the Lejac School was not based on fact.

Yours truly,

Your file 163-1-1.

Dear Sir:

Your letter of the 16th. inst. is at hand; and I wish to inform you that the complaint of which you speak is entirely, and probably maliciously, false.

Everyone of the men employed on the staff of this school is a Canadian citizen; and, with one exception, were all born in the Dominion. The exception, who is probably the object of the complaint, is Herman Hesse, the Manual Training Instructor and Carpenter. This man is a native of Bohemia, a province of Czechoslovakia; he served in the Austrian Army during the last war, then came to this country and was naturalized at Prince George in 1927. He entered the employ of this school in 1936, and is a capable and reliable man.

I have spoken to him on many occasions about the war, and am convinced that he is not a Hitlerite. Besides, since he is a native of Bohemia, he cannot be considered as an enemy alien, because Czechoslovakia is officially an ally of Great Britain, and nationals of that country are not considered as enemy aliens even in England.

All of the Sisters are Canadian-born, except one; she is a neutral, since she comes from County Kilkenny in Eire.

Since this question has arisen, I might say that I have not been informed, officially or otherwise, of any restrictions imposed either by the Government or the Department concerning the employment of enemy aliens resident in the Dominion. Therefore, I cannot see why the employment of such a person should be grounds for a "complaint" in the judgment of the Department, since there is no official ruling against it. Please correct me if I am mistaken.

Yours truly,

Dear Sir:

Your letter of the 6th instant addressed to the Minister of Labour has been referred to this Department for attention.

Inquiries are being made regarding your claim that aliens are being employed on the staff of the Lejac Indian Residential School.

Subsection 2 of Section 10 of the Indian Act provides that no Protestant Indian child shall be assigned to a Roman Catholic school or school conducted under Roman Catholic auspices, and no Roman Catholic child shall be assigned to a Protestant school or a school conducted under Protestant auspices. For the past 60 years it has been the policy of successive Governments to provide schools for both Catholic and Protestant children. The Lejac School is intended for Catholic Indian children and it is quite natural that only Catholics should be employed. At the Protestant Indian residential schools it is the usual custom to employ only Protestants.

Dear Sir,-

Enclosed herewith is a copy of a letter which has been received by the Minister of Labour from the Secretary of the Canadian Legion at Fort Fraser, B. C., regarding the alleged employment of enemy aliens on an Indian industrial school at Lejac, B. C.

The subject-matter is not one which is to any extent under the control of the Department of Labour and is being brought to your attention by reason of the reference which is made therein to a Government grant which is being given to this institution.

Yours truly,

The Minister of Labour,  
O t t a w a.

Dear Sir,-

Our attention has been called to the fact that the Indian Industrial School at Lejac, B. C., is employing enemy aliens. The heads of this school are very often not Canadian or British subjects and do not seem to realize that it is not the proper thing to employ enemy aliens when these jobs can be done just as well by veterans or other Canadians out of work.

Further this school will employ nobody who is not a member of the R. C. Church. We understand that this school gets regular grants from the federal Government and it seems to us that discrimination against other churches is, to say the least, out of place.

We would kindly ask you to look into these matters and taken the necessary steps.

Yours faithfully,

March 3rd. 1941.

Dear Sir:-

I wish to report a regrettable incident which occurred at the Lejac Indian Residential School last Saturday afternoon. about 4 P.M. the local telephone operator received a rather incoherent message that Herman Hesse, carpenter and Manual Training Instructor had gone berserk and stabbed the Rev. A.R. Simpson, the Principal, several times. Doctor Stone, the local Provincial Police Constable and myself proceeded to the school without delay. On arrival it was found that Mr. Saddler, another workman employed at the School, was the victim; not Father Simpson.

From inquiries made it would appear that Father Simpson discharged Hesse about ten days ago and gave him one month's notice to vacate. Mr. Hesse proceeded to Prince Rupert to voice his objections to the Right Rev. E. M. Bunoz, the Bishop in charge of this diocese. On his return to the School last Saturday the Principal cancelled his month's notice for reasons given in the attached statement and ordered Hesse to leave immediately. Apparently Hesse worked himself into a terrible frenzy and proceeded to man handle the Principal, kicking him in the groin and drew a knife. Mr. Sadler, a witness grappled with Hesse before he could inflict any wounds on the Principal and received six flesh wounds himself. Mr. Hesse later withdrew to his room, in the bunkhouse where we found him still in a very nervous state. He was taken into custody and placed in the Vanderhoof lock-up; no doubt a charge of inflicting grievous bodily harm will be preferred against him in due course. I understand Hesse is of Ceck-German origin but is a naturalised British citizen. He has been employed at the school for the past six years. He struck me as being a very thorough workman but prone to become excited over fanciful grievances. He is also a powerfully built man of huge proportions and it is fortunate that he desisted when he did as he might and could have created havoc in the frame of mind he was in.

An affair of this kind is indeed to be regretted, although no blame can be attached to anyone at the school. The publicity which will necessarily follow may have a bad odour and will not tend to increase the popularity of the school with the Indians or the general public.

Doctor Stone advises that Mr. Sadler's wounds are not serious and that he should be fully recovered in four or five weeks' time.

Your obedient servant,

*Robert Howe*

Enclosure.

Lejac, B.C.  
March 1st., 1941.

Herman Hesse was discharged by me from the employ of this school on February 21st. He declared that he would go to Prince Rupert and fix it with Bishop Buno. Then he told the other men that he was going to get even with me; and that he would accuse me of improper conduct with Mrs. Sadler, the wife of one of the hired men.

Hesse returned from Rupert at 1 p.m. today. I told him to get his things together and get out this afternoon. At 3 p.m. I went over to his room to warn him to leave once more. He refused to go, and I said that I would have the police to put him out. He then demanded to be paid until April 1st. I refused. Then he said that I had given him a month's notice, and that he was going to work it out. I told him that I did not know then what a "dirty swine" he was, but now that I had found out, he had to leave immediately.

Then Hesse attacked me, kicking me in the leg and in the groin. He kicked me out of the house, and I thought that he was going to strike me with his fist. Anton Sadler, a farm worker of the school, came running up and yelled at Hesse. Hesse then swore at Sadler and knocked him down and stabbed him repeatedly with a knife. I did not realise then that it was a knife, until Sadler cried out that he had been stabbed. Then Father Pagnon and Tuck, our disciplinarian, came up; Hesse went into the house, and Sadler was taken upstairs.

I then phoned for the doctor and police.

STATEMENT OF THOMAS H. M. TUCK, Disciplinarian at Lejac School.

Having returned to the yard with the boys, was talking to Father Pagnon. Heard a scuffle behind me, turned and saw Mr. Hesse, over Mr. Sadler, who was down on the ground. A minute or so later, Mr. Sadler got away and ran towards the school, when he passed me, I saw his blue overall coat and shirt were cut, apparently with a knife, and there appeared to be a gash of about 8 inches on his left shoulder. After that Sadler was taken into the house. This is all that I can say.

(Signed)

*T. H. M. Tuck*

STATEMENT OF FATHER PAGNON.

I was coming down from the barn, where I had a talk with Mr. Sadler. I passed the bunkhouse, I met Father Simpson, who said he was going to see Mr. Hesse, and find out whether he was getting ready to leave. At first, I had the impulse to accompany him, but did not do so. Not far off, I stopped to talk with Mr. Tuck. A few moments later, I heard the argument between Father Simpson and Hesse. Soon after I saw Fr. Simpson coming out of the house. I noticed that he was pale. Right after Hesse followed still arguing, and pursuing him. I saw him lifting his fist on Father Simpson. I did not see a knife. Mr. Sadler was just coming around the corner of the house. He threw himself between Hesse and Fr. Simpson. Hesse began to strike him, at first I did not realise that he had a knife in his hand. Then I saw that he had a knife. I went towards them. Hesse left Sadler, who got up and came to me crying "Call the doctor."

Mrs. Sadler, who saw the whole thing, came to me also, and with her, I helped Sadler up to his room.

Signed.

Dear Father Simpson:

I am in receipt of a letter from Indian Commissioner MacKay with reference to an attack on you and Mr. Sadler by Herman Hesse. I sincerely trust that you were not seriously injured and that Mr. Sadler is recovering from his wounds.

You will recall that there was some correspondence regarding Hesse last December and his present action indicates the advisability of carefully selecting all members of the staff. As mentioned in my letter of December 3, it goes without saying that enemy aliens should not be employed at our schools.

LEJAC INDIAN  
RESIDENTIAL SCHOOL  
GENERAL REPORT

for quarter ending December 31st., 1941. JAN 12 1942

1-2  
ATTENDANCE.

Since the last report a few more children have been admitted, bringing our total attendance up to 165 pupils.

2  
MORALE.

The children continue to be in the best of spirits, and seem to be very well satisfied with their lot here at the school. There has been no trouble as yet with runaways.

Part #11  
MANUAL TRAINING.

The boys completed the erection of the second storey of the chicken house, and did an excellent job. All of the cement work, and stair building, in fact, all of the actual work, was done by the boys, under the supervision of the Manual Training Instructor. They are now doing inside work, house maintenance and repair jobs, and the construction of small articles of furniture.

Health.

The X-ray clinic held here brought to light only five active cases of tuberculosis, and three others recommended for preventorium care. These children are supposed to be sent to the new Indian Hospital at Sardis, B.C., and are awaiting the consent of their parents before leaving for the south.

The general health of the remainder of the children is very good, and very little time has been lost by any of the children on account of sickness.

CROPS.

In common with most of the province, the crop yield was rather disappointing this year, due to prolonged rains. A large proportion of the grains were entirely lost, and the potato crop was far below what is necessary for the use of the school. Carrots, cabbage, peas, turnips, and other vegetables were very good.

Livestock

Due to the shortage of the hay crop, we cut down our beef herd by selling most of the young steers and calves. We are doing fairly well with our hogs and chickens, which have shown a good profit during the past year.

LEJAC INDIAN RESIDENTIAL SCHOOL

GENERAL REPORT

for quarter ending June 30th., 1941.

ATTENDANCE.

Attendance has remained constant throughout the quarter, and we still have actually 159 children in the school.

MORALE.

This has remained at a high level, and there is no real reason to complain about the behaviour of the children, who all seem to be quite happy and contented at school. There have been no runaways during the past quarter; it is almost three years since we have had to report runaways.

MANUAL TRAINING.

BOTH the boys and girls are proceeding along the usual lines in this regard, and the results are satisfactory. The girls do quite a lot of work for the Red Cross.

HEALTH.

The general health of the children has remained good all during the past three months. Only one child had to be sent to hospital for arthritis; but he has now returned ~~as~~ and is in good health again.

Crops.

Prospects for the coming season are excellent, and we are already putting up our first hay crop, which is a large one. Our farm is in excellent shape, and has been highly commended by the Minister for Agriculture, Dr. McDonald, and ~~many~~ other officials of his department.

LIVESTOCK.

All of our animals are doing well. The lamb crop for this year amounted to 78 lambs from 48 ewes, which is quite satisfactory. The increase of cattle and pigs is also satisfactory. Our Holstein milk cows are still leading all of the cattle in the district, of all breeds, in milk production and percentage of butter fat.

IMPROVEMENTS.

The ice cooling plant which was installed last winter in place of the ammonia cooling system is working very well and we are quite pleased with it. I believe that this system could be utilised by other schools to their advantage.

Mr. Turgeon discussed the matter with Mr. Pratt and myself and after telephoning Mr. Hoey it was decided that it would be inadvisable for awhile at least to insist upon the church authorities dismissing the two Japanese. The matter can be reviewed again just as soon as the Commission in British Columbia who have charge of all matters regarding the evacuation of Japanese decide on general matters of policy of this kind.

Dear Bishop Bunoz:

We recently received a letter from Indian Agent Howe with reference to the employment of Japanese at the Lejac Indian Residential School. I enclose, for your information, a copy of a letter which has just been sent to the Reverend Principal of the Lejac School.

The information that the Principal has engaged Japanese has caused us very much concern. Surely the Principal must be aware of conditions existing in British Columbia and it is difficult to understand why he took the action which he has.

Yours truly,

Reverend Sir:

The Department has been advised by Indian Agent Howe that you are now employing a single Japanese at the Lejac School and that it is your intention to engage two more.

In view of the very critical situation that now exists in British Columbia with regard to Japanese, I was very much surprised to learn of your engaging them.

Consequently, on receipt of Indian Agent Howe's letter the following telegram was sent to him:

Dear Sir:

I enclose herewith a letter dated the 2nd instant received from Mr. Indian Agent Howe, advising that the Rev. A. R. Simpson, Principal of the Lejac Indian Residential School is employing single male Japanese on the school farm.

As the Department is no doubt aware, public feeling in British Columbia has been running very high in respect to Japanese, who are in the process of being moved back into the interior of the Province. It is not very long since the Canadian Legion protested against the employment of an enemy alien at this school, a problem that disposed of itself by this man running amok and stabbing the Principal and another man, for which he was convicted.

While, as Mr. Howe points out, there is no legal objection to the employment of enemy aliens at such institutions supported by public funds, unless they happen to be within a defence zone, the practice does give rise to very considerable public criticism and, in my opinion, it would be advisable to consider the issuance of instructions to school principals and others, requiring Departmental permission for the employment of such persons. This course would be justified by the fact that at Residential schools particularly, these aliens would be in a position to carry out considerable destruction of Government property.

Yours faithfully,

Dear Sir:-

For the Department's information I wish to advise that the Rev. A.R.Simpson, Principal at the Lejac Indian Residential School is employing single male Japanese at the School Farm. One has already arrived and two more are expected shortly.

The Rev. Principal advises he is unable to secure local Indians or white labour and that they must have outside help of some kind to operate the farm.

I am not aware of any Regulation forbidding employment of Japanese at Indian Residential Schools outside of Defence Zones, however, I think it is just as well the Department is aware of the Principal's action in this regard.

Dear Sir:-

I wish to acknowledge receipt of your telegrams of the 12th. and 14th. instants in connection with the employment of Japanese at the Lejac Indian Residential School.

The Rev. Principal was advised of the contents of the telegram immediately upon receipt.

In this regard I beg to enclose herewith a letter received from H.G.Crowe, Secretary of Branch No. 52, Canadian Legion, Fort Fraser, B.C. which is self explanatory.

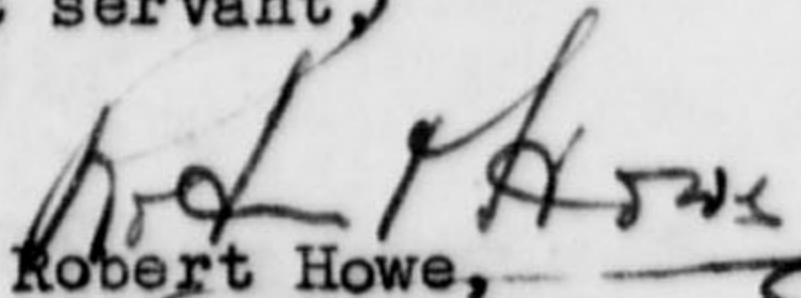

I half expected repercussions from the parents of the pupils, but so far outside of a few casual comments no complaints have been received at this office from Indians.

However, when the Indians return from trapping it is quite possible they may voice strong objections to having Japanese in close contact with their offspring and use this as an excuse to keep the pupils at home next term, especially if influenced by local public opinion.

The Principal's difficulty obtaining labour is fully appreciated, but the past two years we have had a deal of trouble getting a large number of children into school at the opening of the term and I have no wish for them to use the Japanese question as an excuse to keep the pupils at home and add further to our difficulties enforcing attendance.

The opinion expressed is only supposition, so far and may not come to pass. In any case, according to ~~our~~ new regulations in force it is necessary to obtain permission of the Dominion Security Commission before any Japanese may move from place to place in or out of the Defence Zone.

Your obedient servant,

Dear Mr. Hoey,

I thank you for your letter re-employment of a Jap at the indian school of Lejac. I did not know that unfortunate fact.

It is surprising to me because Father Simpson the Principal of the school is recognized in the whole district as a most loyal Scotchman, encouraging the young men to enlist and all to help to win the war. &

It is therefore difficult to understand how he could engage japs for the work in the school.

I have asked him also to dismiss the man objected to. The incident is therefore a matter of the past. It shall not be repeated.

Sir:

The attitude of the Indian Department concerning the employment of Japanese on the school farm, as expressed by your communications of the 12th. inst., came as a great surprise to me. It is imperative that the Japanese be removed from the defence zones of this province, and the great obstacle in the way of this removal is that the Government does not know where to put these people; therefore, I thought that I was doing the authorities a service by bringing three Japanese here, since we are more than 250 miles inside the defence zone, as defined at present.

You must be aware of the fact that it would be impossible to operate this school without having a farm attached to it. And for the farm we have to have hired labour. Due to prevailing conditions, it is very, very difficult to find farm help; and when one does find them, the wages demanded are beyond our ability to pay. There is no white labour to be had in this area; and the Indians can make from \$5.00 to \$10.00 per day in the mines and lumber industry, so they are not going to accept farm wages, at least the farm wages that we can afford to pay.

It is daily becoming more difficult to make ends meet, and the 7 $\frac{1}{2}$ % per cent cut that was made in the per capita grant two years ago, does not make things any easier. During the fiscal year just ending, besides supplying the school with all of its milk, butter, eggs, meat, wool, and nearly all of its vegetables, the cash income from our farm amounts to nearly \$6,000.00. This constitutes almost 20% of our total cash income, which we cannot afford to lose.

The antecedents of the Japanese men employed here were carefully investigated before they were hired; they have excellent characters, and have belonged to the Catholic Church for a number of years. Also, before I took any action I discussed the matter with the representative of the Provincial Dept. of Agriculture, and other leading citizens of this district, and obtained their approval. I also notified the local Indian Agent two or three weeks before any of these men came here.

In view of all this, I was pleased to learn that the Indian Department had decided to reconsider its decision in this case. I can assure you that in all of my actions as principal of this school, the welfare of the children and of the school is always the prime consideration.

Yours truly,

Dear Sir:

I have your letter of the 29th ultimo, with reference to the employment of Japanese at the Lejac Indian Residential School.

This matter was submitted to the Minister's office and for your information I quote from the memorandum received from that office:

"It was decided that it would be inadvisable, for a while at least, to insist on the Church authorities dismissing the two Japanese. The matter can be reviewed again just as soon as the Commission in British Columbia, who have charge of all matters regarding the evacuation of Japanese, decide on general matters of policy of this kind."

LEJAC INDIAN RESIDENTIAL SCHOOL #1

GENERAL REPORT

for quarter ending December 31st., 1942.

ATTENDANCE.

Our attendance has remained about the same during the the past quarter, although four children left for the Sanatorium early in November. Many children who were in school last year did not return, but they have been replaced by the large number of newcomers.

MORALE.

The children are in good spirits and seem to be quite contented. During an absence of the principal, five of the boys ran away, but they were all brought back again; and since then there have been no further attempts.

MANUAL TRAINING.

This continues as usual, both for the girls and boys. We now have an Indian for Manual Training Instructor; he is a former pupil of the school who finished his term about seven years ago, but since then has been almost constantly in the employ of the school, chiefly as assistant to the Carpenter and Manual Training Instructor. So far, he is doing well and seems to be able to handle the boys in a satisfactory manner.

HEALTH.

The health of the children has not been so good during the past quarter. Several of the children have had to be taken to the hospital for treatment, mostly suffering from a form of influenza and the whooping cough. It should be mentioned here that the Medical Officer, Dr. S. P. Findlay, is worthy of commendation here; he has had to make several visits each week, and sometimes two or three in one day, to look after the children; and has never refused to come when called, despite bad weather and roads.

Livestock.

The school suffered a severe loss through a fire in the chickenhouse, which destroyed a major part of the building and about 600 birds. Since the sale of eggs is one of our best sources of income, the loss of these birds is quite serious, considering the prevailing prices of eggs at the moment.

First of all, right after that

him to death. And about few years ago,  
when four boys ran away from school

Ever since that school was opened, Indian boys were imposed to do mostly heavy work on farm. The little <sup>boys</sup> were carrying the heavy wood to the boiler engine and kitchen. Men, who were employed ~~there~~ were not doing much.

Therefore We are decided that this coming July holiday, we will never allow any children to go back to school.

Before the school was built. The Priests requested to have a residential school there. We were not asked about it. And if we knew this school were going to be wrong. We would have been asked for a day school.

Some of the matters which he mentions in his letter occurred years ago and were fully investigated at the time and no blame was placed on any of the school staff. However, I thought that, as the Chief had considered the matter important enough to write to us, we should forward the letter to you, in order that you might discuss it with the Principal. Following this discussion you should report fully on the contents of the letter. When replying you should return the enclosed letter.

Extract from Principal's Report regarding  
the Lejac School. Original on Annual  
Report of Principals of Indian Residential  
Schools - 1944.

There is a movement of some of the neighbouring reserves to have day schools on their reserves, rather than send their children to this residential school. The leaders of this movement are individuals who are hostile to the school. While I have a certain amount of sympathy for the idea of day schools, I do not think it suitable for the Indians of Northern B.C. as yet. Our people are still nomadic to a great extent and spend a great part of their time away from their reserves. There is a great lack of discipline in our Indian families and the parents will not oblige their children to do anything they do not want to do. If a child does not want to attend school, the parents will not take any action to make them do so. In the Stuart Lake Agency alone I venture to say that two thirds of the children are not being educated. Many of the reserves there are small and remote, and difficult to access. But even in nearby reserves there are many children who never attend school. The capacity of this school is limited, and we have children here from four of the largest agencies in the Dominion, namely Stuart Lake, Babine, Stikine and Skeena, for which this is the only Residential School available. To remedy this situation I would suggest that either this school be enlarged or other schools built. Also I think that the provisions of the Indian Act obliging the attendance of the Indian children at some school be more rigorously enforced than they are at present. Many of our children are ten years of age or more when they are admitted and a large proportion of these only attend for two or three years, some even less. Consequently, they do not receive enough education and training to be of any real use to them.

Two visits were made to Lejac Indian Residential School. The influenza epidemic has abated and the health of the pupils is very good. Immunization for diphtheria is proceeding and will be completed shortly.

The Principal and staff are to be commended for the spotless and sanitary condition of the school.

The discarded military clothing sent to the school is a great boon. The Sisters are making it over into wearing apparel for the pupils and it will no doubt outwear materials available from other sources.

The Rev. A.R. Simpson, Principal, Lejac Indian Residential School returned to his duties on the 22nd, after two months leave of absence.

The quarantine for mumps has been lifted but a mild epidemic of influenza has broken out. At the time of writing about 40 pupils are confined to bed with slight temperatures. Under instructions from Dr. Barclay two pupils were sent to Smithers Hospital, T.B. Section, and four pupils to Coqualeetza Hospital for treatment.

The children appear to be in robust condition and appear to be quite content. A large number of the parents visited the school during the Christmas holidays and attended the annual concert which was reported to be quite a success.

## Lejac Indian Residential School

Under Direction of The Oblate Fathers

Lejac, B.C.

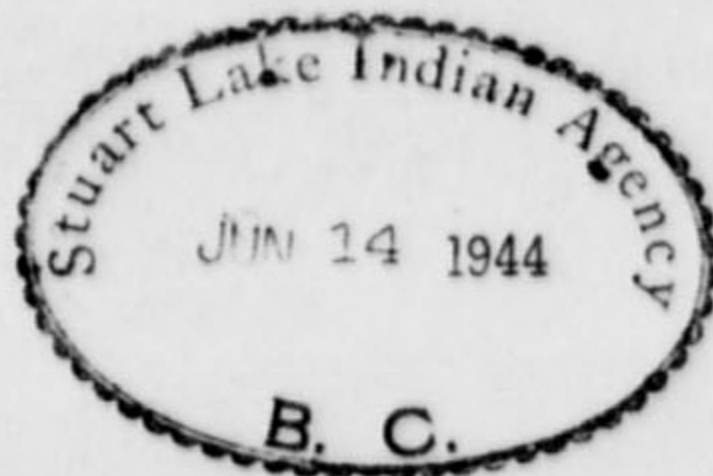

June 13th., 1944.

Robert Howe, Esq.,  
Indian Agent,  
Vanderhoof, B.C.

Dear Mr. Howe:

With regard to the letter which Chief Isadore sent to Ottawa concerning the treatment of children at this school, I wish to make the following observations:-

1. The Department already has the facts on the cases cited, except that of the boy who was injured unloading sacks, which is entirely without foundation in fact.
2. As part of their training, the boys help with the work on the farm; but they are never called upon to do anything beyond their strength. All "heavy work" is done by the hired men.
3. The little boys do carry the firewood to the kitchen. But, as this is cut into pieces 12 inches long, and they take only a few pieces at a time, such work is not too much for them. The boiler wood is hauled by the men to the door of the boiler room, where it is piled and then carried into the boiler room as required by the larger boys. Since we usually have about 20 boys on this chore, each one carries about three or four pieces each day.
4. Personally, I am of the opinion that Chief Isadore's motive in writing this letter is a purely selfish one. He has a ten year old girl in his house, the daughter of Harry Paul, who is treated as a veritable slave. I have tried the past two years to prevail upon him to send this girl to school without success. He is afraid that I will try again this fall.
5. The records of the Royal Commission, which came into this area in 1914, show that Chief Isadore was a leader in asking for the establishment of a Residential School here.
6. Investigation will probably show that Chief Isadore wrote this letter without the approval, or even knowledge, of the majority of his band. I would suggest that, before giving credence to such letters, the Department should require that they be signed by two of the Counsellors; or, as in the case of the Stellaco Band, by the Second Chief.

Yours truly,

Rev Alex. R. Simpson, O.M.I.

Your file 163-1-1

I wish to acknowledge receipt of your letter of the 29th ultimo enclosing a letter from Chief Isadore of the Stellaquo Band, Fraser Lake, B.C., with regard to the treatment of the pupils at Lejac Indian Residential School.

I am enclosing herewith a letter from the Principal replying to the allegations. As you state in your letter, some of the matters mentioned were fully investigated years ago and no blame was placed on any of the school staff.

The children at the school receive the very best of care and treatment. The chores performed by the bigger boys are certainly not harmful to them in any way.

A number of older Indians do not realize the benefit and need of an education. Chief Isadore, in my belief, is only looking for an excuse to advise his people to keep the children at home next term. We have experienced some difficulty in rounding up the children in past years. It will be of considerable assistance to myself and the Principal if the Department would advise the Chief direct that no absenteeism will be tolerated and that action will be taken to enforce attendance. I believe the underlying motive behind complaints regarding Lejac Indian Residential School is that many of the Indians object to the children being away from home for ten months in the year and wish to see day schools established on the reserves. This of course is not practicable in many of the reserves of this agency.

I beg to return herewith the Chief's letter.

GENERAL REPORT

For quarter ending September 30th., 1945.

.....

ATTENDANCE

At the time of writing there are 182 children in school. Although a number of the children who were present during the past school year have not returned we are already 22 over our allotted number of 160. Consequently, we are obliged to refuse admission to any more applicants, except, of course, for those who may be neglected or indigent.

Contrary to our expectations, the Family Allowances did not impede the children from coming back to school. In fact, we had less trouble this year than on any other year in my experience.

MORALE

All of the children are cheerful and happy. Several boys who caused quite a bit of trouble last year did not return, and the others seem to be better off without them.

HEALTH

Apparently, all of the children are in good health, save for a few colds and some severe cases of impetigo. Nearly all of the new children are badly in need of dental care; and many others require tonsillectomies.

LIVESTOCK AND CROPS

Once again an abnormally dry summer has wrought havoc with our crops. Our grain and feed drops were very light, so we will have to purchase considerable quantities of both to see us through the coming winter. The potatoes are also very poor. Since we were able to irrigate the gardens we have good crops of all the staple vegetables.

Due to the depredations of coyotes and wolves we lost quite a few stock, especially lambs; so much so that we have decided to go out of sheep altogether.

PROPERTY

A considerable amount of painting and kalsomining in the halls and dormitories and dining rooms was done during the summer. Once again we have to face the winter with a building that is almost impossible to heat due to the looseness of windows and doors. For several years we have been trying to get the exterior wood surfaces of the house painted, but have been unable to do so owing to the shortage of labour.

We find that our electrical output is now insufficient for our needs, and suggest that a larger diesel generator be obtained by the Department from the War Assets Corporation. An output of at least 15 kw. would be desirable.

The boiler inspector made certain recommendations regarding our hot water supply which I hope will be accepted, because we are woefully short of hot water on bath days.

Mr. Robert Howe, Indian Agent,

The Department is in receipt of a letter outlining the views expressed by a delegation of Indians from your agency recently. As regards education, the statements read as follows:-

1. "They protest that education is neglected to make the school farm pay, that the children would be better off working at home with their parents, if they have to do such work, rather than working for an institution. In this regard I quote the actual words of the delegation, - 'The children learn only to pray and milk cows'.

2. "The Indians in question strongly urge that they be permitted to establish public schools for Indian children on the same basis as that of schools for white children".

With reference to No. 1, it would be appreciated if you would discuss it with the Principal.

With regard to No. 2, you should let me have your views regarding day schools. In isolated districts it is usually very hard to obtain regular attendance at day schools.

When you have had an opportunity of discussing the first part of this letter with the Principal, you should let me have a report.

Dear Sir:

I have to refer to your letter of September 14 with regard to the Indians of the Stuart Lake Agency, Vanderhoof, British Columbia.

In reply to the various points raised I have to advise you as follows:

1. - Periodic surveys are made in all the Residential Schools and all children are examined on admission, but it is doubtful if Tuberculosis is contracted while in the school. We are opening a hospital at Prince Rupert this fall and more intensive surveys will be made as more beds will be available for treatment.

2. & 3. - The complaint made that the education of the children is neglected to make the school farm pay will be investigated, together with the statement that the Indians wish to be permitted to establish public schools for their children on the same basis as that of schools for white children.

4. - The matter of clearing land and furnishing additional machinery is one that is receiving the attention of the Branch. Our files show that considerable assistance has been granted to the Indians of the Stuart Lake Agency during the past few years. The process of outfitting Indians completely is of necessity slow due to limited appropriations and the scarcity of such machinery during the war years. Added to this is the necessity of educating the Indians to care for and use such expensive machinery.

5. - Old Age Pensions, as such, are not payable to Indians. Each particular case of need is dealt with by the Branch on its own merits and a stated quantity of staple foods is supplied. If the Medical Officer,

Dear Sir:

I met a delegation of Indian representatives at Vanderhoof. I desire to place before you the burden of their plea.

1 - They protest that T. B. spreads rapidly amongst the children who attend the local school. It is alleged that the children will be in dormitories, with no proper care taken to segregate those suffering from the disease and that, consequently, it spreads to healthy pupils. Instances were given by the delegation of children who entered the school healthy, having been thoroughly examined and X-rayed, but who came out a year or so later to return home and die.

2 - They protest that education is neglected to make the school farm pay, that the children would be better off working at home with their parents, if they have to do such work, rather than working for an institution. In this regard I quote the actual words of the delegation, - "The children learn only to pray and milk cows".

3 - The Indians in question strongly urge that they be permitted to establish public schools for Indian children on the same basis as that of schools for white children.

4 - They want some assistance in clearing more land. They want tractors, bulldozers, heavy equipment,

which is beyond the power of the Indian to obtain himself, but which he sorely needs in order to extend production.

5 - They also insist that the Old Age Pension be paid them on the same basis as it is paid to Canadian citizens generally. They claim that they receive now only \$4 a month and this amount is paid to them in kind as dictated by the Department.

So far as I was able to investigate there seemed to be good cause for the unrest among the Indians. I am, therefore, placing their plea before you in the hope that you will consider the matters herein mentioned and provide, if possible, remedial measures.

For quarter ending December 31st., 1944.

ATTENDANCE

At the time of writing there are 174 children present in the school. Although several children have left for various reasons, there have been seven new admissions, and a number of others have returned who were already on the rolls.

MORALE

The spirit of the girls is excellent, and they have not given any undue trouble or anxiety. However, many of the boys are somewhat sullen; they are unwilling to work and are not amenable to discipline. Three of the older boys broke out one night, but we had them all back in school before the following nightfall. This seems to have had a settling effect on the others.

HEALTH

At the beginning of the quarter we had a continuation of the pneumonia epidemic reported in the last general report. We had the children say special prayers each evening for the health of all of the school children. The pneumonia stopped very soon thereafter, and since we have had very few children in bed. There have been a few minor accidents due to sliding and sleighing, but nothing serious.

As a result of the T.B. clinic in October, seven children had to go to the hospital for treatment.

The "Zenith" hearing aid was procured and given to one of the older girls. The results were very satisfactory, until the other day the device went out of order and we had to send it in for service.

LIVESTOCK

The financial results from the sale of stock were only fairly satisfactory; but all that could have been expected under prevailing market conditions.

The shortage of feed and straw is causing us considerable anxiety, for our supplies are rapidly running low.

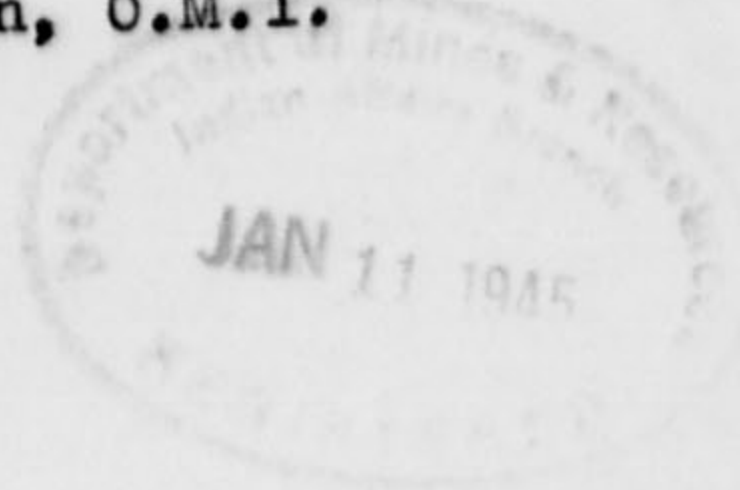

REMARKS

A considerable reduction of the antagonism among the Indian people towards the school has been noted these past few months. All of the parents who have visited the school have been quite cordial and appeared to be satisfied. We had the annual Christmas concert on December 21st., and a large crowd from several of the reserves attended. There were also many visitors here for the Midnight Mass.

All of these occasions passed by without a single complaint or argument; which is very unusual indeed.

Major D.M. MacKay, Indian Commissioner for B. C., Vancouver.

For sometime past I have been gravely concerned over the lack of school accommodation in this Agency. Now that the national war emergency has been greatly relieved the time is at hand when something should be done to remedy the situation.

In this connection I am enclosing herewith a list showing the total number of children between the ages of seven and sixteen years of each Band in the Agency and those who are attending school and the number at home uneducated. It will be noted there are 202 children in the latter category.

At the close of the last term there were 181 pupils in attendance at the Lejac Indian Residential School, which includes 29 from the Stikine Agency, 9 from the Babine Agency and 2 from the Vancouver Agency, leaving 141 pupils from the Stuart Lake Agency. The official capacity of the Lejac School is 160 pupils, therefore accommodation has been taxed to the utmost.

Either another wing should be added to the Lejac School or day schools should be established on reserves where practicable. Personally, I am in favour of day schools and wish to recommend that immediate steps be taken to construct and operate a day school on the Stony Creek Indian Reserve, 9 miles south of Vanderhoof. A modern school should be built to accommodate 60 pupils, preferably with quarters attached for married teacher whose wife may be available as part time field matron if desired. A day school on this reserve would relieve the accommodation at Lejac School and make room for 45 children from remote areas where day schools are not practicable. These children would also greatly benefit by the medical supervision provided at the school and manual training and farming instruction which is sorely needed amongst the remote bands.

The Indians as a whole, particularly in remote areas are not favourably disposed to sending their children to residential schools, and a great deal of persuasion and tact would be required in this connection. It may be necessary to invoke the truancy sections of the Indian Act to enforce attendance, but regardless of the methods employed, these underprivileged children will benefit considerably by a period in Lejac Residential School and accommodation should be made available for this purpose.

I had intended applying for a day school at the Necoslie Indian Reserve, Fort St. James, B. C. as well as Stony Creek, but the time being a school at Stony Creek would relieve the congestion at Lejac School for a year or so. If, at the end of this period additional accommodation is still required, plans for a day school at Necoslie may be submitted for consideration.

For the past few years considerable pressure has been brought to bear on this office for day schools by the various Bands, particularly Stoney Creek and Necoslie Bands, and I am confident we may be assured of the full co-operation of the Indians in this connection. Absenteeism, which, I understand has been quite a problem with day schools, will be totally eliminated with the payment of Family Allowances. Adequate medical supervision is also available at these reserves, which is not available in remote areas, consequently most of these children ~~are~~ are in deplorable physical condition. In this connection I wish to quote hereunder the last paragraph of

## Lejac Indian Residential School

Under Direction of The Oblate Fathers

Lejac, B.C.

October 17th., 1945.

Robert Howe, Esq.,  
Indian Agent,  
Vanderhoof, B.C.

Dear Mr. Howe:

With regard to Mr. Phelan's letter to you of October 4th. concerning certain criticisms expressed by a delegation of Indians from your agency about this school, I wish to make the following observations:

1. "Education is neglected to make the school farm pay." The Department cannot be ignorant of the fact that some of the children do a certain amount of work on the farm, not only in this school but in every other school that I know of. This is supposed to be part of their training. As to making the school farm pay, every cent of revenue from the farm goes into the school funds; without this we could not operate the school. Our annual grant amounts to \$29,600, we have 188 children in school, so our per diem grant amounts to 43.1 cents per child. To feed and clothe a child on 43 cents per day is impossible. If reference is made to my quarterly reports for the past year or so, you will find that I complain of the small number of boys who are old enough to be of assistance in the farm work.
2. "The children learn only to pray and to milk cows." To reply to this specific complaint about milking cows. In this school two boys go to the barn each morning and evening to help with the milking. These boys are changed each week and there are 12 boys on the milkers list; thus each boy has to milk one week out of every six. While milking they miss four evening classes in the whole week. Milking machines are used here, and most of the work is done by two hired men. I know of another school where 21 boys go out to milk each morning and evening. I think that the above complaint is groundless.

Before any steps are taken to change the system of education of the Indians in this area, I think that it would only be fair to ascertain the true opinion of the Indians themselves. These so-called "delegations" are usually self-appointed and do not have any right to pose as representing their people. I would suggest that Indians who have, or have had, or have been, children in this school be asked individually for their opinion as to the type of school they prefer.

Yours very truly,

With reference to your letter of October 4th. I beg to enclose herewith a letter received from the Principal of the Lejac Indian Residential School replying to the complaints as expressed by a delegation of the Indians from this Agency.

The use of pupil labour on the school farm has been a bone of contention with the Indians for many years and the cause of a great deal of dissatisfaction. I have often thought that it would be beneficial for all concerned if the school farms were completely abolished, if only for the psychological effect.

On the other hand the Principal advises that it is impossible to operate the school without the revenue and produce derived from the farm. In my opinion a limited amount of certain types of farm work is educational and of benefit to the pupils in later life, provided of course, it does not interfere with the daily class room curriculum.

With regard to day schools I am enclosing a copy of my report to Major Mackay dated July 30th. 1945 giving my views on the school situation and recommending two full time day schools for this Agency. Contrary to the Principal's observations the Indians appear to me to be unanimously in favour of day schools.

I would strongly urge that immediate consideration be given to my request for a day school at the Stony Creek Reserve, so that a suitable school building may be erected and in operation for the 1946 term.

Your File 163-1-1

I have your letter of October 30th regarding complaints made by Indians of the Stuart Lake Agency against the Lejac Indian Residential School, and urging the establishment of day schools in the Agency, together with a copy of your letter to Mr. Indian Agent Howe of the same date relating to these matters.

On July 30th last Mr. Howe wrote me reporting on the lack of school accommodation in his Agency, advising that there were in excess of two hundred children of school age for whom the necessary facilities were not available. Following receipt of the Agent's letter I wrote to him requesting that he make a survey of the situation supplying the necessary information in detail, a copy of my letter to him in this respect is enclosed herewith. Mr. Howe supplied the information required under date of August 9th, 1945.

Similar surveys have been made in the Kamloops, Williams Lake and Lytton Agencies in response to instructions issued from here and the information secured is being held for the immediate use of the Inspector of Schools once an appointment is made. The situation in these Agencies may be summarized as follows:

| <u>Agency</u> | <u>Children of school age<br/>not attending school</u> | <u>Pre-school age<br/>children</u> |
|---------------|--------------------------------------------------------|------------------------------------|
| Kamloops      | 150                                                    | 214                                |

I have your letter of July 30th in connection with the lack of school accommodation in your Agency. It is somewhat disturbing to note that out of 341 children of school age over 200 are not receiving an education. The problem should be given immediate attention and in order to place the information in proper detail before the Department I would request that you make a survey and supply particulars by Bands along the following lines:

We recently received a letter from Mr. W. Irvine, M.P., forwarding complaints made to him by a delegation of Indians in the Stuart Lake Agency. Their statements were as follows:-

1. "They protest that education is neglected to make the school farm pay, that the children would be better off working at home with their parents, if they have to do such work, rather than working for an institution. In this regard I quote the actual words of the delegation, - 'The children learn only to pray and milk cows'.
2. "The Indians in question strongly urge that they be permitted to establish public schools for Indian children on the same basis as that of schools for white children".

We wrote to Indian Agent Howe in the matter and in his reply he forwards a copy of his letter to you dated July 30, 1945. I enclose, for your information, a copy of my reply to him.

I have your letter of the 18th instant, reporting on complaints received from a delegation of Indians in connection with the Lejac Indian Residential School.

It is hoped to be able to appoint a new Inspector of Indian Schools for the province of British Columbia in the near future. When his services are available, he can make a survey of the situation in the Stuart Lake Agency and decide what addition, if any, might be required at the Lejac School and also the advisability of establishing day schools on some of the reserves.

PRINCE GEORGE, B.C.

Dear Mr. Wilson:

I have your letter of September 9th, with regard to the complaints of Councillor Adamas Alexis of the Stony Creek Band, relative to conditions at the Lejac Indian Residential School.

The underlying motive behind the complaints, is the Indian's desire for Day Schools on the Reserves. The Department is definitely in favour of Day Schools, and there is not doubt that in the not too distant future, Parliament will provide funds for this purpose. In the meantime, we have to make use of the existing facilities.

Regarding Sanitary conditions. The Lejac School is kept in spotless condition. It is one of the cleanest and most sanitary Public Buildings in B.C. Far more sanitary than most of the White Schools. Adequate Medical and Hospital facilities are provided at all times.

Of late years, the Department has taken definite and progressive steps towards control of tuberculosis. Provincial x-ray Clinics examine the pupils twice a year. Any pupil showing the slightest sign of tuberculosis is removed to Hospital immediately, away from other contacts. Owing to the fact that this disease is discovered at the School, on or shortly after arrival of new pupils, the parents have the mistaken impression that it is contracted at the School. I have spent many an hour trying to convince them to the contrary.

The time spent by pupils in Manual Labour and Religious instruction has been a controversial matter for many years. A Joint Committee of the House and Senate has recently been set up to examine and consider the Indian Act, and I am convinced that many changes will take place, particularly in relation to Education, class-room Curricula, employment of fully qualified Teachers, and establishment of Day Schools where practicable.

I have patiently discussed the situation fully with Chiefs and Headmen of the Agency on several occasions, including Adamas Alexis, and advised them that they are defeating their own ends by boycotting the Lejac Residential School at this time. They must have patience, Rome was not built in a day.

It is my duty to see that pupils return to School in accordance with Sec.10 (4) of the Indian Act. I do not wish to invoke the Truancy Section of the Act, if the Indians can be persuaded by other means. Anything you can do to help, in the way of advice to your Client will be most appreciated.

Yours faithfully,

Schools:

Several visits were made to Lejac Indian Residential School during the quarter. Owing to the admission of several pupils to hospital for tuberculosis and other complaints, the pupilage is down to the official quota.

At one time during March, 140 pupils and half the staff were confined to bed with influenza. Fortunately there are no serious after effects. At this date practically all the pupils and staff have fully recovered. Dr. J. Hocking completed an 8-day dental clinic at the school February 24th last.

Action is being taken to secure two teachers for the Takla Landing and Fort McLeod Indian Seasonal Schools. So far one application has been received for the Fort McLeod position. It is difficult to obtain suitable teachers for a three month term at these remote reserves.

LEJAC INDIAN RESIDENTIAL SCHOOL

GENERAL REPORT

For quarter ending December 31st., 1945.

:::: :::: ::::

ATTENDANCE

Although, as stated in the report for the previous quarter, we had determined to refuse admission to applicants for this school, it has been very difficult to follow this policy and now we find that we have 190 children now in attendance. Of course, this means that we are somewhat overcrowded, but at least the children are being educated.

A hall or gymnasium is badly needed here. This could be combined in a new building with more dormitory and classroom space.

MORALE

The children are all quite contented. There has not been any attempt at running away from school, as yet. For the Christmas Concert on December 22nd., we had about 160 Indian visitors. Only one out of all these had any criticism to make, and he hardly merits any consideration.

HEALTH

As far as the general health of the children is concerned, this is one of the best years we have had so far, in that there has not been any serious sickness among the children. There have been two or three injuries sustained in playing hockey, but nothing of a serious nature. Since the visits by parents and friends for the Christmas concert, nearly everyone in the house has had a cold, but nothing to worry about.

LIVESTOCK

Due to short crops of last season we are now buying feed for all of the livestock, which adds considerably to our current expenses.

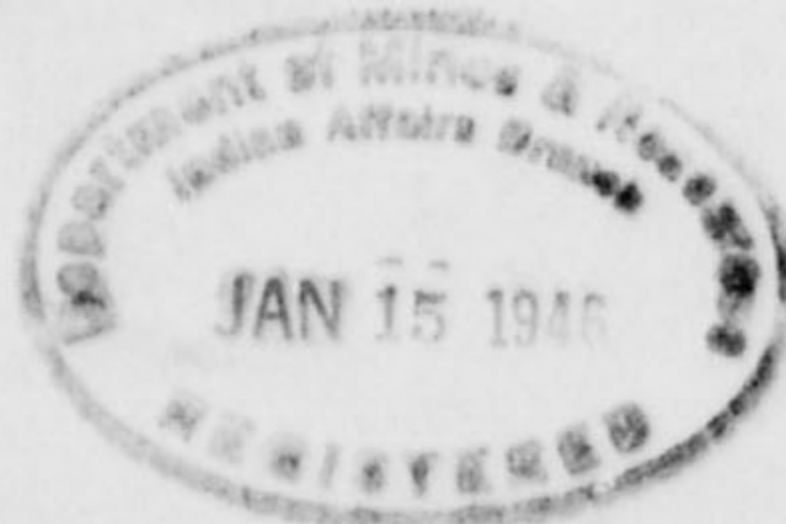

General Remarks.

On his last visit, the boiler inspector made certain recommendations regarding the hot water supply, but, so far, these have not received any consideration by the Department. This condition has been complained of for a number of years past. On bath days for the children there is not half enough hot water.

Due to the fact that the Indians are constantly complaining of the carrying of boiler wood by their children, and the increasing cost and difficulty of obtaining supplies of cord wood for the boilers, I would suggest that the Department consider the question of converting our heating system to an oil-burning one.

Dear Mr. Howe:-

One of your wards named Adanas Alexis of Stony Creek has brought me in a notice served on him by the Police in regard to the attendance of his children at school.

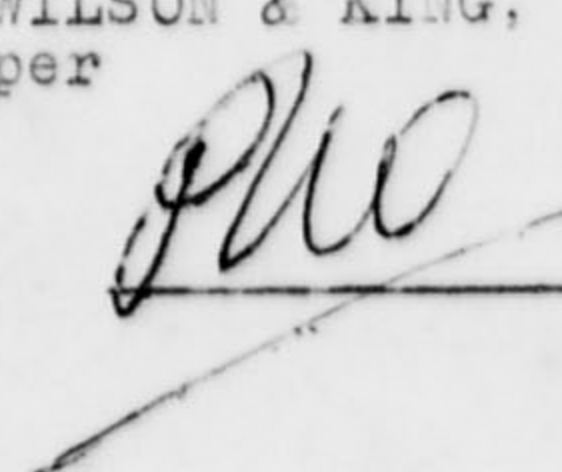

According to him the complaint against the school at Lejac is first that the children are not taught anything but are only taught one or two hours a day and the rest of the time are engaged in manual labour and as a result no child in the Indian School gets beyond 2nd or 3rd grade. He also complains about the sanitary conditions there from the fact that some of the Indian children are diseased. I told him I would write to you and get the correct information. He, I think, has seen you but I would like some coherent statement from you as his statement is not very coherent and I would like to be in possession of the facts.

I am sorry to trouble you but drop me a line about it.

AIR MAIL

Department of Mines & Resources, Indian Affairs Branch,  
OTTAWA, Ontario.

I wish to advise that the Rev. A.R. Simpson, Principal of the Lejac Indian Residential School, reported 100 absentee pupils at the opening of the term, September 3rd last. Despite the efforts of the Agency Staff and the assistance of Cpl. Fielder of the local Detachment of the R.C.M.P., there are still approximately 70 truants.

The Indians list a number of grievances, such as the time spent by pupils in manual labour, and religious instruction, and also, their desire for Day Schools, as reasons for keeping the children at Home. The antagonism and opposition displayed by the Indians towards the Lejac Residential School is more marked in recent months than at any time since I took over the Agency 8 years ago.

I have patiently discussed the situation with the Chiefs and Headmen of the Bands concerned and advised them that in all probability in the not too distant future, changes will take place, particularly in relation to education and establishment of Day Schools where practicable, and that they are defeating their own ends by their present attitude.

The Stony Creek Band, where there are 40 absentees are particularly adamant, and positively refuse to return the children to school. They recently sent a representative to interview and obtain legal advice from Mr. P.E. Wilson, Barrister at Prince George, B.C. I am enclosing copies of correspondence between Mr. Wilson and myself in this regard. It is gratifying to note that Mr. Wilson gave sound advice and advised his clients to send the children to school.

In view of the determined attitude of the parents I feel that in order to ensure attendance at Lejac Residential School, action should be taken under the Truancy Section of the Indian Act. I have already served written notices on about 15 parents in accordance with Sec. 10, sub-sec. 3 of the Act, but before proceeding to issue summonses, I would like to have the Department's advice and approval.

I would strongly recommend that when the new School Inspector is appointed for B.C., that he meet the Chiefs and Headmen of this Agency to discuss and investigate their complaints at the first opportunity.

A reply by air-mail will be appreciated.

Dear Sir -

I am enclosing a letter for your attention - Would it be possible to procure any hockey equipment from the Department in Ottawa.

When I arrived at the school two months ago I found that there were no tools in the Manual Training Shop. I brought this to the attention of Mayor Dancy and a requisition has gone in for some supplies.

The Inspector complained that there were not sufficient sports activities for the children. There is not one pair of skates in the school and during the severe northern winters it is difficult to find any spot to take the place of hockey. With a

Ottawa, November 17, 1947.

Dear Father Mulvihill:

I have for answer your letter of November 7th. Due to the large number of schools which we have from whom we have had several requests for sporting equipment, it has long been the policy of the Department to supply only athletic equipment for three such games, namely, softball, volley ball and football. We have never provided equipment for hockey but have left this matter to the Principal of the school concerned.

You can readily realize that if we made an exception for one school that the news would quickly spread and we would be deluged with similar requests from elsewhere.

Sincerely yours,

Bernard F. Neary,  
Supt. of Welfare & Training.

Dear Father Mulvihill:

I have been talking with Father Birch concerning the per capita grant at your school. As I have informed him, we use many factors in arriving at these per capita grants, among them the figures presented by the visiting auditor.

Unfortunately, the latest auditor's report was not available at the time our last per capita rates were presented to the Minister, and the last report on hand was that made in 1947.

We hope to make a further representation to the Minister concerning certain schools and a request will be made that yours be included in this list.

Yours sincerely,

  
Bernard F. Neary,

Mr. B. F. Neary  
Supt. of Education  
Indian Affairs Branch

Dear Mr. Neary:

I received your wire this morning and I was disappointed about the teachers. However I have a Manual Trainer lined up and advised him to send his qualifications to you and a request as to the salary allowed.

One of the teachers I spoke about is Mr. V. Verhulst. At present he is attending Summer Normal School in Alberta. He has taught here for the past two years and I told him to try to pick out another teacher for me this year. We are losing one of the Sisters who will attend Normal this year and return next year.

Mr. Verhulst phoned me last night from Edmonton and among subjects he discussed he told me that he had written to you asking if the Department would pay half the salary of a teacher he had picked out for me. I did not authorize him to write in my name so kindly disregard this request. He is trying to get a staff and the two teachers that I mentioned in my wire are for here so kindly do not woo them away to Day Schools.

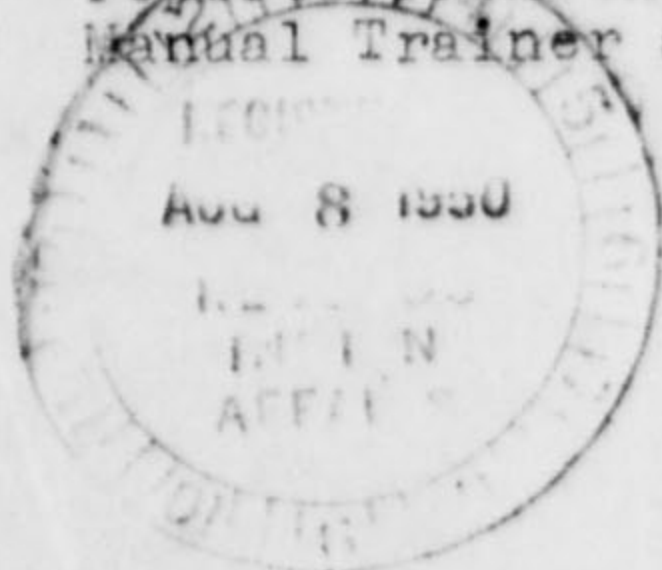

Thanking you for all your kindness.

Yours Sincerely

*J.P. Mulvihill*  
J.P. Mulvihill

I will send the same request in again when you have all the reports from the principals. Would you kindly advise about the Manual Trainer and the Lighting Plant.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Lejac Residential School for the Quarter ended March 31st 19 43

Principal Rev. Alex R. Simpson, D.D.

Dated March 31st 19 43

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Lejac Residential School for the Quarter ended March 31st 1943.

Principal Rev. Alex. R. Simpson, O.M.I.

Dated March 31st 1943

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.

7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Lejac Residential School for the Quarter ended June 30th 1943.

Dated June 30th 1943.  
Principal Rev. Alex R. Simpson, O.S.A.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter."
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter."
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Lejac Residential School for the Quarter ended June 30th 1943.

Principal Rev. Alex R. Simpson, D.M.

Dated June 30th 1943.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter."
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter."
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Lejac Residential School for the Quarter ended June 30th 1923.

Principal Rev. Alex R. Simpson, O.M.I.

Dated June 30th 1923.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Lejac Residential School for the Quarter ended June 30th 1943.

Principal Rev. Alex R. Simpson, O.S.A.

Dated June 30th 1943.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Lejac Residential School for the Quarter ended June 30th 1943.

Principal Rev. Alex R. Simpson, O.M.I.

Dated June 30th 1943.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the LEJAC INDIAN RESIDENTIAL SCHOOL School for the Quarter ended September 30 1943.

Principal R. Alex. R. Simpson, D.D.

Dated September 30 1943.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the LEJAC INDIAN RESIDENTIAL SCHOOL School for the Quarter ended September 30 1943.

Principal R. Alex R. Simpson, M.A.

Dated September 30 1943.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter."
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter."
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.

7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter."

8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter."

9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter."
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter."
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the LEJAC INDIAN RESIDENTIAL SCHOOL School for the Quarter ended December 31 1943.

Principal Rev. Alex R. Simpson, O.M.S.

Dated December 31 1943.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

R. Howe  
Indian Agent

Dated at Vanderhoof B.C.

this Jan 4 1944.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter."
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter."
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Lejac Ind Residential School for the Quarter ended September 30, 1944.

Principal Rev. Alex R. Simpson, Oall.

Dated September 30, 1944

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Lejac Ind Residential School for the Quarter ended September 30, 1944.

Principal Rev. Alex R. Simpson Ours

Dated September 30, 1944

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Lejac Ind. Residential School for the Quarter ended September 30, 1944

Principal Rev. Alex R. Simpson, O.S.A.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Lejac Ind. Residential School for the Quarter ended September 30, 1944.

Principal R. A. R. Simpson, Oud

Dated September 30, 1944

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Lajic Indian Residential School for the Quarter ended September 30, 1944.

Principal Rev. Alex R. Simpson, D.M.

Dated September 30, 1944

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Lejac Indian Residential School for the Quarter ended September 30, 1944

Principal R. Alex R. Simpson, Esq.

Dated September 30, 1944

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

J. H. Howe  
Indian Agent

Dated at Vancouver, B.C.  
this October 5<sup>th</sup> 1944

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Lejac Ind. Resid. School for the Quarter ended December 31, 1944.

Principal Rev. Alex. R. Simpson, M.P.

Dated December 31, 1944

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Lejac Ind. Resid. School for the Quarter ended December 31, 1944.

Principal R. A. R. Simpson, D. M.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Lejac Ind. Resid. School for the Quarter ended December 31, 1944.

Principal R. Alex R. Simpson, D.M.

Dated December 31, 1944

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Lejac Ind. Resid. School for the Quarter ended December 31, 1944.

Principal Rev. Alex R. Simpson, D.M.

Dated December 31, 1944

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Lejac Ind. Resid. School for the Quarter ended December 31, 1944

Principal Rev. Alex. R. Simpson, D.M.

Dated December 31, 1944

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

## NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

### SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

## INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN
